

THESE MINUTES ARE DRAFT UNTIL CONFIRMED AT THE NEXT MEETING OF THIS COUNCIL AND/OR COMMITTEE

MINUTES OF PLANNING COMMITTEE MEETING OF THE COUNCIL OF THE CITY OF RANDWICK HELD ON TUESDAY, 8 MAY 2012 AT 6.12PM

Present:

The Mayor, Councillor S Nash (West Ward)

- | | |
|--------------|---|
| North Ward | - Councillors K Smith (Chairperson), P Tracey & M Woodsmith |
| South Ward | - Councillors R Belleli, C Matthews & A White |
| East Ward | - Councillors T Bowen & M Matson |
| West Ward | - Councillors B Hughes (Deputy Chairperson) & J Procopiadis |
| Central Ward | - Councillors A Andrews, T Seng & G Stevenson |

Officers present:

General Manager	Mr R Brownlee
Director City Services	Mr J Frangoples
Director City Planning	Ms S Truuvert
Director Governance & Financial Services	Mr G Banting
Manager Development Assessment	Mr K Kyriacou
Senior Administrative Coordinator	Ms J Hartshorn
Manager Organisational Staff Services	Ms F Calabrese

The meeting was adjourned at 6.12pm and was resumed at 6.34pm.

Apologies/Granting of Leave of Absences

An apology was received from Notley-Smith.

RESOLVED: (Belleli/Procopiadis) that the apology received from Cr Notley-Smith be accepted and leave of absence from the meeting be granted.

Confirmation of the Minutes

CONFIRMATION OF THE MINUTES OF THE PLANNING COMMITTEE MEETING HELD ON TUESDAY 10 APRIL 2012

PL41/12

RESOLUTION: (Andrews/Woodsmith) that the Minutes of the Planning Committee Meeting held on Tuesday 10 April 2012 (copies of which were circulated to all Councillors) be and are hereby confirmed as a correct record of the proceedings of

that meeting subject to the 'Declarations of Pecuniary and Non-Pecuniary Interests' being amended as follows:

- b) Cr Matthews declared a non significant non pecuniary interest in Item D29/12 as he recently attended a Surf Life Saving Club function hosted by the Coogee Bay Hotel.
- c) Cr Andrews declared a non significant non pecuniary interest in Item D29/12 as he recently attended a Surf Life Saving Club function hosted by the Coogee Bay Hotel.
- d) Cr Matson declared a non significant non pecuniary interest in Item D29/12 as he recently attended an event at the Coogee Bay Hotel.
- e) Cr Belleli declared a non significant non pecuniary interest in Item D29/12 as he recently attended a Surf Life Saving Club function hosted by the Coogee Bay Hotel and the applicant has in the past made a donation to the Head Office of the State Liberal Party.
- g) Cr Seng declared a non significant non pecuniary interest in Item D29/12 as he recently attended a Surf Life Saving Club function hosted by the Coogee Bay Hotel and the applicant has in the past made a donation to the Head Office of the State Liberal Party.

Declarations of Pecuniary and Non-Pecuniary Interests

- a) Cr Matson declared a significant non pecuniary interest in Item D46/12 as a Council delegate on the JRPP. Cr Matson indicated that he would not take part in the debate or the voting on this matter.
- b) Cr Matson declared a non significant non pecuniary interest in Item D37/12 as he knows the objector.
- c) Cr Andrews declared a significant non pecuniary interest in Item D38/12 as he knows the applicant and some objectors. Cr Andrews indicated that he would not take part in the debate or the voting on this matter.
- d) Cr Andrews declared a non significant non pecuniary interest in Item D37/12 as he knows the Director of the Gemini Hotel.
- e) Cr Hughes declared a significant non pecuniary interest in Item D46/12 as Council's alternate delegate on the JRPP. Cr Hughes indicated that he would not take part in the debate or the voting on this matter.
- f) Cr Bowen declared a non significant non pecuniary interest in Item D42/12 as one of objectors was a former tenant of a premises owned by his family trust.
- g) Cr Procopiadis declared a non significant non pecuniary interest in Item D45/12 as he knows the objector.
- h) Cr Mathews declared a significant non pecuniary interest in Item D42/12 as he has a personal friendship with the objector. Cr Mathews indicated that he would not take part in the debate or the voting on this matter.
- i) Cr Seng declared a non significant non pecuniary interest in Item D36/12 as he lives in the street in question.
- j) Cr Nash declared a significant non pecuniary interest in Item D46/12 as a Council delegate on the JRPP. Cr Nash indicated that he would not take part in the debate or the vote on the matter.

Address of Council by Members of the Public

Prior to consideration of the Agenda by the Committee, deputations were received in respect of the following matters:

- D36/12 51 WILLIS STREET, KINGSFORD (DA/676/2009/B)
- Against** Anthony Betros – representing the applicant
- For** Anna Vetski - objector
- D37/12 65-71 BELMORE ROAD, RANDWICK (DA/606/2011)
- Against** Anthony Betros – representing the applicant
- For** Arwin Poon - objector
- D38/12 35- 37 SACKVILLE STREET, MAROUBRA (DA/406/2011/A)
- For** Anthony Betros – representing the applicant
- D40/12 8 HINCKS STREET, KINGSFORD (DA/436/2011/A)
- Against** Ray Broderick - applicant
- For** Helen Yiallourous - objector

Having declared an interest in Item D42/12 earlier in the meeting, Cr Matthews left the meeting during the public address on the matter.

- D42/12 1609-1611 ANZAC PARADE, LA PEROUSE (DA/76/2009/A)
- Against** Brett Daintry - representing the objector
- For** Braith Anasta – representing the applicant

Cr Matthews return to the meeting.

- D44/12 163 BOYCE ROAD, MAROUBRA (DA/170/2012)
- For** Andre Richard – representing the applicant
- D45/12 17 LIGURIA STREET, MAROUBRA (DA/818/2011)
- Against** Georgia Constantinou - objector
- For** Anthony Murphy - applicant

Urgent Business

UB4/12 Cr Tony Bowen - Enforcement of Alcohol-Free Zones (PROJ/10628/2012)

PL42/12 **RESOLUTION: (Bowen/Andrews)** that Council call on the State Government to enforce the alcohol free zones at Coogee and that this matter be considered as urgent business given the incident at Coogee last weekend. **CARRIED.**

MOTION: (Bowen/Andrews) CARRIED – SEE RESOLUTION.

The meeting was adjourned at 7.38pm and was resumed at 7.52pm.

Development Application Reports

D36/12 Development Application Report - 51 Willis Street, Kingsford (DA/676/2009/B)

PL43/12

RESOLUTION: (Hughes/Mayor, Cr Nash) that Council, as the consent authority, refuse its consent under Section 96 of the Environmental Planning and Assessment Act 1979 as amended to modify Development Consent No DA/676/2009 by modifying the approved development by the increase in building height, internal reconfiguration, alterations to openings, revised lift location, alteration to basement car park layout and provision of extended basement car parking and provision of parking within set back from Kennedy Lane, new unit on level 5 and alteration to deck for unit 1 at 51 Willis Street, Kingsford, for the following reasons:

1. The proposal does not satisfy the relevant objectives for Residential 2C Zone as set-out in the Randwick Local Environmental Plan 1998 (Consolidation) in that:
 - a) The proposal fails to maintain the desirable attributes of established residential areas, and
 - b) Does not adequately protect the amenity of existing residents
2. The proposal fails to satisfy the SEPP 65 Design Quality Principles as set-out in State Environmental Planning Policy No. 65 – Design Quality of Residential Flat Development.
3. The proposal does not satisfy the objectives, preferred solutions and performance requirements for height, density, landscaping, privacy, view sharing and solar access set-out in the Development Control Plan – Multi-unit Housing.
4. The proposed increase in building and external wall height is excessive and does not comply with maximum building and external wall height under Clause 20G of the Randwick LEP 1998 (Consolidation) and results in adverse amenity impacts on adjoining properties and the streetscape in terms of solar access, privacy, view loss and excessive visual bulk and scale.
5. The proposed increase in floor space ratio varies from the maximum FSR standard stipulated for the zone in the Randwick LEP. The increase in floor space will detract from the purpose of the standard as it will result in adverse amenity impacts on adjoining properties and the streetscape in terms of solar access, privacy, view loss and excessive visual bulk and scale.
6. The visual bulk and scale of the proposal are not considered to be compatible with the existing development pattern in Willis Street and Kennedy Lane and the local area and will dominate the adjoining and nearby residential buildings. The proposal will not contribute to a satisfactory architectural outcome and will adversely affect the character of the local area and streetscape. Therefore, the proposal is not considered to satisfy the provisions of Section 79C(1)(b) of the Environmental Planning and Assessment Act 1979, as amended.
7. The proposal will compromise the approved original design of the proposal in that it will have a reduced landscaped area that does not comply with the minimum landscape area standard under Clause 20E of the Randwick LEP 1998 (Consolidation) and therefore compromise the landscaping treatment and measures along Kennedy Lane which are an integral part of the design of the approved development.
8. The proposal will have a detrimental impact on the heritage significance of the adjoining heritage item at No 53 Willis Street and its setting contrary to the

provisions contained in Clause 43 of the Randwick Local Environmental Plan 1998 (Consolidation) for the protection of heritage items.

9. The documentation submitted with the application is deficient of information and details relating to the slab thickness, proposed services, colours, materials and finishes of the external surfaces to the building.
10. The documentation submitted with the application is deficient of information and details relating to an amended BASIX and therefore does not satisfy the provisions of State Environmental Planning Policy - Building Sustainability Index: BASIX 2004.
11. The proposal is not considered to be in the public interest having regard to the public submissions received.

MOTION: (White/Matthews) that Council, as the consent authority, grant its consent under Section 96 of the Environmental Planning and Assessment Act 1979 as amended to modify Development Consent No DA/676/2009 by modifying the approved development by the increase in building height, internal reconfiguration, alterations to openings, revised lift location, alteration to basement car park layout and provision of extended basement car parking and provision of parking within set back from Kennedy Lane, new unit on level 5 and alteration to deck for unit 1 at 51 Willis Street, Kingsford, subject to standard conditions of consent incorporating all the requested modifications. **LOST.**

A **DIVISION** was taken and the names of the Councillors voting FOR and AGAINST were as follows:

FOR	AGAINST
Councillor Matthews	Councillor Andrews
Councillor White	Councillor Belleli
	Councillor Bowen
	Councillor Hughes
	Councillor Matson
	Councillor Nash
	Councillor Procopiadis
	Councillor Seng
	Councillor Smith
	Councillor Stevenson
	Councillor Tracey
	Councillor Woodsmith
Total (2)	Total (12)

MOTION: (Hughes/Mayor, Cr Nash) CARRIED UNANIMOUSLY – SEE RESOLUTION.

D37/12 Development Application Report - 65-71 Belmore Road, Randwick (DA/606/2011)

MOTION: (Andrews/Mayor, Cr Nash) that the application be deferred for six (6) weeks to allow the submission of amended plans.

MOTION: (Andrews/ Mayor, Cr Nash) CARRIED - SEE RESOLUTION.

A **DIVISION** was taken and the names of the Councillors voting FOR and AGAINST were as follows:

FOR	AGAINST
Councillor Andrews	Councillor Hughes

Councillor Belleli	Councillor Matson
Councillor Bowen	Councillor Smith
Councillor Matthews	Councillor Woodsmith
Councillor Nash	
Councillor Procopiadis	
Councillor Seng	
Councillor Stevenson	
Councillor Tracey	
Councillor White

D38/12 Development Application Report - 35- 37 Sackville Street, Maroubra (DA/406/2011/A)

PL44/12

RESOLUTION: (Andrews/Procopiadis) that Council, as the consent authority, grants development consent under Sections 80 and 80A of the Environmental Planning and Assessment Act 1979, as amended, to Development Application No. DA/406/2011/A for Section 96 modification of the approved development by increase in size of basement level to provide storage/ rumpus area for dwelling, at No. 35-37 Sackville Street, Maroubra, subject to the following conditions:

Amend Condition No. 1 to read:

- The development must be implemented substantially in accordance with the plans and supporting documentation listed below and endorsed with Council's approved stamp, except where amended by Council in red and/or by other conditions of this consent:

Plan	Dated	Received	Prepared By
DA2000(D)	Sep 2011	31 October 2011	Sgammotta Architects
DA2001(D)	Sep 2011		
DA3000(D)	Sep 2011		
DA4000(D)	Sep 2011		
Draft Strata Plan (B)	Undated	7 November 2011	
LA01(A)	23.05.2011	3 June 2011	Taylor Brammer Landscape Architects

And where amended by the following plans, as approved and stamped under DA/406/2011/A;

Plan	Dated	Received	Prepared By
<i>S96(A)</i>	<i>February 2012</i>	<i>29 February 2012</i>	<i>Sgammotta Architects</i>

BASIX Cert. No.	Project Name	Dated	Received
<i>378686M_03</i>	<i>35-37 Sackville Street, Maroubra_03</i>	<i>28 February 2012</i>	<i>29 February 2012</i>

the application form and any supporting information received with the application, except as may be amended by the following conditions and as may be shown in red on the attached plans:

Add the following detail to Condition 3:

- (v)** *The strata plan adopted in Condition 1 shall be amended to incorporate*

ensuring:

- *All floors, external walls and ceilings depicted in the proposed strata plan correspond to those of the building as constructed.*
- *All floors, external walls and ceilings depicted in the proposed strata plan correspond to those depicted in the approved building plans for the site.*

Amend Condition 4 to read:

4. In accordance with Council's Section 94A Development Contributions Plan effective from 2 July 2007, based on the development cost of **\$1,170,344**, the following applicable monetary levy must be paid to Council: **\$11,703.44**.

The levy must be paid in cash, bank cheque or by credit card prior to a construction certificate being issued for the proposed development. The development is subject to an index to reflect quarterly variations in the Consumer Price Index (CPI) from the date of Council's determination to the date of payment.

Council's Section 94A Development Contribution Plans may be inspected at the Customer Service Centre, Administrative Centre, 30 Frances Street, Randwick or at www.randwick.nsw.gov.au.

MOTION: (Andrews/Procopiadis) CARRIED UNANIMOUSLY - SEE RESOLUTION.

D39/12 Development Application Report - 123-125 Coogee Bay Road, Coogee (DA/93/2012)

PL45/12

RESOLUTION: (Andrews/Procopiadis) -

- A. That Council supports the objections under State Environmental Planning Policy No. 1 – Development Standards in respect to non-compliance with Clause 35(b) of Randwick Local Environmental Plan 1998, relating to business premises in residential zones, on the grounds that the proposed development complies with the objectives of the above clauses, and will not adversely affect the amenity of the locality, and that the Department of Planning be advised accordingly.
- B. That Council, as the consent authority, grants development consent under Sections 80 and 80A of the Environmental Planning and Assessment Act 1979, as amended, to Development Application No. DA/93/2012 to carry out alterations and conversion into yoga studio, tea bar and retail sales on ground floor at 123-125 Coogee Bay Road, Coogee, subject to the following conditions:

GENERAL CONDITIONS

The development must be carried out in accordance with the following conditions of consent.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of environmental amenity.

Approved Plans & Supporting Documentation

1. The development must be implemented substantially in accordance with the plans and supporting documentation listed below and endorsed with Council's approved stamp, except where amended by Council in red and/or by other conditions of this consent:

Plan	Received by Council
Commercial/lower level floor plan	13 February 2012

Amendment of Plans & Documentation

2. The approved plans and documents must be amended in accordance with the following requirements and details are to be included in the *Construction Certificate*:
 - (a) This determination is only related to the lower level commercial premises. The conversion of the dwelling into health consulting rooms shall be deleted from the application and details showing compliance with this condition shall be included in the Construction Certificate documentation.

REQUIREMENTS BEFORE A CONSTRUCTION CERTIFICATE CAN BE ISSUED

The following conditions of consent must be complied with before a 'Construction Certificate' is issued by either an Accredited Certifier or Randwick City Council. All necessary information to demonstrate compliance with the following conditions of consent must be included in the documentation for the construction certificate.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent conditions and to achieve reasonable levels of environmental amenity.

Consent Requirements

3. The requirements and amendments detailed in the 'General Conditions' must be complied with and be included in the construction certificate plans and associated documentation.

External Colours, Materials & Finishes

4. The colours, materials and surface finishes to the development must be consistent with the relevant plans, documentation and colour schedules provided with the development application.

Long Service Levy Payments

5. The required Long Service Levy payment, under the *Building and Construction Industry Long Service Payments Act 1986*, must be forwarded to the Long Service Levy Corporation or the Council, in accordance with Section 109F of the *Environmental Planning & Assessment Act 1979*.

At the time of this development consent, Long Service Levy payment is applicable on building work having a value of \$25,000 or more, at the rate of 0.35% of the cost of the works.

Development Engineer

6. Plans and documentation submitted for the construction certificate shall provide details on the proposed bike rack to the satisfaction of the certifying authority. The bike rack must be large enough to accommodate a minimum of 3 bicycles and be wholly located within the subject property with suitable access provided.

REQUIREMENTS TO BE INCLUDED IN THE CONSTRUCTION CERTIFICATE

The requirements contained in the following conditions of consent must be complied with and details of compliance must be included in the construction certificate for the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning &*

Assessment Regulation 2000, Councils development consent conditions and to achieve reasonable levels of environmental amenity.

Compliance with the Building Code of Australia & Relevant Standards

7. In accordance with section 80A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, it is a *prescribed condition* that all building work must be carried out in accordance with the provisions of the Building Code of Australia (BCA).

REQUIREMENTS PRIOR TO THE COMMENCEMENT OF ANY WORKS

The following conditions of consent must be complied with prior to the commencement of any works on the site. The necessary documentation and information must be provided to the Council or the '*Principal Certifying Authority*', as applicable.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity.

Certification and Building Inspection Requirements

8. Prior to the commencement of any building works, the following requirements must be complied with:
- a Construction Certificate must be obtained from the Council or an accredited certifier, in accordance with the provisions of the *Environmental Planning & Assessment Act 1979*.
 - A copy of the construction certificate, the approved development consent plans and consent conditions must be kept on the site at all times and be made available to the Council officers and all building contractors for assessment.
 - a Principal Certifying Authority (PCA) must be appointed to carry out the necessary building inspections and to issue an occupation certificate; and
 - the principal contractor must be advised of the required critical stage inspections and other inspections to be carried out, as specified by the Principal Certifying Authority; and
 - at least two days notice must be given to the Council, in writing, prior to commencing any works; and

Construction Noise & Vibration Management Plan

9. A *Construction Noise & Vibration Management Plan*, prepared in accordance with the Department of Climate Change Guidelines for Construction Noise and Assessing Vibration, by a suitably qualified person, is to be developed and implemented prior to commencing site work and throughout the course of construction, to Council's satisfaction.

Noise and vibration emissions during the construction of the building and associated site works must not result in damage to nearby premises or result in an unreasonable loss of amenity to nearby residents.

Construction Site Management

10. A *Construction Site Management Plan* must be developed and implemented throughout the site works, to Council's satisfaction. The construction site management plan must include the following measures, (as applicable):

- location and construction of temporary site fencing / hoardings;
- location of site storage areas/sheds/equipment;
- location of building materials for construction;
- provisions for public safety;
- dust control measures;
- details of proposed sediment and erosion control measures;
- site access location and construction
- details of methods of disposal of demolition materials;
- protective measures for tree preservation;
- location and size of waste containers/bulk bins;
- provisions for temporary stormwater drainage;
- construction noise and vibration management;
- construction traffic management details;
- provisions for temporary sanitary facilities.

A copy of the Construction Site Management Plan must be provided to the Principal Certifying Authority and Council prior to commencing site works. A copy must also be maintained on site and be made available to Council officers upon request.

Sydney Water

11. Prior to the commencement of excavation or building works, the approved Construction Certificate plans must be submitted to a Sydney Water Quick Check agent or Customer Centre, to determine whether the development will affect Sydney Water's sewer and water mains, stormwater drains and/or easements, and if any further requirements need to be met.

If suitable, the plans will be appropriately stamped. For Quick Check agent details please refer to Sydney Water's web site at www.sydneywater.com.au and go to the Building, Developing and Plumbing, then Quick Check or Building and Renovating or telephone 13 20 92.

The principal certifying authority must ensure that a Quick Check Agent/Sydney Water has appropriately stamped the plans before commencing works.

Public Utilities

12. A *Public Utility Impact Assessment* must be carried out on all public utility services on the site, roadway, nature strip, footpath, public reserve or any public areas associated with and/or adjacent to the development/building works and include relevant information from public utility authorities and exploratory trenching or pot-holing, if necessary, to determine the position and level of service.
13. The applicant must meet the full cost for telecommunication companies, gas providers, Energy Australia and Sydney Water to adjust/repair/relocate their services as required. The applicant must make the necessary arrangements with the service authority.

REQUIREMENTS DURING CONSTRUCTION & SITE WORK

The following conditions of consent must be complied with during the demolition, excavation and construction of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity during construction.

Inspections during Construction

14. The building works must be inspected by the *Principal Certifying Authority*, in accordance with sections 109 E (3) of the *Environmental Planning & Assessment Act 1979* and clause 162A of the *Environmental Planning & Assessment Regulation 2000*, to monitor compliance with the relevant standards of construction, Council's development consent and the construction certificate.

Building & Demolition Work Requirements

15. All demolition and building work associated and activities must be carried out in accordance with the following requirements:

- Occupational Health & Safety Act 2000 & Regulations
- WorkCover NSW Code of Practice for the Safe Removal of Asbestos
- WorkCover NSW Requirements, Guidelines and Codes of Practice
- Australian Standard 2601 (2001) – Demolition of Structures
- The Protection of the Environment Operations Act 1997
- The Protection of the Environment Operations (Waste) Regulation 2005
- DECC/EPA Waste Classification Guidelines
- Randwick City Council's Asbestos Policy

A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development section or a copy can be obtained from Council's Customer Service Centre.

It is the responsibility of the persons undertaking demolition work to obtain the relevant WorkCover licences and permits.

16. A Demolition Work Plan must be prepared for the development in accordance with Australian Standard AS2601-2001, Demolition of Structures and relevant environmental/occupational health and safety requirements.

The Demolition Work Plan must be submitted to the Principal Certifying Authority (PCA) and Council, not less than two (2) working days before commencing any demolition work. A copy of the Demolition Work Plan must be maintained on site and be made available to Council officers upon request.

Removal of Asbestos Materials

17. Any work involving the demolition, storage or disposal of asbestos products and materials must be carried out in accordance with the following requirements:

- The requirements of WorkCover NSW and Randwick City Council's Asbestos Policy.
- A WorkCover licensed demolition or asbestos removal contractor must undertake removal of more than 10m² of bonded asbestos (or as otherwise specified by WorkCover or relevant legislation). Removal of friable asbestos material must only be undertaken by contractor that holds a current friable asbestos removal licence. A copy of the relevant licence must be provided to the Principal Certifying Authority.
- On sites involving the removal of asbestos, a sign must be clearly displayed in a prominent visible position at the front of the site, containing the words 'DANGER ASBESTOS REMOVAL IN PROGRESS' and include details of the licensed contractor.
- Asbestos waste must be stored, transported and disposed of in compliance with the *Protection of the Environment Operations Act 1997* and the *Protection of the Environment Operations (Waste) Regulation 2005*. Details of the landfill site (which must be lawfully able to receive

asbestos materials) must be provided to the Principal Certifying Authority.

- A Clearance Certificate or Statement, prepared by a suitably qualified person (i.e. an occupational hygienist, licensed asbestos removal contractor, building consultant, architect or experienced licensed building contractor), must be provided to Council and the Principal Certifying Authority upon completion of the asbestos related works which confirms that the asbestos material have been removed appropriately and the relevant conditions of consent have been satisfied.

A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development Section or a copy can be obtained from Council's Customer Service Centre.

Sediment & Erosion Control

18. Sediment and erosion control measures, must be implemented throughout the site works in accordance with the manual for Managing Urban Stormwater – Soils and Construction, published by Landcom, to Council's satisfaction. Details are to be included in the Construction Site Management Plan.

Public Safety & Site Management

19. Public safety and convenience must be maintained at all times during demolition, excavation and construction works and the following requirements must be complied with:

- Public safety must be maintained at all times and public access to any demolition and building works, materials and equipment on the site is to be restricted. If necessary, a temporary safety fence or hoarding is to be provided to protect the public. Temporary site fences are to be structurally adequate, safe and be constructed in a professional manner and the use of poor quality materials or steel reinforcement mesh as fencing is not permissible.
- Building materials, sand, soil, waste materials, construction equipment or other articles must not be placed upon the footpath, roadway or nature strip at any time.
- The road, footpath, vehicular crossing and nature strip must be maintained in a good, safe, clean condition and free from any excavations, obstructions, trip hazards, goods, materials, soils or debris at all times. Any damage caused to the road, footway, vehicular crossing, nature strip or any public place must be repaired immediately, to the satisfaction of Council.
- Building operations such as brick cutting, washing tools or equipment and mixing mortar are not permitted on public footpaths, roadways, nature strips, in any public place or any location which may lead to the discharge of materials into the stormwater drainage system.
- Site fencing, bulk bins/waste containers and other articles must not be located upon the footpath, roadway or nature strip at any time without the prior written approval of the Council.

Applications to place site fencing, waste container or other articles in a public place can be made to Council's Health, Building and Regulatory Services department.

Excavations & Support of Adjoining Land

20. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 E of the *Environmental Planning & Assessment Regulation 2000*, it is a prescribed condition that the adjoining land and buildings located upon the adjoining land must be adequately supported at all times.
21. All excavations and backfilling associated with the erection or demolition of a building must be executed safely in accordance with appropriate professional standards and excavations must be properly guarded and supported to prevent them from being dangerous to life, property or buildings.

Site Signage

22. A sign must be erected and maintained in a prominent position on the site for the duration of the works, which contains the following details:
- name, address, contractor licence number and telephone number of the *principal contractor*, including a telephone number at which the person may be contacted outside working hours, or *owner-builder* permit details (as applicable)
 - name, address and telephone number of the *Principal Certifying Authority*,
 - a statement stating that "unauthorised entry to the work site is prohibited".

Restriction on Working Hours

23. Building, demolition and associated site works must be carried out in accordance with the following requirements:

Activity	Permitted working hours
All building, demolition and site work, including site deliveries (except as detailed below)	<ul style="list-style-type: none"> • Monday to Friday - 7.00am to 5.00pm • Saturday - 8.00am to 5.00pm • Sunday & public holidays - No work permitted
Excavating of rock, use of jack-hammers, pile-drivers, vibratory rollers/compactors or the like	<ul style="list-style-type: none"> • Monday to Friday - 8.00am to 5.00pm • Saturday - No work permitted • Sunday & public holidays - No work permitted
Additional requirements for all development	<ul style="list-style-type: none"> • Saturdays and Sundays where the preceding Friday and/or the following Monday is a public holiday - No work permitted
Internal fit-out work only within a commercial or industrial development, located in a commercial or industrial zone, which is not audible within any residential dwelling or commercial or industrial premises	<ul style="list-style-type: none"> • Monday to Saturday - No time limits (subject to column 1) • Sunday & public holidays - No work permitted

An application to vary the abovementioned hours may be submitted to Council's Manager Health, Building & Regulatory Services for consideration and approval to vary the specified hours may be granted in exceptional circumstances and for limited occasions (e.g. for public safety, traffic management or road safety reasons). Any applications are to be made on the standard application form and include payment of the relevant fees and supporting information. Applications must be made at least 10 days prior to the date of the proposed work and the prior written approval of Council must

be obtained to vary the standard permitted working hours.

Building Encroachments

24. There must be no encroachment of any structures or building work onto adjoining land, Council's road reserve, footway, nature strip or public place.

REQUIREMENTS PRIOR TO THE ISSUE OF AN OCCUPATION CERTIFICATE

The following conditions of consent must be complied with prior to the 'Principal Certifying Authority' issuing an 'Occupation Certificate'.

Note: For the purpose of this consent, any reference to 'occupation certificate' shall also be taken to mean 'interim occupation certificate' unless otherwise stated.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health, safety and amenity.

Occupation Certificate Requirements

25. An Occupation Certificate must be obtained from the Principal Certifying Authority prior to any occupation of the building work encompassed in this development consent (including alterations and additions to existing buildings), in accordance with the relevant provisions of the *Environmental Planning & Assessment Act 1979*.

Fire Safety Certificate Requirements

26. Prior to issuing an interim or final Occupation Certificate, a single and complete Fire Safety Certificate, which encompasses all of the essential fire safety measures contained in the *fire safety schedule* must be obtained and be submitted to Council, in accordance with the provisions of the *Environmental Planning and Assessment Regulation 2000*. The *Fire safety Certificate* must be consistent with the *Fire Safety Schedule* which forms part of the Construction Certificate.

A *Fire Safety Statement* must be provided to the Council on an annual basis, each year following the issue of a *Fire Safety Certificate*, which confirms that all the fire safety measures are operating in accordance with the relevant standards of performance.

A copy of the *Fire Safety Certificate/Fire Safety Statement* must be displayed in the building entrance/foyer at all times and a copy must also be forwarded to Fire and Rescue NSW.

Noise Control Requirements

27. The operation of plant and equipment must not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997 and Regulations*.

In this regard, the operation of the plant and equipment shall not give rise to an $L_{Aeq, 15 \text{ min}}$ sound pressure level at any affected premises that exceeds the background $L_{A90, 15 \text{ min}}$ noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A) in accordance with relevant NSW Office of Environment and Heritage (EPA) Noise Control Guidelines.

Waste Management

28. Adequate provisions are to be made within the premises for the storage, collection and disposal of trade/commercial waste and recyclable materials, to the satisfaction of Council.

Trade/commercial waste materials must not be disposed in or through

Council's domestic garbage service. All trade/commercial waste materials must be collected by Council's Trade Waste Service or a waste contractor authorised by the Waste Service of New South Wales and details of the proposed waste collection and disposal service are to be submitted to Council prior to commencing operation of the business.

The operator of the business must also arrange for the recycling of appropriate materials and make the necessary arrangements with an authorised waste services contractor accordingly.

29. Any liquid trade waste materials are to be disposed of in accordance with the requirements of the Sydney Water, Trade Waste Department (i.e. via a grease trap) and details of compliance are to be submitted to the Principal Certifying Authority prior to the commencement of any works.

Council's Infrastructure, Vehicular Crossings, street verge

30. The proposed bike rack with suitable access must be fully installed prior to the issuing of an occupation certificate.
31. The applicant must meet the full cost for Council or a Council approved contractor to repair/replace any damaged sections of Council's footpath, kerb & gutter, nature strip etc which are due to building works being carried out at the above site. This includes the removal of cement slurry from Council's footpath and roadway.
32. All external civil work to be carried out on Council property (including the installation and repair of roads, footpaths, vehicular crossings, kerb and guttering and drainage works), must be carried out in accordance with Council's Policy for "Vehicular Access and Road and Drainage Works" and the following requirements:
- a) All work on Council land must be carried out by Council, unless specific written approval has been obtained from Council to use non-Council contractors.
 - b) Details of the proposed civil works to be carried out on Council land must be submitted to Council in a Pre-paid Works Application Form, prior to issuing an occupation certificate, together with payment of the relevant fees.
 - c) If it is proposed to use non-Council contractors to carry out the civil works on Council land, the work must not commence until the written approval has been obtained from Council and the work must be carried out in accordance with the conditions of consent, Council's design details and payment of a Council design and supervision fee.

The civil works must be completed in accordance with Council's conditions of consent and approved design and construction documentation, prior to occupation of the development, or as otherwise approved by Council in writing.

OPERATIONAL CONDITIONS

The following operational conditions must be complied with at all times, throughout the use and operation of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health and environmental amenity.

The following conditions have been applied to ensure that noise emissions

from the development satisfy legislative requirements and maintain reasonable levels of amenity to the area:

33. There are to be no emissions, discharges or transmission of vibration nuisance from the premises which will give rise to a public nuisance or result in an offence under the *Protection of the Environment Operations Act 1997* and *Regulations*.
34. The proposed use of the premises and the operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997* and *Regulations*.

In this regard, the operation of the premises and plant and equipment shall not give rise to a sound pressure level at any affected premises that exceeds the background ($L_{A90}, 15 \text{ min}$) noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A). The source noise level shall be assessed as an $L_{Aeq, 15 \text{ min}}$ and adjusted in accordance with the NSW DECCW/EPA Industrial Noise Policy 2000 and Environmental Noise Control Manual (sleep disturbance).

35. The hours of operation of the business are restricted to the following: -

Monday – Sunday 7:00am - 8:00pm

36. Delivery of food and the like are restricted to;

Monday – Sunday 7:00am – 8:00pm

The following conditions are applied to ensure compliance with the Food Act 2003, Food Safety Standards and to ensure public health and safety:

37. No food preparation (cooking, cutting etc) shall be undertaken within the food premises unless written consent is given by Randwick City Council. The Café section is to be used for the sale of drinks and pre-packaged foods only.
38. The premises is to be designed and constructed in accordance with the Food Act 2003, Food Regulation 2004, Australia & New Zealand Food Standards Code and Australian Standard AS 4674-2004, Design, construction and fit-out of food premises. Details of the design and construction of the café & acupuncture treatment room are to be included in the documentation for the **construction certificate** to the satisfaction of the certifying authority.
39. The design, construction and operation of the food premises must comply with the following requirements, as applicable: -

- a) Floors of kitchens, food storage areas and the like are to be constructed of materials which are impervious, non slip and non abrasive. The floor is to be finished to a smooth even surface, graded and drained to a floor waste connected to the sewer.

The intersection of walls with floor and plinths is to be coved, to facilitate cleaning.

- b) Walls of kitchens and food storage areas are to be of suitable construction finished in a light colour with glazed tiles, stainless steel, laminated plastics or similar approved material adhered directly to the wall adjacent to cooking and food preparation facilities or areas, to provide a smooth even surface.

The glazed tiling or other approved material is to be extended up to the

- underside of any mechanical exhaust ventilation hoods and a minimum of 450mm above bench tops, wash hand basins, sinks and equipment.
- c) Walls where not tiled are to be cement rendered or be of rigid smooth faced non-absorbent material (i.e. fibrous cement sheeting, plasterboard or other approved material) and finished to a smooth even surface, painted with a washable paint of a light colour or sealed with other approved materials.
 - d) Ceilings of kitchens, storerooms and the like are to be of rigid smooth-faced, non absorbent material (i.e. fibrous plaster, plasterboard, fibre cement sheet, cement render or other approved material), with a light-coloured washable paint finish. 'Drop-down' ceiling panels are not to be provided in food preparation and cooking areas.
 - e) All equipment including refrigerators, washing machines, hot water heaters, large scales, food mixers, food warmers, cupboards, counters, bars etc are to be supported on wheels, concrete plinths a minimum 75mm in height, metal legs minimum 150mm in height, brackets or approved metal framework of the like.
 - f) Cupboards, cabinets, benches and shelving may be glass, metal, plastic, or other approved material. The use of particleboard or similar material is not permitted unless laminated on all surfaces.
 - g) Fly screens and doors with self-closing devices, are to be provided to all external door and window openings and an electronic insect control device is also to be provided within the food premises.
 - h) A wash hand basin must be provided with hot and cold water, together with a sufficient supply of soap and clean towels in the Café area and to the existing toilet located at the rear of the premises. The hot and cold water shall be supplied to the wash hand basins through a suitable mixing device.
 - i) A double bowl sink must be provided with a supply of hot and cold water within the kitchenette of the food premises. The water supply must be from a potable water supply.
40. **Prior to the issuing of an interim or final occupation certificate**, the premises must be inspected by Council's Environmental Health Officer to ascertain compliance with relevant Food Safety Standards and the written approval of Council (being the relevant Food Authority for this food business) must be obtained prior to the operation of the food business.
41. **Prior to commencement of food business operations**, the food premises must be registered with Council's Health, Building & Regulatory Services Department and the NSW Food Authority in accordance with the Food Safety Standards.
42. Food safety practices and the operation of the food premises must be in accordance with the *Food Act 2003*, *Food Regulation 2004*, *Food Standards Code* and Food Safety Standards at all times, including the requirements and provisions relating to:
- Food handling – skills, knowledge and controls.
 - Health and hygiene requirements.
 - Requirements for food handlers and businesses.
 - Cleaning, sanitizing and maintenance.
 - Design and construction of food premises, fixtures, fitting and

equipment.

The Proprietor of the food business and all staff carrying out food handling and food storage activities must have appropriate skills and knowledge in food safety and food hygiene matters, as required by the Food Safety Standards.

Failure to comply with the relevant food safety requirements is an offence and may result in legal proceedings, service of notices and/or the issuing of on-the-spot penalty infringement notices.

43. The food premises must be kept in a clean and sanitary condition at all times, including all walls, floors, ceilings, fixtures, fittings, appliances, equipment, fridges, freezers, cool rooms, shelving, cupboards, furniture, crockery, utensils, storage containers, waste bins, light fittings, mechanical ventilation & exhaust systems & ducting, storage areas, toilet facilities, basins and sinks.
44. A numerically scaled indicating thermometer or recording thermometer, accurate to the nearest degree Celsius being provided to refrigerators, cool rooms, other cooling appliances and bain-maries or other heated food storage/display appliances. The thermometer is to be located so as to be read easily from the outside of the appliance.

A digital probe type thermometer must also be readily available to check the temperature of food items.

45. Adequate provisions are to be made within the confines of the premises for the storage, collection and disposal of waste and recyclable materials including for the collection of the sharps container by a licensed waste transporter, to the satisfaction of Council.

The waste storage area must be located within the property and not within any areas used for the storage of food.

Waste/recyclable bins and containers must not be placed on the footpath (or road), other than for waste collection, in accordance with Council's requirements.

46. Trade/commercial waste materials must not be disposed via council's domestic garbage service. All trade/commercial waste materials must be collected by Council's Trade Waste Service or a waste contractor authorised by the Waste Service of New South Wales and details of the proposed waste collection and disposal service are to be submitted to Council **prior to commencing operation of the business.**
47. All plumbing and drainage work must comply with the requirements of Sydney Water. Liquid trade waste materials are to be disposed of to the sewer (via a suitable grease trap). Details of compliance are to be submitted to the certifying authority **prior to the commencement of any works.**

GENERAL ADVISORY NOTES

The following information is provided for your assistance to ensure compliance with the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, or other relevant legislation and requirements. This information does not form part of the conditions of development consent pursuant to Section 80A of the Act.

- A1 The requirements and provisions of the *Environmental Planning & Assessment Act 1979* and *Environmental Planning & Assessment Regulation 2000*, must be fully complied with at all times.

Failure to comply with these requirements is an offence, which renders the responsible person liable to a maximum penalty of \$1.1 million. Alternatively, Council may issue a penalty infringement notice (for up to \$3,000) for each offence. Council may also issue notices and orders to demolish unauthorised or non-complying building work, or to comply with the requirements of Council's development consent.

A1 Building or excavation work must not be commenced until;

- A Construction Certificate has been obtained from an Accredited Certifier or Council
- An Accredited Certifier or Council has been appointed as the Principal Certifying Authority for the development
- Council and the Principal Certifying Authority have been given at least 2 days notice (in writing) prior to commencing any works.

Council's *Building Approvals & Certification team* can issue Construction Certificates and be your Principal Certifying Authority for the development, to undertake inspections and ensure compliance with the development consent, relevant building regulations and standards of construction. For further details contact Council's *Building Approvals & Certification team* on 9399 0944.

A2 This determination does not include an assessment of the proposed works under the Building Code of Australia (BCA), Disability (Access to Premises – Buildings) Standards 2010 and other relevant Standards. All new building work (including alterations and additions) must comply with the BCA and relevant Standards. You are advised to liaise with your architect, engineer and building consultant prior to lodgement of your construction certificate.

A3 Any proposed amendments to the design and construction of the building may require a new development application or a section 96 amendment to the existing consent to be obtained from Council, before carrying out such works

A4 This consent does not authorise any trespass or encroachment upon any adjoining or supported land or building whether private or public. Where any underpinning, shoring, soil anchoring (temporary or permanent) or the like is proposed to be carried out upon any adjoining or supported land, the land owner or principal contractor must obtain:

- the consent of the owners of such adjoining or supported land to trespass or encroach, or
- an access order under the *Access to Neighbouring Land Act 2000*, or
- an easement under section 88K of the *Conveyancing Act 1919*, or
- an easement under section 40 of the *Land & Environment Court Act 1979*, as appropriate.

Section 177 of the *Conveyancing Act 1919* creates a statutory duty of care in relation to support of land. Accordingly, a person has a duty of care not to do anything on or in relation to land being developed (the supporting land) that removes the support provided by the supporting land to any other adjoining land (the supported land).

A5 A Local Approval application must be submitted to and be approved by Council's Building Approvals & Certification team prior to commencing any of the following activities on a footpath, road, nature strip or in any public place: -

- Install or erect any site fencing, hoardings or site structures
- Operate a crane or hoist goods or materials over a footpath or road

- Placement of a waste skip or any other container or article in a public place.

For further information please contact Council's Building Approvals & Certification team on 9399 0944.

- A6 There are to be no emissions or discharges from the premises, which will give rise to an environmental or public nuisance or result in an offence under the *Protection of the Environment Operations Act 1997* and *Regulations*.
- A7 In existing buildings, the levels of fire and occupant safety should be upgraded where necessary and details should be incorporated in the Construction Certificate to the satisfaction of the Certifying authority.

Where the levels of accessibility to existing buildings do not meet current standards, if practicable, the level of accessibility should also be upgraded in conjunction with the proposed development (e.g. via the installation of a 1:8 access ramp within the building) and details included in the construction certificate application.

Building owners, applicants and builders are advised to liaise with the appointed Certifying Authority prior to lodgement of the Construction Certificate.

- A8 A separate development application and construction certificate or a complying development certificate (as applicable) must be obtained if the premises is to be used for any of the purposes detailed below:
- All food businesses (including premises used for the sale, storage, preparation and distribution of food and drinks)
 - Hairdressing salons, Beauty salons, Businesses involving Skin Penetration & Piercing, Massage businesses
 - Licensed premises, places of public entertainment and hotels
 - Places of Shared Accommodation (including Boarding / Lodging Houses, Bed & Breakfast businesses, Backpackers, Residential Hotels or the like)
 - Cooling Towers or Warm Water Systems
 - External plant and equipment which is not encompassed in the development consent
 - Business providing any form of sexual service (i.e. brothel or the like).

Business premises which are used for any of these purposes must comply with relevant public health and safety legislation and requirements and they must be registered with Council prior to an Occupation Certificate being issued for the development. The relevant registration and inspection fee is also required to be paid to Council in accordance with Council's adopted Pricing Policy.

- A9 The applicant/owner is advised to engage the services of a suitably qualified and experienced Acoustic consultant, prior to finalising the design and construction of the development, to ensure that the relevant noise criteria and conditions of consent can be fully satisfied.
- A10 Prior to commencing any works, the owner/builder should contact *Dial Before You Dig* on 1100 or www.dialbeforeyoudig.com.au and relevant Service Authorities, for information on potential underground pipes and cables within the vicinity of the development site.
- A11 The applicant is to advise Council in writing and/or photographs of any signs of existing damage to the Council roadway, footway, or verge prior to the commencement of any building/demolition works.

only in so far as they relate to the modifications highlighted on the Section 96 plans and detailed in the Section 96 application, except as may be amended by the following conditions and as may be shown in red on the attached plans.

MOTION: (Andrews/Procopiadis) CARRIED UNANIMOUSLY - SEE RESOLUTION.

D42/12 Development Application Report - 1609-1611 Anzac Parade, La Perouse (DA/76/2009/A)

Having declared an interest in this matter earlier in the meeting, Cr Matthews left the meeting during the debate and the vote on the matter.

PL48/12

RESOLUTION: (Andrews/White) that Council, as the consent authority, grants development consent under Section 96 of the Environmental Planning and Assessment Act 1979 to modify Development Consent No. DA/76/2009 for permission to modify the approved development by extending the hours of operation to 10am to 10pm Monday to Thursday and 9am to 11pm Friday, Saturday and Sunday at No. 1609-1611 Anzac Parade, La Perouse in the following manner:

Amend Condition No. 1 to read:

- The development must be implemented substantially in accordance with the plans numbered 01, 02, 03, 04, & 05, dated January 2009 and received by Council on 12 February 2009, the application form and on any supporting information received with the application, except as may be amended by the ***Section 96'A' application dated 16 September 2011 and received by Council on 28 October 2011, only in so far as they relate to the modifications highlighted on the Section 96 plans and detailed in the Section 96 application***, except as may be amended by the following conditions and as may be shown in red on the attached plans:

Amend Condition No. 11 to read:

- The hours of the operation of the business are restricted to:

Monday - Thursday: 10:00am to 10:00pm
Friday, Saturday and Sunday: 9.00am to 11:00pm

The hours specified above are subject to a review period in accordance with Section 80(A)(10B) of the Environmental Planning & Assessment Act 1979 and Division 14 of the Environmental Planning and Assessment Regulation 2000.

The hours of operation will be reviewed by Council within 12 months of the date

of commencement of the use. The operator of the premises must provide Council with appropriate supporting evidence (including, but not limited to, relevant acoustics measurements) to demonstrate compliance with all conditions of the development consent as part of the review.

AMENDMENT: (Procopiadis/x) that the application be approval in accordance with the staff recommendation, subject to the proposed review period in Condition 11 being deleted. **LAPSED FOR THE WANT OF A SECONDER.**

MOTION: (Andrews/White) CARRIED – SEE RESOLUTION.

A **DIVISION** was taken and the names of the Councillors voting FOR and AGAINST were as follows:

Cr Matthews returned to the meeting.

D43/12 Development Application Report - 214 Maroubra Road, Maroubra (DA/119/2012)

PL49/12

RESOLUTION: (Andrews/Procopiadis) that Council, as the responsible authority, grant its development consent under Section 80 and 80A of the Environmental Planning and Assessment Act 1979 (as amended) to Development Application No DA/119/2012 for the demolition of existing presbytery building at St Aidans Church, and construction of a two storey with undercroft parish centre building comprising offices, garage and priests accommodation, landscaping, extension of playground and associated works at 214 Maroubra Road, Maroubra, subject to the following conditions:

GENERAL CONDITIONS

The development must be carried out in accordance with the following conditions of consent.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of environmental amenity.

Approved Plans & Supporting Documentation

1. The development must be implemented substantially in accordance with the plans numbered DA-01, DA-02, DA-03, DA-04 and DA-05, all Issue A, and all dated 23/02/2012, and stamped received by Council on 23 February 2012, the application form, and supporting documentation listed below and endorsed with Council's approved stamp, except where amended by Council in red and/or by other conditions of this consent:

Document	Prepared by:	Dated
Statement of Environmental Effects	Andrew Martin Planning	February 2012

2. The colours, materials and finishes of the external surfaces to the proposed development are to be consistent with the colours, materials and finishes submitted with the development application and prepared by Curtin, Bathgate and Somers Architects Pty Limited and be compatible with the existing church on-site and adjacent developments to maintain the integrity and amenity of the building and the streetscape.
3. Lighting to the premises shall be designed so as not to cause a nuisance to nearby residents or motorists and to ensure that light overspill does not affect the amenity of the area.

REQUIREMENTS TO BE INCLUDED IN THE CONSTRUCTION CERTIFICATE

The requirements contained in the following conditions of consent must be complied with and details of compliance must be included in the construction certificate for the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Councils development consent conditions and to achieve reasonable levels of environmental amenity.

Consent Requirements

4. The requirements and amendments detailed in the 'General Conditions' must be complied with and be included in the construction certificate plans and associated documentation.
5. Details of any proposed mechanical ventilation systems, detailing compliance with the relevant requirements of Clause F4.12 of the BCA and Australian Standard AS 1668 Parts 1 & 2 (including exhaust air quantities and discharge location points) are to be submitted to and approved by the Certifying Authority with the construction certificate and a copy of relevant documentation is to be provided to Council.

Compliance with the Building Code of Australia & Relevant Standards

6. In accordance with section 80A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, it is a *prescribed condition* that all building work must be carried out in accordance with the provisions of the Building Code of Australia (BCA).

Building regulation and construction site management

7. The requirements and provisions of the *Environmental Planning & Assessment Act 1979* and *Environmental Planning & Assessment Regulation 2000*, must be fully complied with at all times.

Failure to comply with these legislative requirements is an offence and may result in the commencement of legal proceedings, issuing of 'on-the-spot' penalty infringements or service of a notice and order by Council.

8. Access and facilities for people with disabilities must be provided in accordance with the relevant requirements of the Building Code of Australia, Disability (Access to Premises – Buildings) Standard 2010, relevant Australian Standards and conditions of consent, to the satisfaction of the Certifying Authority. Details of the required access and facilities for people with disabilities are to be included in the plans/specifications for the construction certificate.

Design Alignment levels

9. The design alignment level (the finished level of concrete, paving or the like) at the property boundary for driveways, access ramps and pathways or the like, must match the back of the existing Council footpath levels along the full site frontage.
10. The design alignment levels (concrete/paved/tiled level) issued by Council and their relationship to the footpath must be indicated on the building plans for the construction certificate (A construction note on the submitted plans is considered satisfactory). The design alignment level at the street boundary, as issued by the Council, must be strictly adhered to.
11. The above alignment levels and the site inspection by Council's Development Engineer have been issued at a prescribed fee of \$135.00 (inclusive of GST). This amount is to be paid prior to a construction certificate being issued for the development.
12. **Stormwater drainage plans have not been approved as part of this development consent.** Engineering calculations and plans with levels reduced to Australian Height Datum in relation to site drainage shall be prepared by a suitably qualified Hydraulic Engineer and submitted to and approved by the certifying authority prior to a construction certificate being issued for the development. A copy of the engineering calculations and plans are to be forwarded to Council, prior to a construction certificate being issued, if the Council is not the certifying authority. The drawings and details shall include the following information:
 - a) A detailed drainage design supported by a catchment area plan, at a scale of 1:100 or as considered acceptable to the Council or an accredited certifier, and drainage calculations prepared in accordance with the Institution of Engineers publication, Australian Rainfall and Run-off, 1987 edition.
 - b) A layout of the proposed drainage system including pipe sizes, type, grade, length, invert levels, etc., dimensions and types of all drainage pipes and the connection into Council's stormwater system.
 - c) The separate catchment areas within the site, draining to each collection point or surface pit are to be classified into the following categories:
 - i. Roof areas
 - ii. Paved areas
 - iii. Grassed areas
 - iv. Garden areas
 - e) Where buildings abut higher buildings and their roofs are "flushed in" to the higher wall, the area contributing must be taken as: the projected roof area of the lower building, plus one half of the area of the vertical wall abutting, for the purpose of determining the discharge from the lower roof.
 - f) Proposed finished surface levels and grades of car parks, internal driveways and access aisles which are to be related to Council's design alignment levels.
 - g) The details of any special features that will affect the drainage design eg. the nature of the soil in the site and/or the presence of rock etc.
13. The site stormwater drainage system is to be provided in accordance with the

following requirements;

- a) The stormwater drainage system must be provided in accordance with the relevant requirements of Building Code of Australia and the conditions of this consent, to the satisfaction of the *Certifying Authority* and details are to be included in the construction certificate.
- b) The stormwater must be discharged (by gravity) directly to the kerb and gutter or drainage system located along the Green Street site frontage.
- c) Should stormwater be discharged to Council's street drainage system, an on-site stormwater detention system must be provided, for the redeveloped portion of the site, to ensure that the maximum discharge from the redeveloped portion of the site does not exceed that which would occur during a **1 in 5** year storm of one hour duration for existing site conditions. All other stormwater run-off from the site for all storms up to the 1 in 20 year storm is to be retained on the site for gradual release to the street drainage system, to the satisfaction of the certifying authority.

An overland escape route or overflow system (to Council's street drainage system) must be provided for storms having an average recurrence interval of 100 years (1 in 100 year storm), or, alternatively the stormwater detention system is to be provided to accommodate the 1 in 100 year storm.

- d) Should stormwater be discharged to an infiltration system, the infiltration area shall be sized for all storm events up to the 1 in 20 year storm event with provision for a formal overland flow path to Council's Street drainage system.

Should no formal overland escape route be provided for storms greater than the 1 in 20 design storm, the infiltration system shall be sized for the 1 in 100 year storm event.

- e) Determination of the required cumulative storage (in the on-site detention and/or infiltration system) must be calculated by the mass curve technique as detailed in Technical Note 1, Chapter 14 of the Australian Rainfall and Run-off Volume 1, 1987 Edition.

Where possible any detention tanks should have an open base to infiltrate stormwater into the ground. Infiltration should not be used if ground water and/or any rock stratum is within 2.0 metres of the base of the tank.

- f) Generally all internal pipelines must be capable of discharging a 1 in 20 year storm flow. However the minimum pipe size for pipes that accept stormwater from a surface inlet pit must be 150mm diameter. The site must be graded to direct any surplus run-off (i.e. above the 1 in 20 year storm) to the proposed drainage (detention/infiltration) system.
- g) A sediment/silt arrestor pit must be provided within the site near the street boundary prior to discharge of the stormwater to Council's drainage system and prior to discharging the stormwater to any absorption/infiltration system.

Sediment/silt arrestor pits are to be constructed generally in accordance with the following requirements:

- The base of the pit being located a minimum 300mm under the

invert level of the outlet pipe.

- The pit being constructed from cast in-situ concrete, precast concrete or double brick.
- A minimum of 4 x 90 mm diameter weep holes (or equivalent) located in the walls of the pit at the floor level with a suitable geotextile material with a high filtration rating located over the weep holes.
- A galvanised heavy-duty screen being provided over the outlet pipe/s (Mascot GMS multipurpose filter screen or equivalent).
- The grate being a galvanised heavy-duty grate that has a provision for a child proof fastening system.
- A child proof and corrosion resistant fastening system being provided for the access grate (e.g. spring loaded j-bolts or similar).
- Provision of a sign adjacent to the pit stating, "This sediment/silt arrester pit shall be regularly inspected and cleaned".

Sketch details of a standard sediment/silt arrester pit may be obtained from Council's Drainage Engineer.

- h) The floor level of all habitable, retail, commercial and storage areas located adjacent to any detention and/or infiltration systems with above ground storage must be a minimum of 300mm above the maximum water level for the design storm or alternately a permanent 300mm high water proof barrier is to be provided.
- i) Infiltration systems/Absorption Trenches must be designed and constructed generally in accordance with "Section 8.5 ABSORPTION TRENCHES" of Randwick City Council's Private Stormwater Code.
- j) The maximum depth of ponding in any above ground detention areas and/or infiltration systems with above ground storage shall be as follows (as applicable):
 - i. 150mm in uncovered open car parking areas (with an isolated maximum depth of 200mm permissible at the low point pit within the detention area)
 - ii. 300mm in landscaped areas (where child proof fencing is not provided around the outside of the detention area and sides slopes are steeper than 1 in 10)
 - iii. 600mm in landscaped areas where the side slopes of the detention area have a maximum grade of 1 in 10
 - iv. 1200mm in landscaped areas where a safety fence is provided around the outside of the detention area
 - v. Above ground stormwater detention areas must be suitably signposted where required, warning people of the maximum flood level.

Note: Above ground storage of stormwater is not permitted within basement car parks or store rooms.

- k) A childproof and corrosion resistant fastening system shall be installed on access grates over pits/trenches where water is permitted to be temporarily stored.
- l) A 'V' drain (or equally effective provisions) are to be provided to the

perimeter of the property, where necessary, to direct all stormwater to the detention/infiltration area.

- m) The site stormwater system must be regularly cleaned and maintained to ensure it operates as required by the design.
- n) Mulch or bark is not to be used in on-site detention areas.
- o) Site discharge pipelines shall cross the verge at an angle no less than 45 degrees to the kerb line.
- p) Should a charged system be required to drain any portion of the site, the charged system must be designed with suitable clear-outs/inspection points at pipe bends and junctions.

Landscaping & Environmental amenity:

- 14. Landscaping is to be provided to the site in accordance with the landscaping plans/specifications submitted with the development application (identified as drawing *LPDA12-268/1 & LpDA12-268/2, dated 23/02/2012 by Conzept Landscape Architects.*
- 15. All detention tanks and stormwater infiltration systems located within the landscaped areas shall have a minimum soil cover of 600mm to ensure sufficient soil depth to permit the establishment of landscaping on top of these services as required by these conditions of development consent. Details are to be included in the relevant construction certificate and landscape plans.

Tree Protection Measures

- 16. In order to ensure the retention of the Council Street Trees located either side of the proposed new vehicular crossing in good health, the following measures are to be undertaken:
 - a. All detailed architectural, building, demolition, engineering (structural, stormwater & drainage, services), and landscape documentation submitted for the construction certificate application shall show the retention of the existing tree specimen/s with the position of the tree trunks/ and full diameter of the tree canopy/ies clearly shown on all drawings.
 - b. Detailed architectural, building, demolition, engineering (structural, stormwater & drainage, services), and landscape documentation submitted for the construction certificate application shall show no alteration in the existing soil levels or the location of any structures, services, footings, paving, detention tanks, stormwater infiltration systems, pipes, cutting or battering of the existing soil profile, or any excavations within a radius of 2.00 metres from the outside edge of the tree trunk/s.
 - c. The trunk of Council street trees are to be physically protected by 2m lengths of 50mm x 100mm hardwood timbers, spaced at 150mm centres, and secured by 8 gauge wires or steel strapping at 300mm spacing, laid over geo-textile, underfelt or layers of Hessian unless otherwise agreed by Council's Landscape Development Officer.
 - d. This fencing shall be installed prior to the commencement of demolition and construction works and shall remain in place until all works are completed, to which signage containing the following words shall be clearly displayed and permanently attached: "TREE PROTECTION ZONE, DO NOT ENTER".

- e. The applicant is not authorised to perform any works to either of these street trees, and shall contact Council's Landscape Development Officer on 9399-0613 should pruning or any similar such work appear necessary, with the applicant required to cover all associated costs with such work, to Council's satisfaction, prior to the issue of a final occupation certificate.
- f. Within this zone there is to be no storage of materials or machinery or site office/sheds, nor is cement to be mixed or chemicals spilt/disposed of in the area, no stockpiling of soil or rubble, or any works listed in Point b.

Any works required within this zone (only as approved on the construction certificate) shall be under the direction of, and to the satisfaction of, a suitably qualified Arborist.

- g. A refundable deposit in the form of cash, credit card or cheque for an amount of \$3,000.00 shall also be paid at the Cashier on the Ground Floor of the Administrative Centre, **prior to a construction certificate being issued for the development**, in order to ensure compliance with the conditions listed in this consent, and ultimately, preservation of this street tree/s.

The refundable deposit will be eligible for refund following the issue of a Final Occupation Certificate, subject to completion and submission of Council's 'Security Deposit Refund Application Form', and pending a satisfactory inspection by Council's Landscape Development Officer (9399-0613).

Any contravention of Council's conditions relating to the tree at any time during the course of the works, or prior to the issue of a final occupation certificate, may result in Council claiming all or part of the lodged security in order to perform any rectification works necessary, as per the requirements of 80A (6) of the Environmental Planning and Assessment Act 1979.

REQUIREMENTS BEFORE A CONSTRUCTION CERTIFICATE CAN BE ISSUED

The following conditions of consent must be complied with before a 'Construction Certificate' is issued by either an Accredited Certifier or Randwick City Council. All necessary information to demonstrate compliance with the following conditions of consent must be included in the documentation for the construction certificate.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent conditions and to achieve reasonable levels of environmental amenity.

Heritage protection

- 17. A brief archival recording of the property, incorporating internal and external photographs included in the Heritage Impact Statement shall be prepared and submitted to and approved by Council's Director City Planning, in accordance with Section 80A (2) of the Environmental Planning and Assessment Act 1979 prior to a construction certificate being issued for the development. Two copies of the endorsed archival recording shall be presented to Council, one of which shall be placed in the Local History Collection of Randwick City Library.

Security Deposit

- 18. The following damage / civil works security deposit requirement must be complied with prior to a construction certificate being issued for the development, as security for making good any damage caused to the roadway,

footway, verge or any public place; and as security for completing any public work; and for remedying any defect on such public works, in accordance with section 80A(6) of the *Environmental Planning and Assessment Act 1979*:

- \$3000.00 - Damage / Civil Works Security Deposit

The damage/civil works security deposit may be provided by way of a cash, cheque or credit card payment and is refundable upon a satisfactory inspection by Council upon the completion of the civil works which confirms that there has been no damage to Council's infrastructure.

The owner/builder is also requested to advise Council in writing and/or photographs of any signs of existing damage to the Council roadway, footway, or verge prior to the commencement of any building/demolition works.

To obtain a refund of relevant deposits, a *Security Deposit Refund Form* is to be forwarded to Council's Director of City Services upon issuing of an occupation certificate or completion of the civil works.

Sydney Water Requirements

19. A *Section 73 Compliance Certificate* under the *Sydney Water Act 1994* must be obtained from Sydney Water Corporation.

Application for a Section 73 Certificate must be made through an authorised Water Servicing Co-ordinator. For details, please refer to the "Your Business" section of Sydney Water's web site www.sydneywater.com.au then refer to "Water Servicing Coordinator" under Developing Your Land" or telephone 13 20 92.

Following the application, a "Notice of Requirements" will be provided, detailing water and sewer extensions to be built and charges to be paid. Please make early contact with the Water Servicing Co-ordinator, as building of water/sewer extensions can be time consuming and may impact on other services and building, driveway or landscape design.

The Section 73 Compliance Certificate is required to be obtained before an *occupation certificate* is issued.

Reflectivity

20. The reflectivity index of glass used in the external façade of the development must not exceed 20 percent. Details shall be submitted to and approved by Council's Director of City Planning, in accordance with section 80A (2) of the *Environmental Planning and Assessment Act 1979* prior to a construction certificate being issued for the development.

Section 94A Development Contribution

21. In accordance with Council's Section 94A Development Contributions Plan effective from 2 July 2007, the following monetary levy must be paid to Council.

Category	Cost	Applicable Levy	S94A Levy
Development Cost more than \$200,000	\$2,000,000	1%	\$20,000.00

The levy must be paid in cash, bank cheque or by credit card prior to a construction certificate being issued for the proposed development. The development is subject to an index to reflect quarterly variations in the Consumer Price Index (CPI) from the date of Council's determination to the date of payment.

Council's Section 94A Development Contribution Plans may be inspected at the Customer Service Centre, Administrative Centre, 30 Frances Street, Randwick or at www.randwick.nsw.gov.au.

Building Regulation

22. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, it is a *prescribed condition* that all building work must be carried out in accordance with the provisions of the Building Code of Australia (BCA). Details of compliance are to be provided in the construction certificate.
23. The required Long Service Levy payment, under the Building and Construction Industry Long Service Payments Act 1986, is to be forwarded to the Long Service Levy Corporation or the Council, **prior to the issuing of a Construction Certificate**, in accordance with Section 109F of the Environmental Planning & Assessment Act 1979.

At the time of this development consent, Long Service Levy payment is applicable on building work having a value of \$25,000 or more, at the rate of 0.35% of the cost of the works.

24. A report or written correspondence from a suitably qualified *professional geotechnical engineer* shall be submitted to the certifying authority **prior to the issuing of a construction certificate**, confirming the suitability and stability of the site for the proposed building and certifying the suitability and adequacy of the proposed design and construction of the building for the site.
25. A report shall be prepared by a *professional engineer* and submitted to the certifying authority **prior to the issuing of a construction certificate**, detailing the proposed methods of excavation, shoring or pile construction, including details of potential vibration emissions. The report must demonstrate the suitability of the proposed methods of construction to overcome any potential damage to nearby land/premises.

Driven type piles/shoring must not be provided unless a geotechnical engineer's report is submitted to the certifying authority, **prior to the issuing of a construction certificate**, which demonstrates that damage should not occur to any adjoining premises and public place as a result of the works.

Any practices or recommendations specified in the engineer's report in relation to the avoidance or minimisation of structural damage to nearby premises or land must be fully complied with and incorporated into the documentation for the **construction certificate**. A copy of the engineers report is to be submitted to the Council, if the Council is not the certifying authority.

Access & Facilities

26. Access, facilities and car parking for people with disabilities must be provided to new building work in accordance with the relevant provisions of the Building Code of Australia and AS1428.1, AS4299 and 2890.1 and conditions of consent, to the satisfaction of the Certifying Authority. Details of the proposed access, facilities and car parking for people with disabilities are to be included in the plans / specifications for the **construction certificate**.

REQUIREMENTS PRIOR TO THE COMMENCEMENT OF ANY WORKS

The following conditions of consent must be complied with prior to the commencement of any works associated with the proposed development on the site. The necessary documentation and information must be provided to the Council or the

'Principal Certifying Authority', as applicable.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity.

Heritage Protection

27. Original timber joinery elements in the Presbytery building such as panelled doors, timber architraves and fireplace surrounds and mantles should be tagged for recycling prior to the commencement of demolition work. The demolition contractor should be briefed on the need to carefully removal of these tagged timber elements. The applicant shall store and reuse these timber elements in other Catholic Church buildings where it is stylistically appropriate.

Council Street Tree Removal

28. Approval is granted for the removal of the Council Street Tree (*Eucalyptus haemastoma* – Scribbly Gum) located within the construction zone of the proposed new vehicular crossing. This work is to be carried out by Council approved contractors.

Prior to the commencement of any works the applicant is to contact Council's Landscape Development Engineer (David Meredith on 9399 0613) to obtain the cost for removal of the subject tree as well as meeting any amenity value put on the tree.

Upon receiving the costing from Council the applicant must again contact Council's Landscape Development Officer on 9399-0613 (quoting the receipt number), and giving at least four working weeks notice to arrange for removal of the street tree prior to the commencement of site works.

Demolition & Construction Waste

29. A *Demolition and Construction Waste Management Plan* (WMP) must be development and implemented for the development, to the satisfaction of Council.

The Waste Management Plan must provide details of the type and quantities of demolition and construction waste materials, proposed re-use and recycling of materials, methods of disposal and details of recycling outlets and land fill sites.

Where practicable waste materials must be re-used or recycled, rather than disposed and further details of Council's requirements including relevant guidelines and pro-forma WMP forms can be obtained from Council's Customer Service Centre or by telephoning Council on 9399 0999.

Details and receipts verifying the recycling and disposal of materials must be kept on site at all times and presented to Council officers upon request.

Construction Traffic Management

30. Prior to the commencement of any works on the site, an Application for a 'Works Zone' and Construction Traffic Management Plan must be submitted to Council's Integrated Transport Department, and approved by the Randwick Traffic Committee, for a 'Works Zone' to be provided in Maroubra Road for the duration of the demolition & construction works.

The 'Works Zone' must have a minimum length of 12m and extend for a minimum duration of three months. The suitability of the proposed length and duration is to be demonstrated in the application for the Works Zone. The

application for the Works Zone must be submitted to Council at least six (6) weeks prior to the commencement of work on the site to allow for assessment and tabling of agenda for the Randwick Traffic Committee.

The requirement for a Works Zone may be varied or waived only if it can be demonstrated in the Construction Traffic Management Plan (to the satisfaction of Council's Traffic Engineers) that all construction related activities (including all loading and unloading operations) can and will be undertaken wholly within the site. The written approval of Council must be obtained to provide a Works Zone or to waive the requirement to provide a Works Zone prior to the commencement of any site work.

31. A detailed *Construction Site Traffic Management Plan* must be submitted to and approved by Council, prior to commencement of any site work

The Construction Site Traffic Management Plan must be prepared by a suitably qualified person and must include the following details, to the satisfaction of Council:

- A description of the demolition, excavation and construction works
 - A site plan/s showing the site, roads, footpaths, site access points and vehicular movements
 - Any proposed road and/or footpath closures
 - Proposed site access locations for personnel, deliveries and materials
 - Size, type and estimated number of vehicular movements (including removal of excavated materials, delivery of materials and concrete to the site)
 - Provision for loading and unloading of goods and materials
 - Impacts of the work and vehicular movements on the road network, traffic and pedestrians
 - Proposed hours of construction related activities and vehicular movements to and from the site
 - Current/proposed approvals from other Agencies and Authorities (including NSW Roads & Traffic Authority, Police and State Transit Authority)
 - Any activities proposed to be located or impact upon Council's road, footways or any public place
 - Measures to maintain public safety and convenience
32. A *Traffic Control Plan* must be submitted to and approved by Council and relevant Authorities, prior to carrying out any work which results in the closure or partial closure of a State or Regional Road, as identified by the NSW Roads & Traffic Authority.

Sydney Water

33. All building, plumbing and drainage work must be carried out in accordance with the requirements of the Sydney Water Corporation.

Prior to the commencement of excavation or building works, the approved Construction Certificate plans must be submitted to a Sydney Water Quick Check agent or Customer Centre, to determine whether the development will affect Sydney Water's sewer and water mains, stormwater drains and/or easements, and if any further requirements need to be met.

If suitable, the plans will be appropriately stamped. For Quick Check agent

details please refer to Sydney Water's web site at www.sydneywater.com.au and go to the Building, Developing and Plumbing, then Quick Check or Building and Renovating or telephone 13 20 92.

The principal certifying authority must ensure that a Quick Check Agent/Sydney Water has appropriately stamped the plans before commencing works.

Public Utilities

34. A public utility impact assessment must be carried out on all public utility services located on the site, roadway, nature strip, footpath, public reserve or any public areas associated with and/or adjacent to the building works. The assessment should include relevant information from public utility authorities and exploratory trenching or pot-holing, if necessary, to determine the position and level of services.

Documentary evidence from the relevant public utility authorities confirming that their requirements have been or are able to be satisfied, must be submitted to the principal certifying authority prior to the commencement of any demolition, excavation or building works.

35. The owner/builder must make the necessary arrangements and meet the full cost for telecommunication companies, gas providers, Ausgrid/Energy Australia, Sydney Water and other authorities to adjust, repair or relocate their services as required.

Service provisions

36. All plumbing and drainage work must be carried out in accordance with the requirements of Sydney Water and liquid trade waste materials are to be drained to the sewer (via a suitable grease trap) and details of compliance are to be submitted to the certifying authority **prior to the commencement of any works**.

Construction Management

37. **Prior to the commencement of any excavation or building works, a construction certificate must be obtained** from the Council or an accredited certifier, in accordance with the provisions of the Environmental Planning & Assessment Act 1979 and Environmental Planning & Assessment Regulation 2000.

A copy of the construction certificate, the approved plans & specifications and development consent conditions must be kept on the site at all times and be made available to the Council officers and all building contractors for assessment.

38. **Prior to the commencement of any excavation or building works**, the person having the benefit of the development consent must: -

- appoint a *Principal Certifying Authority* for the building work, and
- appoint a *principal contractor* for the building work, or in relation to residential building work, obtain an *owner-builder* permit in accordance with the requirements of the Home Building Act 1989, and notify the *Principal Certifying Authority* and Council accordingly in writing, and
- notify the *principal contractor* of the required *critical stage inspections* and other inspections to be carried out, as specified by the *Principal Certifying Authority*, and
- give at least two days notice to the Council, in writing, of the person's intention to commence building works.

39. In accordance with section 80 A (11) of the *Environmental Planning &*

Assessment Act 1979 and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, the requirements of the *Home Building Act 1989* must be complied with.

Details of the Licensed Building Contractor (and a copy of any relevant Certificate of Insurance) must be provided to the Principal Certifying Authority and Council **prior to commencement of works**.

40. The installation of ground or rock anchors underneath any adjoining premises including (a public roadway or public place) must not be carried out without specific written consent of the owners of the affected adjoining premises and (where applicable) details of compliance must be provided to the certifying authority **prior to the commencement of any excavation or building works**.
41. A dilapidation report prepared by a *professional engineer* or suitably qualified and experienced building surveyor shall be submitted to the certifying authority **prior to the commencement of demolition, excavation or building works** detailing the current condition and status of all buildings and ancillary structures located upon all of the premises adjoining the subject site (eg. *dwelling, residential flat buildings, commercial/industrial building, garages, carports, verandah's, fences, retaining walls, swimming pools and driveways etc.*).

The report is to be supported with photographic evidence of the status and condition of the buildings and a copy of the report must also be forwarded to the Council and to the owners of each of the abovementioned premises, **prior to the commencement of any works**.

42. A Demolition Work Plan must be prepared for the development in accordance with Australian Standard AS2601-2001, Demolition of Structures.

The Work Plan must include the following information (as applicable):

- The name, address, contact details and licence number of the Demolisher / Asbestos Removal Contractor
- Details of hazardous materials (including asbestos)
- Method/s of demolition (including removal of any asbestos)
- Measures and processes to be implemented to ensure the health & safety of workers and community
- Measures to be implemented to minimise any airborne dust and asbestos
- Methods and location of disposal of any hazardous materials
- Other relevant details, measures and requirements to be implemented
- Date the demolition works will commence

The Demolition Work Plan must be submitted to the Principal Certifying Authority (PCA), not less than two (2) working days before commencing any demolition work. A copy of the Demolition Work Plan must be maintained on site and be made available to Council officers upon request.

If the work involves asbestos products or materials, a copy of the Demolition Work Plan must be provided to Council.

Note it is the responsibility of the persons undertaking demolition work to obtain the relevant WorkCover licences and permits.

43. All excavations and backfilling associated with the erection or demolition of a building must be executed safely in accordance with appropriate professional standards and excavations are to be properly guarded and supported to

prevent them from being dangerous to life, property or buildings.

Retaining walls, shoring or piling must be provided to support land which is excavated in association with the erection or demolition of a building, to prevent the movement of soil and to support the adjacent land and buildings, if the soil conditions require it. Adequate provisions are also to be made for drainage.

Retaining walls, shoring, or piling must be designed and installed in accordance with appropriate professional standards and the relevant requirements of the Building Code of Australia and Australian Standards. Details of proposed retaining walls, shoring or piling are to be submitted to and approved by the Principal Certifying Authority for the development prior to commencing such excavations or works.

44. A *Construction Noise & Vibration Management Plan*, prepared in accordance with the Department of Environment and Climate Change Guidelines for Construction Noise and Assessing Vibration, by a suitably qualified person, is to be developed and implemented **prior to commencing site work** and throughout the course of construction, to the satisfaction of the Council.

- a) Noise and vibration emissions during the construction of the building and associated site works must not result in damage to nearby premises or result in an unreasonable loss of amenity to nearby residents.

Noise and vibration from any rock excavation machinery, pile drivers and all plant and equipment must be minimised, by using appropriate plant and equipment, silencers and the implementation of noise management strategies.

- b) The *Construction Noise & Vibration Management Plan* must include details of measurements, analysis and relevant criteria and demonstrate that the noise and vibration emissions from the work satisfy the relevant provisions of the *Protection of the Environment Operations Act 1997*, current DECC Guidelines for Construction Noise and Assessing Vibration and Councils conditions of consent.
- c) A further report/correspondence must be obtained from the consultant as soon as practicable **upon the commencement of works**, which reviews and confirms the implementation and suitability of the noise and vibration strategies in the *Construction Noise & Vibration Management Plan* and which demonstrates compliance with relevant criteria.
- d) Any recommendations and requirements contained in the *Construction Noise & Vibration Management Plan* and associated reports are to be implemented accordingly and should noise and vibration emissions not comply with the terms and conditions of consent, work must cease forthwith and is not to recommence until details of compliance are submitted to Council and the PCA.

A copy of the *Construction Noise & Vibration Management Plan* and associated acoustic/vibration report/s must be maintained on-site and a copy must be provided to Council and the Principal Certifying Authority accordingly.

45. A *Construction Site Management Plan* is to be developed and implemented **prior to the commencement of any site works**. The site management plan must include the following measures, as applicable to the type of development:

- location and construction of protective fencing / hoardings to the perimeter of the site;
- location of site storage areas/sheds/equipment;
- location of building materials for construction;
- provisions for public safety;
- dust control measures;
- site access location and construction;
- details of methods of disposal of demolition materials;
- protective measures for tree preservation;
- provisions for temporary sanitary facilities;
- location and size of waste containers/bulk bins;
- details of proposed sediment and erosion control measures;
- construction noise and vibration management;
- construction traffic management details.

The site management measures are to be implemented prior to the commencement of any site works and be maintained throughout the works, to maintain reasonable levels of public health, safety and amenity to the satisfaction of Council. A copy of the Construction Site Management Plan must be provided to Council and the Principal Certifying Authority. A copy must also be maintained on site and be made available to Council officers upon request.

46. Any liquid trade waste materials are to be disposed of in accordance with the requirements of the Sydney Water, Trade Waste Department and details of compliance are to be submitted to the certifying authority **prior to the commencement of works** if applicable.

Hazardous Materials

47. The demolition, removal, storage, handling and disposal of products and materials containing asbestos must be carried out in accordance with Randwick City Council's Asbestos Policy and the relevant requirements of WorkCover NSW and the NSW Department of Environment & Conservation (formerly the Environment Protection Authority), including:

- Occupational Health and Safety Act 2000
- Occupational Health and Safety (Hazardous Substances) Regulation 2001
- Occupational Health and Safety (Asbestos Removal Work) Regulation 2001
- WorkCover NSW Code of Practice for the Safe Removal of Asbestos
- Australian Standard 2601 (2001) – Demolition of Structures
- The Protection of the Environment Operations Act 1997 and Protection of the Environment Operations (Waste) Regulation 1996.
- Relevant Department of Environment & Climate Change / Environment Protection Authority (EPA) and WorkCover NSW Guidelines.

A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development section or a copy can be obtained from Council's Customer Service Centre.

48. A Demolition Work Plan must be prepared for the development in accordance with Australian Standard AS2601-2001 and carried out in accordance with document titled "Attachment 19 Hazardous Material Survey" dated October 2010 prepared by EIS.

The Work Plan must include the following information (as applicable):

- The name, address, contact details and licence number of the Demolisher / Asbestos Removal Contractor

- Details of hazardous materials, including asbestos
 - Method/s of demolition and removal of asbestos
 - Measures and processes to be implemented to ensure the health & safety of workers and community
 - Measures to be implemented to minimise any airborne asbestos and dust
 - Methods and location of disposal of any asbestos or other hazardous materials
 - Other relevant details, measures and requirements to be implemented as identified in the Asbestos Survey
 - Date the demolition and removal of asbestos will commence
49. The Demolition Work Plan must be submitted to Council and the Principal Certifying Authority (PCA) if the Council is not the PCA, not less than two (2) working days before commencing any demolition works involving asbestos products or materials. A copy of the Demolition Work Plan must also be maintained on site and be made available to Council officers upon request.

Note: it is the responsibility of the persons undertaking demolition work to obtain the relevant Work Cover licences and permits.

50. During construction stages, sediment laden stormwater run-off shall be controlled using the sediment control measures outlined in the manual for Managing Urban Stormwater – Soils and Construction, published by Landcom, to the satisfaction of Council.

Details of the proposed sediment control measures are to be provided in a *site management plan* and must be submitted to and approved by the principal certifying authority **prior to the commencement of any site works**. The sediment and erosion control measures must be implemented prior to the commencement of any site works and be maintained throughout construction. A copy of the approved details must be forwarded to the Council and a copy is to be maintained on-site and be made available to Council officers upon request.

REQUIREMENTS DURING WORKS

The following conditions of consent must be complied with during demolition and construction works on the site. The necessary documentation and information must be provided to the Council or the *'Principal Certifying Authority'*, as applicable.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity.

Heritage Protection

51. In the unlikely event that historical archaeological remains or deposits are exposed during the works, all work should cease while an evaluation of their potential extent and significance is undertaken and the NSW Heritage Office notified under the requirements of the Heritage Act."

Road/Asset Opening Permit

52. Any openings within or upon the road, footpath, nature strip or in any public place (i.e. for proposed drainage works or installation of services), must be carried out in accordance with the following requirements, to the satisfaction of Council:
- a) A *Road / Asset Opening Permit* must be obtained from Council prior to carrying out any works within or upon a road, footpath, nature strip or in any public place, in accordance with section 138 of the *Roads Act 1993*

and all of the conditions and requirements contained in the *Road / Asset Opening Permit* must be complied with.

- b) Council's Road / Asset Opening Officer must be notified at least 48 hours in advance of commencing any excavation works and also immediately upon completing the works (on 9399 0691 or 0409 033 921 during business hours), to enable any necessary inspections or works to be carried out.
- c) Relevant *Road / Asset Opening Permit* fees, construction fees, inspection fees and security deposits, must be paid to Council prior to commencing any works within or upon the road, footpath, nature strip or other public place,
- d) The owner/developer must ensure that all works within or upon the road reserve, footpath, nature strip or other public place are completed to the satisfaction of Council, prior to the issuing of a *final occupation certificate* or occupation of the development (whichever is sooner).
- e) Excavations and trenches must be back-filled and compacted in accordance with AUSPEC standards 306U.
- f) Excavations or trenches located upon a road or footpath are required to be provided with 50mm depth of cold-mix bitumen finish, level with the existing road/ground surface, to enable Council to readily complete the finishing works at a future date.
- g) Excavations or trenches located upon turfed areas are required to be back-filled, compacted, top-soiled and re-turfed with Kikuyu turf.
- h) The work and area must be maintained in a clean, safe and tidy condition at all times and the area must be thoroughly cleaned at the end of each days activities and upon completion.
- i) The work can only be carried out in accordance with approved hours of building work as specified in the development consent, unless the express written approval of Council has been obtained beforehand.
- j) Sediment control measures must be implemented in accordance with the conditions of development consent and soil, sand or any other material must not be allowed to enter the stormwater drainage system or cause a pollution incident.
- k) The owner/developer must have a Public Liability Insurance Policy in force, with a minimum cover of \$10 million and a copy of the insurance policy must be provided to Council prior to carrying out any works within or upon the road, footpath, nature strip or in any public place.

Internal Tree Removal

- 53. Approval is granted for the removal of the 2 large Kaffir Plums located on the southern side of the existing Presbytery.
- 54. Approval is also granted for the removal of the 2 Eucalyptus trees located adjacent to the existing shade structure.
- 55. The building works must be inspected by the *Principal Certifying Authority*, in accordance with sections 109 E (3) of the Environmental Planning & Assessment Act 1979 and clause 162A of the Environmental Planning & Assessment Regulation 2000, to monitor compliance with the relevant standards of construction, Council's development consent and the construction

certificate.

56. A Registered Surveyor's check survey certificate or compliance certificate is to be obtained at the following stage/s of construction, to demonstrate compliance with the approved setbacks, levels, layout and height of the building, to the satisfaction of the Principal Certifying Authority:

- prior to construction of the first floor/floor slab (prior to pouring of concrete),
- prior to construction of each additional new floor level,
- upon completion of the building, prior to issuing an occupation certificate, and
- as may be required by the Principal Certifying Authority.

The survey documentation must be forwarded to the Principal Certifying Authority and a copy is to be forwarded to the Council, if the Council is not the principal certifying authority.

57. A sign must be erected and maintained in a prominent position on the site for the duration of the works, which contains the following details:

- name, address, contractor licence number and telephone number of the *principal contractor*, including a telephone number at which the person may be contacted outside working hours,
- name, address and telephone number of the *Principal Certifying Authority*,
- a statement stating that "unauthorised entry to the work site is prohibited".

58. The demolition of buildings and the removal, storage, handling and disposal of building materials must be carried out in accordance with the relevant requirements of WorkCover NSW, the NSW Department of Environment & Climate Change (formerly EPA) and Randwick City Council policies and conditions, including:

- Occupational Health and Safety Act 2000
- Occupational Health and Safety (Hazardous Substances) Regulation 2001
- Occupational Health and Safety (Asbestos Removal Work) Regulation 2001
- WorkCover NSW Code of Practice for the Safe Removal of Asbestos
- Australian Standard 2601 (2001) – Demolition of Structures
- The Protection of the Environment Operations Act 1997 and Protection of the Environment Operations (Waste) Regulation 2005
- Relevant Department of Environment & Climate Change (DECC) / Environment Protection Authority (EPA) and WorkCover NSW Guidelines.
- Randwick City Council Asbestos Policy (adopted 13 September 2005)

A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development section or a copy can be obtained from Council's Customer Service Centre.

59. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 E of the *Environmental Planning & Assessment Regulation 2000*, it is a prescribed condition that the adjoining land and buildings located upon the adjoining land must be adequately supported at all times. In this regard:

- 1) If the development involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person

having the benefit of the development must, at the person's own expense:

- a) protect and support the adjoining premises from possible damage from the excavation, and
- b) where necessary, underpin the adjoining premises to prevent any such damage.

2) The condition referred to in subclause 1) does not apply if the person having the benefit of the development consent owns the adjoining land or the owner of the adjoining land has given consent in writing to that condition not applying.

60. Building, demolition and associated site works must be carried out in accordance with the *following* requirements:

Activity	Permitted working hours
All building, demolition and site work, including site deliveries (except as detailed below)	<ul style="list-style-type: none"> • Monday to Friday - 7.00am to 5.00pm • Saturday - 8.00am to 5.00pm • Sunday & public holidays - No work permitted
Excavating of rock, use of jack-hammers, pile-drivers or the like	<ul style="list-style-type: none"> • Monday to Friday - 8.00am to 5.00pm • Saturday - No work permitted • Sunday & public holidays - No work permitted
Internal work only within a commercial or industrial development, located in a commercial or industrial zone, which is not audible within any residential dwelling or commercial or industrial premises	<ul style="list-style-type: none"> • Monday to Saturday - No time limits (subject to column 1) • Sunday & public holidays - No work permitted
Additional requirements for all development (except for single residential dwellings)	<ul style="list-style-type: none"> • Saturdays and Sundays where the preceding Friday and/or the following Monday is a public holiday - No work permitted

An application to vary the abovementioned hours may be submitted to Council's Manager Health, Building & Regulatory Services for consideration and approval to vary the specified hours may be granted in exceptional circumstances and for limited occasions (e.g. for public safety, traffic management or road safety reasons). Any applications are to be made on the standard application form and include payment of the relevant fees and supporting information. Applications must be made at least 10 days prior to the date of the proposed work and the prior written approval of Council must be obtained to vary the standard permitted working hours.

61. Public health, safety and convenience must be maintained at all times during demolition, excavation and construction works and the following requirements must be satisfied:

- a) The roadway, footpath and nature strip must be maintained in a good, safe condition and free from any obstructions, materials, soils or debris at all times. Any damage caused to the road, footway or nature strip must be repaired immediately, to the satisfaction of Council.
- b) Building materials, sand, soil, waste materials or construction

equipment must not be placed upon the footpath, roadway or nature strip at any time and the footpath, nature strip and road must be maintained in a clean condition and free from any obstructions, soil and debris at all times.

- c) Bulk bins/waste containers must not be located upon the footpath, roadway or nature strip at any time without the prior written approval of the Council. Applications to place a waste container in a public place can be made to Council's Health, Building & Regulatory Services department.
- d) Stockpiles of soil, sand, aggregate or other materials must not be located on any footpath, roadway, nature strip, drainage line or any public place and the stockpiles must be protected with adequate sediment control measures.

Building operations such as brick cutting, washing tools or equipment and mixing mortar are not permitted on public footpaths, roadways, nature strips, in any public place or any location which may lead to the discharge of materials into the stormwater drainage system.

- e) A temporary timber, asphalt or concrete crossing is to be provided to the site entrance across the kerb and footway area, with splayed edges, to the satisfaction of Council, unless access is via an existing concrete crossover.
- f) Temporary toilet facilities are to be provided within the work site throughout the course of demolition and construction, to the satisfaction of WorkCover NSW and Council. The toilet facilities must be connected to a public sewer or other sewage management facility approved by Council.
- g) Public safety must be maintained at all times and public access to the site and building works, materials and equipment on the site is to be restricted, when work is not in progress or the site is unoccupied, to the satisfaction of Council.

A temporary safety fence is to be provided to protect the public, located to the perimeter of the site (unless the site is separated from the adjoining land by an existing structurally adequate fence, having a minimum height of 1.5 metres). Temporary fences are to have a minimum height of 1.8 metres and be constructed of cyclone wire fencing, with geotextile fabric attached to the inside of the fence to provide dust control, or other material approved by Council.

Temporary site fences are to be structurally adequate, safe and be constructed in a professional manner and the use of poor quality materials or steel reinforcement mesh as fencing is not permissible.

The public safety provisions and temporary fences must be in place **prior to the commencement of any demolition, excavation or building works** and be maintained throughout construction.

- h) If the work involved in the erection or demolition of a building is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient or the building involves the enclosure of a public place, a hoarding or fence must be erected between the work site and the public place.

If necessary, an awning is to be erected sufficiently to prevent any substance from, or in connection with, the work from falling into the public place or adjoining premises.

The public place adjacent to the work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place and any such hoarding, fence or awning is to be removed upon completion of the work.

i) A 'B Class' overhead type hoarding is required to be provided to protect the public, located adjacent to the development, prior to the commencement of any works on the site which comprise:-

- any works or hoisting of materials over a public footway or adjoining premises, or
- any building or demolition works on buildings which are over 7.5m in height and located within 3.6 metres of the street alignment.

The public safety provisions and temporary fences must be in place prior to the commencement of any demolition, excavation or building works and be maintained throughout construction.

j) If it is proposed to locate any site fencing, hoardings or amenities upon any part of the footpath, nature strip or any public place, the written consent from Council's Building Services section must be obtained beforehand and detailed plans are to be submitted to Council for consideration, together with payment of the weekly charge in accordance with Council's adopted fees and charges.

k) The public safety provisions and temporary fences must be in place prior to the commencement of any demolition, excavation or building works and be maintained throughout construction.

l) A Road / Asset Opening application must be submitted to and be approved by Council prior to carrying out any works within or upon a road, footpath, nature strip or in any public place, in accordance with section 138 of the Roads Act 1993 and all of the conditions and requirements contained in the Road / Asset Opening Permit must be complied with.

The owner/builder must ensure that all works within or upon the road reserve, footpath, nature strip or other public place are completed to the satisfaction of Council, **prior to the issuing of an occupation certificate** for the development. For further information, please contact Council's Road / Asset Opening Officer on 9399 0691 or 9399 0999.

m) The owner/builder is required to hold Public Liability Insurance, with a minimum liability of \$10 million and a copy of the Insurance cover is to be provided to Council.

62. During demolition, excavation and construction works, dust emissions must be minimised, so as not to result in a nuisance to nearby residents or result in a potential pollution incident.

Adequate dust control measures must be provided to the site prior to the works commencing and the measures and practices must be maintained throughout the demolition, excavation and construction process, to the satisfaction of Council.

Dust control measures and practices may include: -

- Provision of geotextile fabric to all perimeter site fencing (attached on the prevailing wind side of the site fencing).
- Covering of stockpiles of sand, soil and excavated material with adequately secured tarpaulins or plastic sheeting.
- Installation of a water sprinkling system or provision of hoses or the like.
- Regular watering-down of all loose materials and stockpiles of sand, soil and excavated material.
- Minimisation/relocation of stockpiles of materials, to minimise potential for disturbance by prevailing winds.
- Landscaping and revegetation of disturbed areas.

Hazardous Materials

63. Any work involving the demolition, storage and disposal of asbestos products and materials must be carried out in accordance with the following requirements:

- a) A WorkCover licensed demolition or asbestos removal contractor must undertake removal of more than 10m² of bonded asbestos (or as otherwise specified by WorkCover or relevant legislation). Removal of friable asbestos material must only be undertaken by contractor that holds a current friable asbestos removal licence.
- b) On sites involving the removal of asbestos, a professionally manufactured sign must be clearly displayed in a prominent visible position at the front of the site, containing the words 'DANGER ASBESTOS REMOVAL IN PROGRESS' and include details of the licensed contractor. The sign shall measure not less than 400mm x 300mm and the sign is to be installed prior to demolition work commencing and is to remain in place until such time as all asbestos has been safely removed from the site.
- c) Asbestos waste must be stored, transported and disposed of in compliance with the Protection of the Environment Operations Act 1997 and the Protection of the Environment Operations (Waste) Regulation 1996. Asbestos waste must be disposed of at an approved waste disposal depot (refer to the DEC or Waste Service NSW for details of sites). Copies of all receipts detailing method and location of disposal must be maintained on site and be provided to Council officers upon request, as evidence of correct disposal.
- d) A Clearance Certificate or Statement, prepared by a suitably qualified person (i.e. an occupational hygienist, licensed asbestos removal contractor, building consultant, architect or experienced licensed building contractor), must be provided to Council upon completion of any asbestos related works **prior to an Occupation Certificate being issued**, which confirms that the asbestos material have been removed appropriately and the relevant requirements contained in the Asbestos Survey and conditions of consent in relation to the safe removal and disposal of asbestos, have been satisfied.

64. Asbestos waste must be stored, transported and disposed of in compliance with the Protection of the Environment Operations Act 1997 and the Protection of the Environment Operations (Waste) Regulation 1996.

65. A specific contact number is to be made available for such enquiries and complaints (including an after-hours emergency contract number) and a

complaints register is to be maintained to record all such enquiries, complaints and actions taken in response to same, which is to be made available to Council officers upon request.

66. Any hazardous and/or intractable wastes arising from any demolition, excavation, building and any remediation works are to be managed and disposed of in accordance with the requirements of Work Cover NSW and the Department of Environment and Climate Change (formerly EPA), including the provisions of:
- New South Wales Occupational Health and Safety Act, 2000
 - The Occupational Health and Safety (Hazardous Substances) Regulation 2001
 - The Occupational Health and Safety (Asbestos Removal Work) Regulation 2001
 - Protection Of the Environment Operations Act 1997 (NSW)
 - Environment Protection Authority's Environmental Guidelines; Assessment, Classification and Management of Liquid and Non Liquid Wastes (1999)
 - Randwick City Council's Asbestos Policy

Construction Noise Control

67. Noise and vibration emissions during the construction of the building and associated site works must not result in damage to nearby premises or result in an unreasonable loss of amenity to nearby residents and the relevant provisions of the *Protection of the Environment Operations Act 1997* must be satisfied at all times.

REQUIREMENTS PRIOR TO THE ISSUE OF AN OCCUPATION CERTIFICATE

The following conditions of consent must be complied with prior to the 'Principal Certifying Authority' issuing an 'Occupation Certificate'.

Note: For the purpose of this consent, any reference to 'occupation certificate' shall also be taken to mean 'interim occupation certificate' unless otherwise stated.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health, safety and amenity.

Occupation Certificate Requirements

68. An Occupation Certificate must be obtained from the Principal Certifying Authority prior to any occupation of the building work encompassed in this development consent (including alterations and additions to existing buildings), in accordance with the relevant provisions of the *Environmental Planning & Assessment Act 1979*.

An Occupation Certificate must not be issued for the development if the development is inconsistent with the development consent. The relevant requirements of the *Environmental Planning & Assessment Act 1979* and conditions of development consent must be satisfied prior to the issuing of an occupation certificate.

Details of critical stage inspections carried out by the principal certifying authority together with any other certification relied upon must also be provided to Council with the occupation certificate.

69. **Prior to the issuing of an interim or final occupation certificate**, a statement is required to be obtained from the Principal Certifying Authority or

other suitably qualified independent person, which confirms that the development is not inconsistent with the development consent and the relevant conditions of development consent have been satisfied.

70. **Prior to issuing an interim or final Occupation Certificate**, a single and complete **Fire Safety Certificate**, which encompasses all of the essential fire safety measures contained in the *fire safety schedule* must be obtained and be submitted to Council, in accordance with the provisions of the *Environmental Planning and Assessment Regulation 2000*. A copy of the Fire Safety Certificate must be displayed in the building entrance/foyer and a copy of the Fire Safety Certificate must also be forwarded to the NSW Fire Brigades.

An annual *Fire Safety Statement* is also required to be submitted to the Council and the NSW Fire Brigades, each year after the date of the *Fire Safety Certificate*, in accordance with the *Environmental Planning & Assessment Regulation 2000*.

71. A Certificate prepared by a *professional engineer* shall be submitted to the certifying authority (*and the Council, if the Council is not the certifying authority*) **prior to an occupation certificate being issued**, which certifies that the building works satisfy the relevant structural requirements of the Building Code of Australia and approved structural design documentation.

Street numbering

72. Street and unit numbering must be provided to the premises in a prominent position, in accordance with the Australia Post guidelines and AS/NZS 4819 (2003) to the satisfaction of Council, prior to an occupation certificate being issued for the development. In this regard, an application must be submitted to and approved by Council's Director of City Planning, together with the required fee, for the allocation of appropriate street and unit numbers for the development, prior to issue of the Occupation Certificate.

Council's Infrastructure, Vehicular Crossings & Road Openings

73. Prior to issuing a final occupation certificate for the development, the owner/developer must meet the full cost for Council or a Council approved contractor to:
- a) Construct a full width concrete vehicular crossing and layback at kerb opposite the vehicular entrance to the site.
 - b) Remove the redundant concrete vehicular crossing and layback and to reinstate the area with concrete footpath, turf and integral kerb and gutter to Council's specification.
74. Prior to issuing a final occupation certificate or occupation of the development (whichever is sooner), the owner/developer must meet the full cost for Council or a Council approved contractor to repair/replace any damaged sections of Council's footpath, kerb & gutter, nature strip etc which are due to building works being carried out at the above site. This includes the removal of cement slurry from Council's footpath and roadway.
75. All external civil work to be carried out on Council property (including the installation and repair of roads, footpaths, vehicular crossings, kerb and guttering and drainage works), must be carried out in accordance with Council's Policy for "Vehicular Access and Road and Drainage Works" and the following requirements:
- a) All work on Council land must be carried out by Council, unless specific written approval has been obtained from Council to use non-Council contractors.

- b) Details of the proposed civil works to be carried out on Council land must be submitted to Council in a *Pre-paid Works Application Form*, prior to issuing an occupation certificate, together with payment of the relevant fees.
- c) If it is proposed to use non-Council contractors to carry out the civil works on Council land, the work must not commence until the written approval has been obtained from Council and the work must be carried out in accordance with the conditions of consent, Council's design details and payment of a Council design and supervision fee.
- d) The civil works must be completed in accordance with Council's conditions of consent and approved design and construction documentation, prior to occupation of the development, or as otherwise approved by Council in writing.

Service Authorities

76. The Section 73 Compliance Certificate must be submitted to the Principal Certifying Authority prior to issuing an Occupation Certificate.

Stormwater Drainage

77. Prior to occupation of the development, a "restriction on the use of land" and "positive covenant" (under section 88E of the Conveyancing Act 1919) shall be placed on the title of the subject property to ensure that the onsite detention/infiltration system is maintained and that no works which could affect the design function of the detention/infiltration system are undertaken without the prior consent (in writing) from Council. Such restriction and positive covenant shall not be released, varied or modified without the consent of the Council.

Notes:

- a. The "restriction on the use of land" and "positive covenant" are to be to the satisfaction of Council. A copy of Council's standard wording/layout for the restriction and positive covenant may be obtained from Council's Development Engineer.
 - b. The works as executed drainage plan and hydraulic certification must be submitted to Council prior to the "restriction on the use of land" and "positive covenant" being executed by Council.
78. Upon completion of the works and prior to the issuing of an Occupation Certificate, a works-as-executed drainage plan prepared by a registered surveyor and approved by a suitably qualified and experienced hydraulic consultant/engineer must be forwarded to the Principal Certifying Authority and the Council. The works-as-executed plan must include the following details (as applicable):
 - The location of any detention basin/s with finished surface levels;
 - Finished site contours at 0.2 metre intervals;
 - Volume of storage available in any detention areas;
 - The location, diameter, gradient and material (i.e. PVC, RC etc) of all stormwater pipes;
 - The orifice size/s (if applicable);
 - Details of any infiltration/absorption systems; and
 - Details of any pumping systems installed (including wet well volumes).
 79. Prior to the issuing of an Occupation Certificate, the applicant shall submit to the Principal Certifying Authority (PCA) and Council, certification from a suitably qualified and experienced Hydraulic Engineer, which confirms that the design and construction of the stormwater drainage system complies with the

Building Code of Australia, Australian Standard AS3500.3:2003 (Plumbing & Drainage- Stormwater Drainage) and conditions of this development consent.

The certification must be provided following inspection/s of the site stormwater drainage system by the Hydraulic Engineers to the satisfaction of the PCA.

Landscaping

80. The landscaping shall be installed in accordance with the approved plans and specifications prior to occupation of the development and the landscaping must be maintained in accordance with the approved plans and specifications.

Certification is to be obtained from a suitably qualified Landscape Architect and submitted to the Principal Certifying Authority (PCA) (and Council, if Council is not the PCA) prior to the occupation of the development, which confirms that the landscaping works have been completed in accordance with the approved landscaping plans and relevant conditions of development consent, to the satisfaction of the PCA.

Waste Management

81. Prior to the occupation of the development, the owner or applicant is required to contact Council's City Services department, to make the necessary arrangements for the provision of waste services for the premises.

REQUIREMENTS PRIOR TO THE COMMENCEMENT OF OPERATION

The following conditions of consent must be complied with prior to the commencement of any food business operations on the site.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity.

82. Trade/commercial waste materials must not be disposed via council's domestic garbage service. All trade/commercial waste materials must be collected by Council's Trade Waste Service or a waste contractor authorised by the Waste Service of New South Wales and details of the proposed waste collection and disposal service are to be submitted to Council **prior to commencing operation of the business**.

OPERATIONAL CONDITIONS

The following operational conditions must be complied with at all times, throughout the use and operation of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health and environmental amenity.

Stormwater Detention/Infiltration System

83. The detention area/infiltration system must be regularly cleaned and maintained to ensure it functions as required by the design.

Environmental Amenity

84. External lighting to the premises must be designed and located so as to minimise light-spill beyond the property boundary or cause a public nuisance.

Health, safety and amenity

85. There are to be no emissions or discharges from the premises which will give rise to a public nuisance or result in an offence under the *Protection of the Environment Operations Act 1997* and *Regulations*.

86. The proposed use of the premises and the operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the Protection of the Environment Operations Act 1997 and Regulations.

In this regard, the operation of the premises and plant and equipment shall not give rise to a sound pressure level at any affected premises that exceeds the background ($L_{A90, 15 \text{ min}}$) noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A). The source noise level shall be assessed as an $L_{Aeq, 15 \text{ min}}$ and adjusted in accordance with the NSW DECC/EPA Industrial Noise Policy 2000 and Environmental Noise Control Manual (sleep disturbance).

87. The use of the premises and the operation of plant and equipment shall not give rise to the transmission of a vibration nuisance or damage to other premises.
88. Adequate provisions are to be made within the confines of the premises for the storage, collection and disposal of waste and recyclable materials, to the satisfaction of Council.

Waste/recyclable bins and containers must not be placed on the footpath (or road), other than for waste collection, in accordance with Council's requirements.

GENERAL ADVISORY NOTES

The following information is provided for your assistance to ensure compliance with the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, or other relevant legislation and requirements. This information does not form part of the conditions of development consent pursuant to Section 80A of the Act.

- A1 The requirements and provisions of the *Environmental Planning & Assessment Act 1979* and *Environmental Planning & Assessment Regulation 2000*, must be fully complied with at all times.

Failure to comply with these requirements is an offence, which renders the responsible person liable to a maximum penalty of \$1.1 million. Alternatively, Council may issue a penalty infringement notice (for up to \$1,500) for each offence. Council may also issue notices and orders to demolish unauthorised or non-complying building work, or to comply with the requirements of Council's development consent.

- A2 Prior to the commencement of any building or shop 'fit-out' works, a *construction certificate* must be obtained from the Council or an accredited certifier, in accordance with the provisions of the *Environmental Planning & Assessment Act 1979*.

- A3 The assessment of this development application does not include an assessment of the proposed building work under the Building Code of Australia (BCA).

All new building work must comply with relevant regulatory requirements and Australian Standards and details of compliance are to be provided in the *construction certificate* application.

- A4 The design and construction of the premises must satisfy the requirements of the Food Act 2003, Food Standards Code and AS 4674 (2004). Prior to finalising the design and fit-out for the development and prior to a *construction certificate* being obtained, advice should be obtained from an accredited Food

Safety Consultant (or Council's Environmental Health Officer).

- A5 The applicant and operator are also advised to engage the services of a suitably qualified and experienced Acoustic consultant, prior to finalising the design and construction of the development, to ensure that the relevant noise criteria and conditions of consent can be fully satisfied.
- A6 Prior to commencing any works, the owner/builder should contact *Dial Before You Dig* on 1100 or www.dialbeforeyoudig.com.au and relevant Service Authorities, for information on potential underground pipes and cables within the vicinity of the development site.
- A7 The applicant is to advise Council in writing and/or photographs of any signs of existing damage to the Council roadway, footway, or verge prior to the commencement of any building/demolition works.

MOTION: (Andrews/Procopiadis) CARRIED UNANIMOUSLY - SEE RESOLUTION.

**D44/12 Development Application Report - 163 Boyce Road, Maroubra
(DA/170/2012)**

PL50/12 **RESOLUTION: (Seng/Woodsmith) -**

- A. That Council supports the objections under State Environmental Planning Policy No. 1 – Development Standards in respect to non-compliance with Clause 20B(1) of Randwick Local Environmental Plan 1998, relating to minimum allotment sizes, on the grounds that the proposed development complies with the objectives of the above clauses, and will not adversely affect the amenity of the locality, and that the Department of Planning be advised accordingly.
- B. That Council, as the consent authority, grants development consent under Sections 80 and 80A of the Environmental Planning and Assessment Act 1979, as amended, to Development Application No. DA/170/2012 to subdivide the land into two separate lots at 163 Boyce Road, MAROUBRA NSW 2035, subject to the following conditions:

GENERAL CONDITIONS

The development must be carried out in accordance with the following conditions of consent.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of environmental amenity.

Approved Plans & Supporting Documentation

1. The development must be implemented substantially in accordance with the plans and supporting documentation listed below and endorsed with Council's approved stamp, except where amended by Council in red and/or by other conditions of this consent:

Plan	Drawn by	Dated	Received by Council
01A	Arkivis	15 March 2012	23 April 2012
02A	Arkivis	15 March 2012	23 April 2012
03A	Arkivis	15 March 2012	23 April 2012
04A	Arkivis	15 March 2012	23 April 2012

REQUIREMENTS PRIOR TO THE ISSUE OF A SUBDIVISION CERTIFICATE

The following conditions of consent must be complied with prior to the *Principal*

Certifying Authority' issuing a 'Subdivision certificate'.

These conditions have been applied to satisfy the provisions of Council's environmental plans, policies and codes for subdivision works.

2. The relevant requirements of the Sydney Water Act 1994 must be complied with and a Section 73 Compliance Certificate under the Sydney Water Act 1994 must be obtained from Sydney Water.

An Application for a Section 73 Certificate must be made through an authorised Water Servicing Coordinator. For details please refer to the Building Developing and Plumbing section of the website www.sydneywater.com.au then refer to "Water Servicing Coordinator" under Developing Your Land" or telephone 13 20 92 for assistance.

Following the application a "Notice of Requirements" will advise of water and sewer infrastructure to be built and charges to be paid. Please make early contact with the Coordinator, since building of water/sewer infrastructure can be time consuming and may impact on other services and building, driveway or landscape design.

The Section 73 Certificate must be submitted to the Principal Certifying Authority prior to the issuing of a subdivision certificate.

3. The applicant shall create suitable rights of carriageway, easements for services, support and stormwater lines, as required. The applicant shall be advised that the minimum easement width for any stormwater line is 0.9 metres.
4. All site stormwater from the proposed lots shall be discharged by gravity to the kerb and gutter/Council's underground drainage system in Boyce Road or to Green Street
5. Prior to registration of the plan of subdivision for this property the applicant shall demolish all existing structures within proposed lot 2 (e.g. garage).
6. In conjunction with the registration of the plan of subdivision the applicant shall dedicate a strip of land 4.57 metres wide along the Green Street frontage for road widening of Green Street.
7. Prior to the issuing of a subdivision certificate the applicant shall pay to Council the sum of \$3,682.00, (based on a rate of \$366.00 per lineal metre of road frontage along Green Street), as a contribution towards the cost of future construction of Green Street in conjunction with the road dedication and in compliance with the Council's subdivision policy in relation to Green Street.
8. A "restriction as to user" shall be placed on the title of the proposed Lot 2 in conjunction with the registration of the proposed plan of subdivision for this property. This restriction as to user shall indicate that onsite stormwater detention is required on the lot in conjunction with any development approval issued for Lot 2 . (This is to ensure that no works which could affect the provision of onsite detention on the subject lots shall be permitted to be carried out without the prior consent in writing of the Council). This restriction will also ensure that all prospective purchasers of the subject lot are aware that onsite stormwater detention will be required as a condition of any future development consent.
9. A formal subdivision application is required to be submitted to and approved by the Council and all relevant conditions of this development consent are required to be satisfied prior to the release of the subdivision plans.

10. Details of critical stage inspections carried out by the principal certifying authority, together with any other certification relied upon, must be provided to Council prior to the issuing of a subdivision certificate.

REQUIREMENTS BEFORE A CONSTRUCTION CERTIFICATE CAN BE ISSUED

The following conditions of consent must be complied with before a 'Construction Certificate' is issued by either Randwick City Council or an Accredited Certifier. All necessary information to demonstrate compliance with the following conditions of consent must be included in the documentation for the construction certificate.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent conditions and to achieve reasonable levels of environmental amenity.

Consent Requirements

11. The requirements and amendments detailed in the 'General Conditions' must be complied with and be included in the construction certificate plans and associated documentation.

External Colours, Materials & Finishes

12. The colours, materials and finishes of the external surfaces are to be compatible with the existing building and adjacent development to maintain the integrity and amenity of the building and the streetscape.

External materials, finishes and colours of the building are required to match, as closely as possible, the existing building and any metal roof sheeting is to be pre-painted (e.g. Colourbond) to limit the level of reflection and glare.

Long Service Levy Payments

13. The required Long Service Levy payment, under the *Building and Construction Industry Long Service Payments Act 1986*, must be forwarded to the Long Service Levy Corporation or the Council, in accordance with Section 109F of the *Environmental Planning & Assessment Act 1979*.

At the time of this development consent, Long Service Levy payment is applicable on building work having a value of \$25,000 or more, at the rate of 0.35% of the cost of the works.

Security Deposit

14. The following damage / civil works security deposit requirement must be complied with prior to a construction certificate being issued for the development, as security for making good any damage caused to the roadway, footway, verge or any public place; and as security for completing any public work; and for remedying any defect on such public works, in accordance with section 80A(6) of the *Environmental Planning and Assessment Act 1979*:

- \$15,000.00 - Damage / Civil Works Security Deposit

The damage/civil works security deposit may be provided by way of a cash, cheque or credit card payment and is refundable upon a satisfactory inspection by Council upon the completion of the civil works which confirms that there has been no damage to Council's infrastructure.

To obtain a refund of relevant deposits, a *Security Deposit Refund Form* is to be forwarded to Council's Director of City Services upon issuing of an occupation certificate or completion of the civil works.

Design Alignment levels

15. The design alignment level (the finished level of concrete, paving or the like) at the property boundary for driveways, access ramps and pathways or the like, shall be:
- **200mm above the edge of bitumen roadway along the full site frontage.**

The design alignment levels at the property boundary as issued by Council and their relationship to the roadway must be indicated on the building plans for the construction certificate. The design alignment level at the street boundary, as issued by the Council, must be strictly adhered to.

Any enquiries regarding this matter should be directed to Council's Development Engineer on 9399 0881.

16. The above alignment levels and the site inspection by Council's Development Engineer have been issued at a prescribed fee of \$135.00 (inclusive of GST). This amount is to be paid prior to a construction certificate being issued for the development.
17. Prior to the issuing of a construction certificate the applicant will be required to submit a full dilapidation survey including a photographic record to Council, which documents the existing condition of the sandstone wall and footpath adjacent to the proposed vehicle access in Napper Street. The report will include details of the works proposed in this area of the subject site such as excavations, changes to existing levels, construction methods, etc

Sandstone Wall

18. Plans submitted for the construction certificate shall include an annotation that the excavation of Council's footpath should be undertaken such that blocks from the portion of the sandstone wall to be removed can be retained as much as possible and to be stored and used at a later date when constructing the new retaining walls on Council property.

Driveway Design

19. The internal garage must be designed and constructed in accordance with AS 2890.1 (2004) – Off Street Car Parking and the levels of the garage must match the alignment levels at the property boundary (as specified by Council). Details of compliance are to be included in the construction certificate.
20. Prior to the issuing of a construction certificate the applicant is to contact Council's Coordinator of Engineering Services within the City Services Department to obtain Council's design requirements for the proposed retaining wall location, driveway, footbridge, relocation of the stairs and structural columns located on Council's road reserve. The plans submitted for the construction certificate must reflect the Council requirements and be submitted to council for approval.
21. The proposed suspended Council footpath along the site frontage is to be designed by a suitably qualified structural engineer so as to be structurally independent from the developed site's front wall and so as to allow the footpath to be easily removed if required, without causing structural damage to the redeveloped site frontage. An independent structural engineer shall certify the design prior to the issuing of a Construction Certificate by the Principal Certifying Authority.

REQUIREMENTS TO BE INCLUDED IN THE CONSTRUCTION CERTIFICATE

The requirements contained in the following conditions of consent must be complied with and details of compliance must be included in the construction certificate for the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Councils development consent conditions and to achieve reasonable levels of environmental amenity.

Compliance with the Building Code of Australia

22. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, it is a *prescribed condition* that all building work must be carried out in accordance with the provisions of the Building Code of Australia (BCA). Details of compliance with the BCA are to be included in the construction certificate application.

Stormwater Drainage

23. Surface water from building work and structures must satisfy the following requirements (as applicable), to the satisfaction of the Certifying Authority and details are to be included in the construction certificate: -
- a) Surface water/stormwater drainage systems must be provided in accordance with the relevant requirements of the Building Code of Australia (Volume 2);
 - b) The surface water/stormwater is to be drained and discharged to the street gutter or, subject to site suitability, the stormwater may be drained to a suitably designed absorption pit;
 - c) Any absorption pits or soaker wells should be located not less than 3m from any adjoining premises and the stormwater must not be directed to any adjoining premises or cause a nuisance;
 - d) External paths and ground surfaces are to be constructed at appropriate levels and be graded and drained away from the building and adjoining premises, so as not to result in the entry of water into the building, or cause a nuisance or damage to the adjoining premises;
 - e) Details of any proposed drainage systems or works to be carried out in the road, footpath or nature strip must be submitted to and approved by Council before commencing these works.

REQUIREMENTS PRIOR TO THE COMMENCEMENT OF ANY WORKS

The following conditions of consent must be complied with prior to the commencement of any works on the site. The necessary documentation and information must be provided to the Council or the '*Principal Certifying Authority*', as applicable.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity.

Construction Certificate, Principal Certifying Authority & Commencement of Works

24. Prior to the commencement of any building works, the following requirements must be complied with:
- a) a Construction Certificate must be obtained from the Council or an accredited certifier, in accordance with the provisions of the *Environmental Planning & Assessment Act 1979*.

A copy of the construction certificate, the approved development consent plans and consent conditions must be kept on the site at all times and be made available to the Council officers and all building contractors for assessment.

- b) a *Principal Certifying Authority* (PCA) must be appointed to carry out the necessary building inspections and to issue an *occupation certificate*; and
- c) a *principal contractor* must be appointed for the building work, or in relation to residential building work, an *owner-builder* permit may be obtained in accordance with the requirements of the *Home Building Act 1989*, and the PCA and Council are to be notified accordingly; and
- d) the *principal contractor* must be advised of the required *critical stage inspections* and other inspections to be carried out, as specified by the *Principal Certifying Authority*; and
- e) at least two days notice must be given to the Council, in writing, prior to commencing any works.

In relation to residential building work, the principal contractor must be the holder of a contractor licence, in accordance with the provisions of the Home Building Act 1989.

Home Building Act 1989

25. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, the requirements of the *Home Building Act 1989* must be complied with.

Details of the Licensed Building Contractor and a copy of the relevant Certificate of Home Warranty Insurance or a copy of the Owner-Builder Permit (as applicable) must be provided to the Principal Certifying Authority and Council.

Construction Noise & Vibration

26. Noise and vibration emissions during the construction of the building and associated site works must not result in damage to nearby premises or result in an unreasonable loss of amenity to nearby residents and the relevant requirements of the *Protection of the Environment Operations Act 1997* and NSW DECC Guidelines must be satisfied at all times.

Sydney Water

27. Prior to the commencement of excavation or building works, the approved Construction Certificate plans must be submitted to a Sydney Water Quick Check agent or Customer Centre, to determine whether the development will affect Sydney Water's sewer and water mains, stormwater drains and/or easements, and if any further requirements need to be met.

If suitable, the plans will be appropriately stamped. For Quick Check agent details please refer to Sydney Water's web site at www.sydneywater.com.au and go to the Building, Developing and Plumbing, then Quick Check or Building and Renovating or telephone 13 20 92.

The principal certifying authority must ensure that a Quick Check Agent/Sydney Water has appropriately stamped the plans before commencing works.

Public Utilities

28. A *Public Utility Impact Assessment* must be carried out on all public utility

services on the site, roadway, nature strip, footpath, public reserve or any public areas associated with and/or adjacent to the development/building works and include relevant information from public utility authorities and exploratory trenching or pot-holing, if necessary, to determine the position and level of service.

29. The applicant must meet the full cost for telecommunication companies, gas providers, Energy Australia and Sydney Water to adjust/repair/relocate their services as required. The applicant must make the necessary arrangements with the service authority.

Footbridge

30. The applicant is to have their own licensed contractor/builder construct the suspended Council footpath in which the applicant's structural engineer shall certify the suspended footpath and handrails have been constructed and installed to the relevant Australian Standards. A copy of the certification is to be forwarded to Council prior to the issuing of an occupation certificate. The applicant's contractor/builder shall liaise with Council's Construction Supervisor prior to the commencement of any demolition/building works on Council's naturestrip/roadway regarding Council requirements for traffic control etc.
31. The contractor engaged to undertake the works must hold full public liability in relation to any claims sustained as a result of the works.

The contractor must keep a policy of public risk insurance with respect to the works on Council property. The limit of public risk shall be not less than \$10,000,000 or such other sum as the Council may reasonably nominate in writing from time to time as the amount, which may be paid arising out of any one single accident or event.

NOTES:

- a. *The policy shall extend to cover death or injury to any person and damage to property of any person sustained when such person is using or working within the Napper Street road reserve in the area adjacent to the subject works.*
- b. *The policy must name the Council as the owner and the contractors undertaking the work as the insured and must contain a clause that the insurer will not change the insurance without first giving the Council ten (10) days prior written notice.*
- c. *The insurance must be with an insurer approved by the Council and a copy of the policy or a certificate of insurance shall be submitted to Council prior to the commencement of work on Council property.*

REQUIREMENTS DURING CONSTRUCTION & SITE WORK

The following conditions of consent must be complied with during the demolition, excavation and construction of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity during construction.

Tree Removals

32. No objections are raised to removing any of the existing vegetation within the site where necessary in order to accommodate the proposed works as shown, due both to their small size and insignificance, but is subject to the full implementation of the approved landscaping.

Inspections During Construction

33. The building works must be inspected by the *Principal Certifying Authority*, in accordance with sections 109 E (3) of the *Environmental Planning & Assessment Act 1979* and clause 162A of the *Environmental Planning & Assessment Regulation 2000*, to monitor compliance with the relevant standards of construction, Council's development consent and the construction certificate.

Site Signage

34. A sign must be erected and maintained in a prominent position on the site for the duration of the works, which contains the following details:
- name, address, contractor licence number and telephone number of the *principal contractor*, including a telephone number at which the person may be contacted outside working hours, or *owner-builder* permit details (as applicable)
 - name, address and telephone number of the *Principal Certifying Authority*,
 - a statement stating that "unauthorised entry to the work site is prohibited".

Restriction on Working Hours

35. Building, demolition and associated site works must be carried out in accordance with the following requirements:

Activity	Permitted working hours
All building, demolition and site work, including site deliveries (except as detailed below)	<ul style="list-style-type: none"> • Monday to Friday - 7.00am to 5.00pm • Saturday - 8.00am to 5.00pm • Sunday & public holidays - No work permitted
Excavating of rock, use of jack-hammers, pile-drivers, vibratory rollers/compactors or the like	<ul style="list-style-type: none"> • Monday to Friday - 8.00am to 5.00pm • Saturday - No work permitted • Sunday & public holidays - No work permitted

An application to vary the abovementioned hours may be submitted to Council's Manager Health, Building & Regulatory Services for consideration and approval to vary the specified hours may be granted in exceptional circumstances and for limited occasions (e.g. for public safety, traffic management or road safety reasons). Any applications are to be made on the standard application form and include payment of the relevant fees and supporting information. Applications must be made at least 10 days prior to the date of the proposed work and the prior written approval of Council must be obtained to vary the standard permitted working hours.

Demolition Work Requirements

36. The demolition of buildings must be carried out in accordance with Australian Standard 2601 (2001) – Demolition of Structures and the relevant requirements of WorkCover NSW, Randwick City Council's Asbestos Policy and the *Protection of the Environment Operations Act 1997*.

Removal of Asbestos Materials

37. Work involving the demolition, storage or disposal of asbestos products and materials must be carried out in accordance with the following requirements:
- Relevant Occupational Health & Safety legislation and WorkCover NSW

requirements and Randwick City Council's Asbestos Policy

- A WorkCover licensed demolition or asbestos removal contractor must undertake removal of more than 10m² of bonded asbestos (or as otherwise specified by WorkCover or relevant legislation). A copy of the relevant licence must be provided to the Principal Certifying Authority.
- On sites involving the removal of asbestos, a sign must be clearly displayed in a prominent visible position at the front of the site, containing the words 'DANGER ASBESTOS REMOVAL IN PROGRESS' and include details of the licensed contractor.
- Asbestos waste must be stored, transported and disposed of in compliance with the *Protection of the Environment Operations Act 1997* and the *Protection of the Environment Operations (Waste) Regulation 2005*. Details of the landfill site (which must be lawfully able to receive asbestos materials) must be provided to the Principal Certifying Authority.
- A Clearance Certificate or Statement, prepared by a suitably qualified person (i.e. an occupational hygienist, licensed asbestos removal contractor, building consultant, architect or experienced licensed building contractor), must be provided to Council and the Principal Certifying Authority upon completion of the asbestos related works which confirms that the asbestos material have been removed appropriately, in accordance with the relevant conditions of consent.

A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development Section or a copy can be obtained from Council's Customer Service Centre.

Public Safety & Site Management

38. Public safety and convenience must be maintained at all times during demolition, excavation and construction works and the following requirements must be complied with:
- a) Public access to the building site and materials must be restricted by existing boundary fencing or temporary site fencing having a minimum height of 1.5m, to Council's satisfaction.

Temporary site fences are required to be constructed of cyclone wire fencing material and be structurally adequate, safe and constructed in a professional manner. The use of poor quality materials or steel reinforcement mesh as fencing is not permissible.
 - b) Building materials, sand, soil, waste materials, construction equipment or other articles must not be placed upon the footpath, roadway or nature strip at any time.
 - c) The road, footpath, vehicular crossing and nature strip must be maintained in a good, safe, clean condition and free from any excavations, obstructions, trip hazards, goods, materials, soils or debris at all times. Any damage caused to the road, footway, vehicular crossing, nature strip or any public place must be repaired immediately, to the satisfaction of Council.
 - d) Building operations such as brick cutting, washing tools or equipment and mixing mortar are not permitted on public footpaths, roadways, nature strips, in any public place or any location which may lead to the discharge of materials into the stormwater drainage system.

- e) Sediment and erosion control measures, must be implemented throughout the site works in accordance with the manual for Managing Urban Stormwater – Soils and Construction, published by Landcom, to Council's satisfaction.
- f) Site fencing, building materials, bulk bins/waste containers and other articles must not be located upon the footpath, roadway or nature strip at any time without the prior written approval of the Council. Applications to place a waste container in a public place can be made to Council's Health, Building and Regulatory Services department.

Support of Adjoining Land, Excavations & Retaining Walls

39. Excavations and adjoining land must be adequately supported at all times and the following requirements must be satisfied:

- a) In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 E of the *Environmental Planning & Assessment Regulation 2000*, it is a prescribed condition that the adjoining land and buildings located upon the adjoining land must be adequately supported at all times.
- b) All excavations and backfilling associated with the erection or demolition of a building must be executed safely in accordance with appropriate professional standards and excavations must be properly guarded and supported to prevent them from being dangerous to life, property or buildings.
- c) Prior to undertaking any demolition, excavation or building work in the following circumstances, a report must be obtained from a *professional engineer* which details the methods of support for the dwelling or associated structure on the adjoining land, to the satisfaction of the *Principal Certifying Authority*:
 - when undertaking excavation or building work within the zone of influence of the footings of a dwelling or associated structure that is located on the adjoining land;
 - when demolishing or constructing a wall of a dwelling that is built to a common or shared boundary (e.g. semi-detached or terrace dwelling);
 - as otherwise required by the *Principal Certifying Authority*.

The work and provision of support to the adjoining land, must be carried out in accordance with the abovementioned report, to the satisfaction of the *Principal Certifying Authority*.

Building Encroachments

40. There must be no encroachment of any structures or building work onto Council's road reserve, footway, nature strip or public place.

Road/Asset Opening Permit

41. A *Road/Asset Opening Permit* must be obtained from Council prior to commencing any excavations or works within or upon a road, footpath, nature strip or in any public place, in accordance with section 138 of the *Roads Act 1993* and all of the conditions and requirements contained in the *Road / Asset Opening Permit* must be complied with.

For further information, please contact Council's Road / Asset Opening Officer

on 9399 0691 or 9399 0999.

REQUIREMENTS PRIOR TO THE ISSUE OF AN OCCUPATION CERTIFICATE

The following conditions of consent must be complied with prior to the *'Principal Certifying Authority'* issuing an *'Occupation Certificate'*.

Note: For the purpose of this consent, any reference to 'occupation certificate' shall also be taken to mean 'interim occupation certificate' unless otherwise stated.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health, safety and amenity.

Occupation Certificate Requirements

42. An Occupation Certificate must be obtained from the Principal Certifying Authority prior to any occupation of the building work encompassed in this development consent (including alterations and additions to existing buildings), in accordance with the relevant provisions of the *Environmental Planning & Assessment Act 1979*.

Council's Infrastructure, Vehicular Crossings, street verge

43. Prior to the issuing of an occupation certificate the applicant must meet the full cost for Council or a Council approved contractor to:
- a) Remove the sandstone wall and excavate as required to facilitate the construction of the vehicular access.
 - b) Construct a concrete vehicular crossing and layback at kerb opposite the vehicular entrance to the site.
 - c) Construct sandstone retaining walls using as much of the recovered stones from the existing wall as possible.
 - d) Construct pedestrian footbridge with handrail over the vehicle access across the site frontage.
 - e) Reconstruct Council's steps at suitable location if required (to be determined by Council's Coordinator of Engineering Services).
44. The applicant must meet the full cost for Council or a Council approved contractor to repair/replace any damaged sections of Council's footpath, kerb & gutter, nature strip etc which are due to building works being carried out at the above site. This includes the removal of cement slurry from Council's footpath and roadway.
45. All external civil work to be carried out on Council property (including the installation and repair of roads, footpaths, vehicular crossings, kerb and guttering and drainage works), must be carried out in accordance with Council's Policy for "Vehicular Access and Road and Drainage Works" and the following requirements:
- a) All work on Council land must be carried out by Council, unless specific written approval has been obtained from Council to use non-Council contractors.
 - b) Details of the proposed civil works to be carried out on Council land must be submitted to Council in a *Pre-paid Works Application Form*, prior to issuing an occupation certificate, together with payment of the relevant fees.
 - c) If it is proposed to use non-Council contractors to carry out the civil works

on Council land, the work must not commence until the written approval has been obtained from Council and the work must be carried out in accordance with the conditions of consent, Council's design details and payment of a Council design and supervision fee.

- d) The civil works must be completed in accordance with Council's conditions of consent and approved design and construction documentation, prior to occupation of the development, or as otherwise approved by Council in writing.

Pedestrian Footbridge

46. The applicant's structural engineer shall certify the suspended footpath and handrails have been constructed/installed to the relevant Australian Standards and Council requirements. A copy of the certification is to be forwarded to Council prior to the issuing of an occupation certificate.

ADVISORY NOTES

The following information is provided for your assistance to ensure compliance with the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, or other relevant legislation and Council's policies. This information does not form part of the conditions of development consent pursuant to Section 80A of the Act.

- A1 The requirements and provisions of the *Environmental Planning & Assessment Act 1979* and *Environmental Planning & Assessment Regulation 2000*, must be fully complied with at all times.

Failure to comply with these requirements is an offence, which renders the responsible person liable to a maximum penalty of \$1.1 million. Alternatively, Council may issue a penalty infringement notice (for up to \$1,500) for each offence. Council may also issue notices and orders to demolish unauthorised or non-complying building work, or to comply with the requirements of Council's development consent.

- A2 Demolition, building or excavation work must not be commenced until;
- A Construction Certificate has been obtained from Council or an Accredited Certifier
 - Council or an Accredited Certifier has been appointed as the Principal Certifying Authority for the development
 - Council and the Principal Certifying Authority have been given at least 2 days notice (in writing) prior to commencing any works.
- A3 This determination does not include an assessment of the proposed works under the Building Code of Australia (BCA) and other relevant Standards. All new building work (including alterations and additions) must comply with the BCA and relevant Standards and you are advised to liaise with your architect, engineer and building consultant prior to lodgement of your construction certificate.
- A4 Council's *Building Approvals & Certification team* can issue Construction Certificates and be your Principal Certifying Authority for the development, to undertake inspections and ensure compliance with the development consent, relevant building regulations and standards of construction. For further details contact Council's *Building Approvals & Certification team* on 9399 0944.
- A5 Smoke alarms are required to be installed in residential dwellings, in accordance with the relevant provisions of the *Environmental Planning & Assessment Act 1979* and the Building Code of Australia (volume 2). Details should be included in the construction certificate application.

A6 A Local Approval application must be submitted to and be approved by Council's Building Approvals & Certification team prior to commencing any of the following activities on a footpath, road, nature strip or in any public place: -

- Install or erect any site fencing, hoardings or site structures
- Operate a crane or hoist goods or materials over a footpath or road
- Placement of a waste skip or any other container or article in a public place.

For further information please contact Council's Building Approvals & Certification team on 9399 0944.

A7 Prior to commencing any works, the owner/builder should contact *Dial Before You Dig* on 1100 or www.dialbeforeyoudig.com.au and relevant Service Authorities, for information on potential underground pipes and cables within the vicinity of the development site.

A8 This consent does not authorise any trespass or encroachment upon any adjoining or supported land or building whether private or public. Where any underpinning, shoring, soil anchoring (temporary or permanent) or the like is proposed to be carried out upon any adjoining or supported land, the land owner or principal contractor must obtain:

- the consent of the owners of such adjoining or supported land to trespass or encroach, or
- an access order under the *Access to Neighbouring Land Act 2000*, or
- an easement under section 88K of the *Conveyancing Act 1919*, or
- an easement under section 40 of the *Land & Environment Court Act 1979*, as appropriate.

Section 177 of the *Conveyancing Act 1919* creates a statutory duty of care in relation to support of land. Accordingly, a person has a duty of care not to do anything on or in relation to land being developed (the supporting land) that removes the support provided by the supporting land to any other adjoining land (the supported land).

A9 Demolition work and removal of asbestos materials:

- *A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development section or a copy can be obtained from Council's Customer Service Centre.*
- *It is the responsibility of the persons undertaking demolition work to obtain the relevant WorkCover licences and permits.*

A10 Any external lighting to the premises should be designed and located so as to minimise light-spill beyond the property boundary or cause a public nuisance.

A11 Prior to commencing any works, the owner/builder should contact *Dial Before You Dig* on 1100 or www.dialbeforeyoudig.com.au and relevant Service Authorities, for information on potential underground pipes and cables within the vicinity of the development site.

A12 The applicant is to advise Council in writing and/or photographs of any signs of existing damage to the Council roadway, footway, or verge prior to the commencement of any building/demolition works.

D45/12 Development Application Report - 17 Liguria Street, Maroubra (DA/818/2011)

PL51/12

RESOLUTION: (Tracey/Woodsmith) that Council, as the consent authority, grants development consent under Sections 80 and 80A of the Environmental Planning and Assessment Act 1979, as amended, to Development Application No. 818/2011 for ground and first floor alterations and additions to existing dwelling with plunge pool at the rear and landscaping works at No. 17 Liguria Street, Maroubra, subject to the following conditions:

DEVELOPMENT CONSENT CONDITIONS

GENERAL CONDITIONS

The development must be carried out in accordance with the following conditions of consent.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of environmental amenity.

Approved Plans & Supporting Documentation

- The development must be implemented substantially in accordance with the plans and supporting documentation listed below and endorsed with Council's approved stamp, except where amended by Council in red and/or by other conditions of this consent:

Plan	Drawn by	Stamped
DA02 Rev. A	Donna Moon Architect	16 March 2012
DA03 Rev. A	Donna Moon Architect	16 March 2012
DA04 Rev. A	Donna Moon Architect	16 March 2012
DA05 Rev. A	Donna Moon Architect	16 March 2012
DA06 Rev. A	Donna Moon Architect	16 March 2012
DA07 Rev. A	Donna Moon Architect	16 March 2012
DA08 Rev. A	Donna Moon Architect	16 March 2012
Colour schedule and keyed elevations	Donna Moon Architect	10 April 2012

BASIX Certificate	No.	Dated
Hogan & Murphy Residence_02	A125185_02	30 October 2011

Amendment of Plans & Documentation

2. The approved plans and documents must be amended in accordance with the following requirements:
 - a. The 1700mm high privacy screen shown on the eastern side of the balcony at first floor level must be deleted.
 - b. The fence on the street alignment is to be a maximum height of 1.8m and be designed so that the upper two thirds of the fence (excluding any piers or posts) is at least 50% open, to maintain reasonable levels of amenity to the adjoining residential development and the streetscape.

REQUIREMENTS BEFORE A CONSTRUCTION CERTIFICATE CAN BE ISSUED

The following conditions of consent must be complied with before a 'Construction Certificate' is issued by either Randwick City Council or an Accredited Certifier. All necessary information to demonstrate compliance with the following conditions of consent must be included in the documentation for the construction certificate.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent conditions and to achieve reasonable levels of environmental amenity.

Consent Requirements

3. The requirements and amendments detailed in the 'General Conditions' must be complied with and be included in the construction certificate plans and associated documentation.

External Colours, Materials & Finishes

4. The colours, materials and finishes of the external surfaces are to be compatible with the schedule of colours and materials including keyed elevation drawings.

Section 94A Development Contributions

5. In accordance with Council's Section 94A Development Contributions Plan effective from 2 July 2007, based on the development cost of \$380,000.00, the following applicable monetary levy must be paid to Council: \$3800.00.

The levy must be paid in cash, bank cheque or by credit card prior to a construction certificate [or subdivision certificate] being issued for the proposed development. The development is subject to an index to reflect quarterly variations in the Consumer Price Index (CPI) from the date of Council's determination to the date of payment.

Council's Section 94A Development Contribution Plans may be inspected at the Customer Service Centre, Administrative Centre, 30 Frances Street, Randwick or at www.randwick.nsw.gov.au.

Long Service Levy Payments

6. The required Long Service Levy payment, under the *Building and Construction Industry Long Service Payments Act 1986*, must be forwarded to the Long Service Levy Corporation or the Council, in accordance with Section 109F of the *Environmental Planning & Assessment Act 1979*.

At the time of this development consent, Long Service Levy payment is applicable on building work having a value of \$25,000 or more, at the rate of 0.35% of the cost of the works.

Security Deposits

7. The following security deposits requirement must be complied with prior to a

construction certificate being issued for the development, as security for making good any damage caused to Council's assets and infrastructure; and as security for completing any public work; and for remedying any defect on such public works, in accordance with section 80A(6) of the *Environmental Planning and Assessment Act 1979*:

- \$600.00 - Damage / Civil Works Security Deposit

Security deposits may be provided by way of a cash, cheque or credit card payment and is refundable upon a satisfactory inspection by Council upon the completion of the civil works which confirms that there has been no damage to Council's infrastructure.

The owner/builder is also requested to advise Council in writing and/or photographs of any signs of existing damage to the Council roadway, footway, or verge prior to the commencement of any building/demolition works.

To obtain a refund of relevant deposits, a *Security Deposit Refund Form* is to be forwarded to Council's Director of City Services upon issuing of an occupation certificate or completion of the civil works.

Landscaping

8. Landscaping shall be provided to the site to enhance its amenity and reduce the impact of the development upon neighbouring properties and streetscape. A landscape plan shall be submitted to, and be approved by, the Director of City Planning, in accordance with section 80A (2) of the *Environmental Planning & Assessment Act 1979*, prior to a construction certificate being issued. The landscape plan should only include plant species that are likely to grow to low heights (i.e. maximum height of 3m).

REQUIREMENTS TO BE INCLUDED IN THE CONSTRUCTION CERTIFICATE

The requirements contained in the following conditions of consent must be complied with and details of compliance must be included in the construction certificate for the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Councils development consent conditions and to achieve reasonable levels of environmental amenity.

Compliance with the Building Code of Australia

9. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, it is a *prescribed condition* that all building work must be carried out in accordance with the provisions of the Building Code of Australia (BCA). Details of compliance with the BCA are to be included in the construction certificate application.

Smoke Alarms

10. Smoke alarms are required to be installed in accordance with the relevant provisions of the Building Code of Australia (volume 2) smoke alarms must comply with AS3786. Smoke alarms must be connected to the consumer mains electric power supply and provided with a battery back-up. Details of compliance are to be included in the construction certificate.

Driveway Design

11. The gradient of the internal access driveway must be designed and constructed in accordance with AS 2890.1 (2004) – Off Street Car Parking and the levels of the driveway must match the alignment levels at the property boundary (as

specified by Council). Details of compliance are to be included in the construction certificate.

BASIX Requirements

12. In accordance with section 80A(11) of the *Environmental Planning & Assessment Act 1979* and clause 97A of the *Environmental Planning & Assessment Regulation 2000*, the requirements and commitments contained in the relevant BASIX Certificate must be complied with.

The required commitments listed and identified in the BASIX Certificate must be included on the construction certificate plans, specifications and associated documentation, to the satisfaction of the Certifying Authority.

The design of the building must not be inconsistent with the development consent and any proposed variations to the building to achieve the BASIX commitments may necessitate a new development consent or amendment to the existing consent to be obtained, prior to a construction certificate being issued.

Energy & Water Efficiency

13. The following energy efficiency and water saving measures are to be implemented in all new and upgraded building work and details included in the construction certificate:

- a) The consumption of water shall be minimised by the use of triple A rated water efficient plumbing fixtures (taps and shower roses) and water efficient dual flush toilets.
- b) New external timber or metal framed and brick veneer walls and roofs are to be provided with insulation (i.e. bulk insulation and a reflective building membrane/reflective sarking/foil insulation), having a minimum total thermal resistance R-value of 3.0 in roofs and 1.5 in external walls. The insulation and reflective building membrane is to be installed in accordance with the relevant requirements of the Building Code of Australia and the manufacturers details.
- c) New hot water service pipes are to be provided with insulation and must also satisfy any relevant requirements of Building Code of Australia and AS 3500.

Stormwater Drainage

14. Stormwater runoff from the site shall be discharged either:

- a) To the kerb and gutter along the site frontage by gravity (preferably without the use of a charged system); OR
- b) Through a private drainage easement(s) to Council's kerb and gutter (or underground drainage system); OR
- c) To a suitably sized infiltration area. As a guide the infiltration area shall be sized based on a minimum requirement of 1 m² of infiltration area (together with 1 m³ of storage volume) for every 20 m² of roof/impervious area on the site.

Prior to the use of infiltration in rear draining lots (where there is no formal overland escape route to Council's kerb and gutter/street drainage system), a geotechnical investigation will be required to determine whether the ground is suitable for infiltration. Should rock and/or a water table be encountered within two metres of the proposed

base of the infiltration pit, or the ground conditions comprise low permeability soils such as clay, infiltration may not be appropriate.

NOTE: Should the applicant be unable to obtain a private drainage easement over properties to the rear of the development site (to facilitate stormwater discharge in accordance with option b)); and ground conditions preclude the use of infiltration (Option c), consideration may be given to the use of a charged system or a pump out system to drain that portion of the site that cannot be drained by gravity to the kerb and gutter at the front of the property.

15. Should a charged system be required to drain any portion of the site, the charged system must be designed with suitable clear-outs/inspection points at pipe bends and junctions.
16. Should a pump system be required to drain any portion of the site the system must be designed with a minimum of two pumps being installed, connected in parallel (with each pump capable of discharging at the required discharge rate) and connected to a control board so that each pump will operate alternatively. The pump wet well shall be sized for the 1 in 100 year, 2 hour storm assuming both pumps are not working.

The pump system must also be designed and installed strictly in accordance with Randwick City Council's Stormwater Code.

17. All pump out water must pass through a stilling pit, located within the site, prior to being discharged by gravity to the kerb and gutter.

Tree Management

18. The trees located on Council's nature strip opposite the subject site are to be retained and protected during building works.

REQUIREMENTS PRIOR TO THE COMMENCEMENT OF ANY WORKS

The following conditions of consent must be complied with prior to the commencement of any works on the site. The necessary documentation and information must be provided to the Council or the '*Principal Certifying Authority*', as applicable.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity.

Construction Certificate, Principal Certifying Authority & Commencement of Works

19. Prior to the commencement of any building works, the following requirements must be complied with:
 - a) a Construction Certificate must be obtained from the Council or an accredited certifier, in accordance with the provisions of the *Environmental Planning & Assessment Act 1979*.

A copy of the construction certificate, the approved development consent plans and consent conditions must be kept on the site at all times and be made available to the Council officers and all building contractors for assessment.
 - b) a *Principal Certifying Authority* (PCA) must be appointed to carry out the necessary building inspections and to issue an *occupation certificate*; and

- c) a *principal contractor* must be appointed for the building work, or in relation to residential building work, an *owner-builder* permit may be obtained in accordance with the requirements of the *Home Building Act 1989*, and the PCA and Council are to be notified accordingly; and
- d) the *principal contractor* must be advised of the required *critical stage inspections* and other inspections to be carried out, as specified by the *Principal Certifying Authority*; and
- e) at least two days notice must be given to the Council, in writing, prior to commencing any works.

In relation to residential building work, the principal contractor must be the holder of a contractor licence, in accordance with the provisions of the Home Building Act 1989.

Home Building Act 1989

20. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, the requirements of the *Home Building Act 1989* must be complied with.

Details of the Licensed Building Contractor and a copy of the relevant Certificate of Home Warranty Insurance or a copy of the Owner-Builder Permit (as applicable) must be provided to the Principal Certifying Authority and Council.

Dilapidation Reports

21. A dilapidation report prepared by a professional engineer, building surveyor or other suitably qualified independent person must be submitted to the satisfaction of the Principal Certifying Authority prior to commencement of any demolition, excavation or building works, in the following cases:

- excavations for new dwellings, additions to dwellings, swimming pools or the like which are proposed to be located within the *zone of influence* of the footings of any dwelling, associated garage or other substantial structure located upon an adjoining premises,
- new dwellings or additions to dwellings sited up to shared property boundaries (e.g. additions to a semi-detached dwelling or terraced dwellings),
- excavations for new dwellings, additions to dwellings, swimming pools or the like which are within rock and may result in vibration and or potential damage to any dwelling, associated garage or other substantial structure located upon an adjoining premises,
- as otherwise may be required by the Principal Certifying Authority.

The report (including photographs) are required to detail the current condition and status of any dwelling, associated garage or other substantial structure located upon the adjoining premises, which may be affected by the subject works. A copy of the dilapidation report is to be given to the owners of the premises encompassed in the report/s before commencing any works.

Construction Noise & Vibration Management Plan

22. Noise and vibration emissions during the construction of the building and associated site works must not result in damage to nearby premises or result in an unreasonable loss of amenity to nearby residents and the relevant requirements of the *Protection of the Environment Operations Act 1997* and NSW DECC Guidelines must be satisfied at all times.

Noise and vibration from any rock excavation machinery, pile drivers and all

plant and equipment must be minimised, by using appropriate plant and equipment, silencers and the implementation of noise management strategies.

A *Construction Noise Management Plan*, prepared in accordance with the NSW DECC Construction Noise Guideline by a suitably qualified person, is to be implemented throughout the works. A copy of the strategy must be provided to the Principal Certifying Authority and Council prior to the commencement of works on site.

Temporary Site Fencing

23. Temporary site safety fencing must be provided to the perimeter of the site (unless the site is separated from the adjoining land by an existing structurally adequate fence, having a minimum height of 1.5 metres). Temporary site fences are to have a minimum height of 1.8 metres and be constructed of cyclone wire fencing, with geotextile fabric attached to the inside of the fence to provide dust control, or other material approved by Council.

Temporary site fences are to be structurally adequate, safe and be constructed in a professional manner and the use of poor quality materials or steel reinforcement mesh as fencing is not permissible.

Temporary fences must be in place prior to the commencement of any demolition, excavation or building works and be maintained throughout construction.

If it is proposed to locate any site fencing, hoardings or amenities upon any part of the footpath, nature strip or public place, a Local Approval application must be submitted to and approved by Council's Health, Building & Regulatory Services before placing any item or article on the road, footpath or nature strip.

Construction Site Management Plan

24. A *Construction Site Management Plan* must be developed and implemented prior to the commencement of any works. The construction site management plan must include the following measures, as applicable to the type of development:

- location and construction of protective fencing/hoardings to the perimeter of the site;
- location of site storage areas/sheds/equipment;
- location of building materials for construction;
- provisions for public safety;
- dust control measures;
- site access location and construction
- details of methods of disposal of demolition materials;
- protective measures for tree preservation;
- provisions for temporary sanitary facilities;
- location and size of waste containers/bulk bins;
- details of proposed sediment and erosion control measures;
- provisions for temporary stormwater drainage;
- construction noise and vibration management;
- construction traffic management details.

The site management measures must be implemented prior to the commencement of any site works and be maintained throughout the works, to the satisfaction of Council.

A copy of the Construction Site Management Plan must be provided to the Principal Certifying Authority and Council prior to commencing site works. A copy must also be maintained on site and be made available to Council officers

upon request.

Demolition Work Plan

25. A Demolition Work Plan must be prepared for the development in accordance with Australian Standard AS2601-2001, Demolition of Structures and relevant environmental/occupational health and safety requirements.

The Demolition Work Plan must include the following information (as applicable):

- The name, address, contact details and licence number of the Demolisher /Asbestos Removal Contractor
- Details of hazardous materials (including asbestos)
- Method/s of demolition (including removal of any asbestos)
- Measures and processes to be implemented to ensure the health & safety of workers and community
- Measures to be implemented to minimise any airborne dust and asbestos
- Methods and location of disposal of any hazardous materials (including asbestos)
- Other relevant details, measures and requirements to be implemented
- Details of re-use, recycling and disposal of waste demolition/building materials
- Date the demolition works will commence

The Demolition Work Plan must be submitted to the Principal Certifying Authority (PCA), not less than two (2) working days before commencing any demolition work. A copy of the Demolition Work Plan must be maintained on site and be made available to Council officers upon request.

If the work involves asbestos products or materials, a copy of the Demolition Work Plan must also be provided to Council not less than 2 days before commencing those works.

Notes

- *It is the responsibility of the persons undertaking demolition work to obtain the relevant WorkCover licences and permits.*
- *Refer to the conditions within the "Requirements During Construction & Site Work", for further details and requirements relating to demolition work, removal of any asbestos and public safety.*

Sydney Water

26. All building, plumbing and drainage work must be carried out in accordance with the requirements of the Sydney Water Corporation.

Prior to the commencement of excavation or building works, the approved Construction Certificate plans must be submitted to a Sydney Water Quick Check agent or Customer Centre, to determine whether the development will affect Sydney Water's sewer and water mains, stormwater drains and/or easements, and if any further requirements need to be met.

If suitable, the plans will be appropriately stamped. For Quick Check agent details please refer to Sydney Water's web site at www.sydneywater.com.au and go to the Building, Developing and Plumbing, then Quick Check or Building and Renovating or telephone 13 20 92.

The principal certifying authority must ensure that a Quick Check Agent/Sydney Water has appropriately stamped the plans before commencing works.

Public Utilities

27. A *Public Utility Impact Assessment* must be carried out to identify all public utility services located on the site, roadway, nature strip, footpath, public reserve or any public areas associated with and/or adjacent to the building works.

Documentary evidence from the relevant public utility authorities confirming that their requirements have been or are able to be satisfied, must be submitted to the Principal Certifying Authority prior to the commencement of any works.

The owner/builder must make the necessary arrangements and meet the full cost for telecommunication companies, gas providers, Energy Australia, Sydney Water and other authorities to adjust, repair or relocate their services as required.

Tree Management

28. Approval is granted for the removal of the 2 trees located within the site and adjacent to the door entrance at the front of the dwelling.

REQUIREMENTS DURING CONSTRUCTION & SITE WORK

The following conditions of consent must be complied with during the demolition, excavation and construction of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity during construction.

Inspections During Construction

29. The building works must be inspected by the *Principal Certifying Authority*, in accordance with sections 109 E (3) of the *Environmental Planning & Assessment Act 1979* and clause 162A of the *Environmental Planning & Assessment Regulation 2000*, to monitor compliance with the relevant standards of construction, Council's development consent and the construction certificate.

The *Principal Certifying Authority* must specify the relevant stages of construction to be inspected and a satisfactory inspection must be carried out, to the satisfaction of the *Principal Certifying Authority*, prior to proceeding to the subsequent stages of construction or finalisation of the works (as applicable).

Site Signage

30. A sign must be erected and maintained in a prominent position on the site for the duration of the works, which contains the following details:
- name, address, contractor licence number and telephone number of the *principal contractor*, including a telephone number at which the person may be contacted outside working hours, or *owner-builder* permit details (as applicable)
 - name, address and telephone number of the *Principal Certifying Authority*,
 - a statement stating that "unauthorised entry to the work site is prohibited".

Restriction on Working Hours

31. Building, demolition and associated site works must be carried out in accordance with the following requirements:

Activity	Permitted working hours
All building, demolition and site work, including site deliveries (except as detailed below)	<ul style="list-style-type: none"> • Monday to Friday - 7.00am to 5.00pm • Saturday - 8.00am to 5.00pm • Sunday & public holidays - No work permitted
Excavating of rock, use of jack-hammers, pile-drivers, vibratory rollers/compactors or the like	<ul style="list-style-type: none"> • Monday to Friday - 8.00am to 5.00pm • Saturday - No work permitted • Sunday & public holidays - No work permitted

An application to vary the abovementioned hours may be submitted to Council's Manager Health, Building & Regulatory Services for consideration and approval to vary the specified hours may be granted in exceptional circumstances and for limited occasions (e.g. for public safety, traffic management or road safety reasons). Any applications are to be made on the standard application form and include payment of the relevant fees and supporting information. Applications must be made at least 10 days prior to the date of the proposed work and the prior written approval of Council must be obtained to vary the standard permitted working hours.

Demolition Work Requirements

32. The demolition of buildings and the removal, storage, handling and disposal of building materials must be carried out in accordance with the relevant requirements of WorkCover NSW, the NSW Department of Environment, Climate Change & Water and Randwick City Council policies, including:

- Occupational Health & Safety Act 2000 & Regulations
- WorkCover NSW Code of Practice for the Safe Removal of Asbestos
- WorkCover NSW Guidelines and Codes of Practice
- Australian Standard 2601 (2001) – Demolition of Structures
- The Protection of the Environment Operations Act 1997 and Protection of the Environment Operations (Waste) Regulation 2005
- Relevant DECCW/EPA Guidelines
- Randwick City Council Asbestos Policy

A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development section or a copy can be obtained from Council's Customer Service Centre.

Removal of Asbestos Materials

33. Work involving the demolition, storage or disposal of asbestos products and materials must be carried out in accordance with the following requirements:

- Relevant Occupational Health & Safety legislation and WorkCover NSW requirements
- Randwick City Council's Asbestos Policy
- A WorkCover licensed demolition or asbestos removal contractor must undertake removal of more than 10m² of bonded asbestos (or as otherwise specified by WorkCover or relevant legislation). Removal of friable asbestos material must only be undertaken by contractor that holds a current friable asbestos removal licence. A copy of the relevant licence must be provided to the Principal Certifying Authority.
- On sites involving the removal of asbestos, a sign must be clearly displayed in a prominent visible position at the front of the site, containing the words 'DANGER ASBESTOS REMOVAL IN PROGRESS' and include

details of the licensed contractor.

- Asbestos waste must be stored, transported and disposed of in compliance with the *Protection of the Environment Operations Act 1997* and the *Protection of the Environment Operations (Waste) Regulation 2005*. Details of the landfill site (which must be lawfully able to receive asbestos materials) must be provided to the Principal Certifying Authority.
- A Clearance Certificate or Statement, prepared by a suitably qualified person (ie an occupational hygienist, licensed asbestos removal contractor, building consultant, architect or experienced licensed building contractor), must be provided to Council and the Principal certifying authority upon completion of the asbestos related works which confirms that the asbestos material have been removed appropriately and the relevant conditions of consent have been satisfied.

A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development Section or a copy can be obtained from Council's Customer Service Centre.

Sediment & Erosion Control

34. Sediment and erosion control measures, must be implemented throughout the site works in accordance with the manual for Managing Urban Stormwater – Soils and Construction, published by Landcom, to Council's satisfaction. Details are to be included in the *Construction Site Management Plan*.

Public Safety & Site Management

35. Public safety and convenience must be maintained at all times during demolition, excavation and construction works and the following requirements must be complied with:
- Building materials, sand, soil, waste materials, construction equipment or other articles must not be placed upon the footpath, roadway or nature strip at any time.
 - The road, footpath, vehicular crossing and nature strip must be maintained in a good, safe, clean condition and free from any excavations, obstructions, trip hazards, goods, materials, soils or debris at all times. Any damage caused to the road, footway, vehicular crossing, nature strip or any public place must be repaired immediately, to the satisfaction of Council.
 - Building operations such as brick cutting, washing tools or equipment and mixing mortar are not permitted on public footpaths, roadways, nature strips, in any public place or any location which may lead to the discharge of materials into the stormwater drainage system.
 - Bulk bins/waste containers must not be located upon the footpath, roadway or nature strip at any time without the prior written approval of the Council. Applications to place a waste container in a public place can be made to Council's Health, Building and Regulatory Services department.
 - Temporary safety fencing is to be provided to any swimming pools under construction, pending the completion of all building work and the pool must not be filled until a fencing inspection has been carried out and approved by the principal certifying authority.

Support of Adjoining Land, Excavations & Retaining Walls

36. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 E of the *Environmental Planning & Assessment Regulation 2000*, it is a prescribed condition that the adjoining land and buildings located upon the adjoining land must be adequately supported at all times.
37. All excavations and backfilling associated with the erection or demolition of a building must be executed safely in accordance with appropriate professional standards and excavations must be properly guarded and supported to prevent them from being dangerous to life, property or buildings.

Retaining walls, shoring or piling must be provided to support land which is excavated in association with the erection or demolition of a building, to prevent the movement of soil and to support the adjacent land and buildings, if the soil conditions require it. Adequate provisions are also to be made for drainage.

Details of proposed retaining walls, shoring or piling are to be submitted to and approved by the Principal Certifying Authority for the development prior to commencing such excavations or works.

38. Prior to undertaking any demolition, excavation or building work in the following circumstances, a report must be obtained from a *professional engineer* which details the methods of support for the dwelling or associated structure on the adjoining land, to the satisfaction of the *Principal Certifying Authority*:
- when undertaking excavation or building work within the zone of influence of the footings of a dwelling or associated structure that is located on the adjoining land;
 - when undertaking demolition work to a wall of a dwelling that is built to a common or shared boundary (eg. semi-detached or terrace dwelling);
 - when constructing a wall to a dwelling or associated structure that is located within 900mm of a dwelling located on the adjoining land.

The demolition, excavation and building work and the provision of support to the dwelling or associated structure on the adjoining land, must also be carried out in accordance with the abovementioned report, to the satisfaction of the *Principal Certifying Authority*.

Building Encroachments

39. There must be no encroachment of any structures or building work onto Council's road reserve, footway, nature strip or public place.

Road/Asset Opening Permit

40. A *Road / Asset Opening Permit* must be obtained from Council prior to commencing any excavations or works within or upon a road, footpath, nature strip or in any public place, in accordance with section 138 of the *Roads Act 1993* and all of the conditions and requirements contained in the *Road/Asset Opening Permit* must be complied with.

For further information, please contact Council's Road/Asset Opening Officer on 9399 0691 or 9399 0999.

REQUIREMENTS PRIOR TO THE ISSUE OF AN OCCUPATION CERTIFICATE

The following conditions of consent must be complied with prior to the '*Principal Certifying Authority*' issuing an '*Occupation Certificate*'.

Note: For the purpose of this consent, any reference to 'occupation certificate' shall also be taken to mean 'interim occupation certificate' unless otherwise stated.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health, safety and amenity.

Occupation Certificate Requirements

41. An Occupation Certificate must be obtained from the Principal Certifying Authority prior to any occupation of the building work encompassed in this development consent (including alterations and additions to existing buildings), in accordance with the relevant provisions of the *Environmental Planning & Assessment Act 1979*.

An Occupation Certificate must not be issued for the development if the development is inconsistent with the development consent. The relevant requirements of the *Environmental Planning & Assessment Act 1979* and conditions of development consent must be satisfied prior to the issuing of an occupation certificate.

BASIX Requirements

42. In accordance with Clause 154B of the *Environmental Planning & Assessment Regulation 2000*, a Certifying Authority must not issue an Occupation Certificate for this development, unless it is satisfied that each of the required BASIX commitments have been fulfilled.

Relevant documentary evidence of compliance with the BASIX commitments is to be forwarded to the Council upon issuing an Occupation Certificate.

Occupant Safety

43. Openable windows to a room, corridor, stairway or the like with a floor level more than 4m above the external ground/surface level, must be designed and constructed to reduce the likelihood of a child accessing and falling through the window opening.

Options may include one or more of the following measures:

- The window having a minimum sill height of 1.5m above the internal floor level,
- Providing a window locking device at least 1.5m above the internal floor level,
- Fixing or securing the window (e.g. by screws or a window locking device) to restrict or to be able to secure the extent of the opening to a maximum width of 125mm,
- Installing a fixed heavy-duty gauge metal screen over the opening (e.g. A metal security screen or metal security mesh and frame system, but not standard fly-screen material),
- Other appropriate effective safety measures or barrier.

The relevant measures must be implemented prior to the issue of an occupation certificate.

Swimming Pool Safety

44. Swimming pools are to be provided with childproof fences and self-locking gates, in accordance with the *Swimming Pools Act 1992* and regulations.

The swimming pool is to be surrounded by a fence having a minimum height of 1.2m, that separates the pool from any residential building situated on the premises and from any place (whether public or private) adjoining the

premises; and that is designed, constructed and installed in accordance with AS 1926.1 - 2007.

Gates to pool area shall be a maximum width of 1 metre, and be self-closing and latching; the gate is required to open outwards from the pool area and prevent a small child opening the gate or door when the gate or door is closed.

A 'warning notice' must be erected in a prominent position in the immediate vicinity of the swimming pool, in accordance with the provisions of the *Swimming Pools Regulation 2008*, detailing pool safety requirements, resuscitation techniques and the importance of the supervision of children at all times.

Swimming Pool & Spa Pool Requirements

45. Swimming pools (and spa pools) are to be designed, installed and operated in accordance with the following general requirements:

- a) Backwash of the pool filter and other discharge of water is to be drained to the sewer in accordance with the requirements of the Sydney Water Corporation; and
- a) All pool overflow water is to be drained away from the building and adjoining premises, so as not to result in a nuisance or damage to premises; and
- b) Water recirculation and filtrations systems are required to comply with AS 1926.3 – 2003: Swimming Pool Safety – Water Recirculation and Filtration Systems; and
- c) Pool plant and equipment is to be enclosed in a sound absorbing enclosure or installed within a building, to minimise noise emissions and possible nuisance to nearby residents.

Notification of Swimming Pools & Spa Pools

46. Written notification must be provided to Council advising of the installation and completion of the Swimming Pool (or Spa Pool), to satisfy the requirements of the *Swimming Pools Act 1992*.

Council's "Notification & Registration of a Swimming Pool" form must be completed and forwarded to Council prior to any Occupation Certificate being issued for the pool.

Council's Infrastructure, Vehicular Crossings, street verge

47. The applicant must meet the full cost for Council or a Council approved contractor to repair/replace any damaged sections of Council's footpath, kerb & gutter, nature strip etc which are due to building works being carried out at the above site. This includes the removal of cement slurry from Council's footpath and roadway.

48. All external civil work to be carried out on Council property (including the installation and repair of roads, footpaths, vehicular crossings, kerb and guttering and drainage works), must be carried out in accordance with Council's Policy for "Vehicular Access and Road and Drainage Works" and the following requirements:

- a) All work on Council land must be carried out by Council, unless specific written approval has been obtained from Council to use non-Council contractors.
- b) Details of the proposed civil works to be carried out on Council land

must be submitted to Council in a *Pre-paid Works Application Form*, prior to issuing an occupation certificate, together with payment of the relevant fees.

- c) If it is proposed to use non-Council contractors to carry out the civil works on Council land, the work must not commence until the written approval has been obtained from Council and the work must be carried out in accordance with the conditions of consent, Council's design details and payment of a Council design and supervision fee.
- d) The civil works must be completed in accordance with Council's conditions of consent and approved design and construction documentation, prior to occupation of the development, or as otherwise approved by Council in writing.

49. That part of the naturestrip upon Council's footway which is damaged during the construction of the proposed works shall be excavated to a depth of 150mm, backfilled with topsoil equivalent with 'Organic Garden Mix' as supplied by Australian Native Landscapes, and re-turfed with Kikuyu turf or similar. Such works shall be completed at the applicants expense prior to the issue of a final Occupation Certificate.

OPERATIONAL CONDITIONS

The following operational conditions must be complied with at all times, throughout the use and operation of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health and environmental amenity.

Use of premises

50. The premises must only be used as a single residential dwelling and must not be used for dual or multi-occupancy purposes.

External Lighting

51. External lighting to the premises must be designed and located so as to minimise light-spill beyond the property boundary or cause a public nuisance.

Protection of the Environment Operations Act 1997 – Swimming Pools & Spa Pools

52. The operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997 and Regulations*.

In this regard, the operation of the plant and equipment shall not give rise to an $L_{Aeq, 15 \text{ min}}$ sound pressure level at any affected premises that exceeds the background $L_{A90, 15 \text{ min}}$ noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A) in accordance with relevant NSW Department of Environment & Conservation Noise Control Guidelines.

Pool Plant & Equipment

53. The pool plant and equipment shall not be operated during the following hours if the noise emitted can be heard within a habitable room in any other residential premises, or, as otherwise specified in relevant Noise Control Regulations:

- before 8.00am or after 8.00pm on any Sunday or public holiday; or
- before 7.00am or after 8.00pm on any other day.

Protection of the Environment Operations Act 1997 – Air Conditioners

54. The operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997 and Regulations*.

In this regard, the operation of the plant and equipment shall not give rise to an $L_{Aeq, 15 \text{ min}}$ sound pressure level at any affected premises that exceeds the background $L_{A90, 15 \text{ min}}$ noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A) in accordance with relevant NSW Department of Environment & Conservation Noise Control Guidelines.

Air Conditioning & Equipment

55. Air conditioning plant and equipment shall not be operated during the following hours if the noise emitted can be heard within a habitable room in any other residential premises, or, as otherwise specified in relevant Noise Control Regulations:

- before 8.00am or after 10.00pm on any Saturday, Sunday or public holiday; or
- before 7.00am or after 10.00pm on any other day.

Protection of the Environment Operations Act 1997 – Rainwater Tanks

56. The operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997 and Regulations*.

In this regard, the operation of the plant and equipment shall not give rise to an $L_{Aeq, 15 \text{ min}}$ sound pressure level at any affected premises that exceeds the background $L_{A90, 15 \text{ min}}$ noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A) in accordance with relevant NSW Department of Environment & Conservation Noise Control Guidelines.

Rainwater Tank Requirements

57. The installation of rainwater tanks shall comply with the following noise control requirements:

- a) The operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997 and Regulations*.

In this regard, the operation of the plant and equipment shall not give rise to an $L_{Aeq, 15 \text{ min}}$ sound pressure level at any affected premises that exceeds the background $L_{A90, 15 \text{ min}}$ noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A) in accordance with relevant NSW Department of Environment & Conservation Noise Control Guidelines.

- b) Plant and equipment associated with rainwater tanks are to be enclosed in a sound absorbing enclosure or installed within a building, to minimise noise emissions and possible nuisance to nearby residents.
- c) The operation of plant and equipment associated with rainwater tanks are to be restricted to the following hours if the noise emitted can be heard within a habitable room in any other residential premises:
- before 8.00am or after 8.00pm on weekends or public holiday; or
 - before 7.00am or after 8.00pm on weekdays.

ADVISORY NOTES

The following information is provided for your assistance to ensure compliance with the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, or other relevant legislation and Council's policies. This information does not form part of the conditions of development consent pursuant to Section 80A of the Act.

- A1 The requirements and provisions of the *Environmental Planning & Assessment Act 1979* and *Environmental Planning & Assessment Regulation 2000*, must be fully complied with at all times.

Failure to comply with these requirements is an offence, which renders the responsible person liable to a maximum penalty of \$1.1 million. Alternatively, Council may issue a penalty infringement notice (for up to \$1,500) for each offence. Council may also issue notices and orders to demolish unauthorised or non-complying building work, or to comply with the requirements of Council's development consent.

- A2 Demolition, building or excavation work must not be commenced until;

- A Construction Certificate has been obtained from Council or an Accredited Certifier
- Council or an Accredited Certifier has been appointed as the Principal Certifying Authority for the development
- Council and the Principal Certifying Authority have been given at least 2 days notice (in writing) prior to commencing any works.

- A3 This determination does not include an assessment of the proposed works under the Building Code of Australia (BCA) and other relevant Standards. All new building work (including alterations and additions) must comply with the BCA and relevant Standards and you are advised to liaise with your architect, engineer and building consultant prior to lodgement of your construction certificate.

- A4 Council's *Building Approvals & Certification team* can issue Construction Certificates and be your Principal Certifying Authority for the development, to undertake inspections and ensure compliance with the development consent, relevant building regulations and standards of construction. For further details contact Council's *Building Approvals & Certification team* on 9399 0944.

- A5 A Local Approval application must be submitted to and be approved by Council's Building Approvals & Certification team prior to commencing any of the following activities on a footpath, road, nature strip or in any public place: -

- Install or erect any site fencing, hoardings or site structures
- Operate a crane or hoist goods or materials over a footpath or road
- Placement of a waste skip or any other container or article.

For further information please contact Council's Building Approvals & Certification team on 9399 0944.

- A6 Specific details of the location of the building/s should be provided in the Construction Certificate to demonstrate that the proposed building work will not encroach onto the adjoining properties, Council's road reserve or any public place, to the satisfaction of the Certifying Authority.

- A7 Prior to commencing any works, the owner/builder should contact *Dial Before You Dig* on 1100 or www.dialbeforeyoudig.com.au and relevant Service Authorities, for information on potential underground pipes and cables within

the vicinity of the development site.

A8 This consent does not authorise any trespass or encroachment upon any adjoining or supported land or building whether private or public. Where any underpinning, shoring, soil anchoring (temporary or permanent) or the like is proposed to be carried out upon any adjoining or supported land, the land owner or principal contractor must obtain:

- the consent of the owners of such adjoining or supported land to trespass or encroach, or
- an access order under the Access to *Neighbouring Land Act 2000*, or
- an easement under section 88K of the *Conveyancing Act 1919*, or
- an easement under section 40 of the *Land & Environment Court Act 1979*, as appropriate.

Section 177 of the *Conveyancing Act 1919* creates a statutory duty of care in relation to support of land. Accordingly, a person has a duty of care not to do anything on or in relation to land being developed (the supporting land) that removes the support provided by the supporting land to any other adjoining land (the supported land).

MOTION: (Stevenson/Andrews) that Council, as the consent authority, grants development consent under Sections 80 and 80A of the Environmental Planning and Assessment Act 1979, as amended, to Development Application No. 818/2011 for ground and first floor alterations and additions to existing dwelling with plunge pool at the rear and landscaping works at No. 17 Liguria Street, Maroubra, subject to the following conditions:

DEVELOPMENT CONSENT CONDITIONS

GENERAL CONDITIONS

The development must be carried out in accordance with the following conditions of consent.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of environmental amenity.

Approved Plans & Supporting Documentation

1. The development must be implemented substantially in accordance with the plans and supporting documentation listed below and endorsed with Council's approved stamp, except where amended by Council in red and/or by other conditions of this consent:

Plan	Drawn by	Stamped
DA02 Rev. A	Donna Moon Architect	16 March 2012
DA03 Rev. A	Donna Moon Architect	16 March 2012
DA04 Rev. A	Donna Moon Architect	16 March 2012
DA05 Rev. A	Donna Moon Architect	16 March 2012
DA06 Rev. A	Donna Moon Architect	16 March 2012
DA07 Rev. A	Donna Moon Architect	16 March 2012
DA08 Rev. A	Donna Moon Architect	16 March 2012
Colour schedule and keyed elevations	Donna Moon Architect	10 April 2012

BASIX Certificate	No.	Dated
Hogan & Murphy Residence_02	A125185_02	30 October 2011

Amendment of Plans & Documentation

2. The approved plans and documents must be amended in accordance with the following requirements:
 - a. The 1700mm high privacy screen shown on the eastern side of the balcony at first floor level must be deleted.
 - b. The front boundary wall must not exceed a height of 1600mm from ground level at the road boundary.

REQUIREMENTS BEFORE A CONSTRUCTION CERTIFICATE CAN BE ISSUED

The following conditions of consent must be complied with before a 'Construction Certificate' is issued by either Randwick City Council or an Accredited Certifier. All necessary information to demonstrate compliance with the following conditions of consent must be included in the documentation for the construction certificate.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent conditions and to achieve reasonable levels of environmental amenity.

Consent Requirements

3. The requirements and amendments detailed in the 'General Conditions' must be complied with and be included in the construction certificate plans and associated documentation.

External Colours, Materials & Finishes

4. The colours, materials and finishes of the external surfaces are to be compatible with the schedule of colours and materials including keyed elevation drawings.

Section 94A Development Contributions

5. In accordance with Council's Section 94A Development Contributions Plan effective from 2 July 2007, based on the development cost of \$380,000.00, the following applicable monetary levy must be paid to Council: \$3800.00.

The levy must be paid in cash, bank cheque or by credit card prior to a construction certificate [or subdivision certificate] being issued for the proposed development. The development is subject to an index to reflect quarterly variations in the Consumer Price Index (CPI) from the date of Council's determination to the date of payment.

Council's Section 94A Development Contribution Plans may be inspected at the Customer Service Centre, Administrative Centre, 30 Frances Street, Randwick or at www.randwick.nsw.gov.au.

Long Service Levy Payments

6. The required Long Service Levy payment, under the *Building and Construction Industry Long Service Payments Act 1986*, must be forwarded to the Long Service Levy Corporation or the Council, in accordance with Section 109F of the *Environmental Planning & Assessment Act 1979*.

At the time of this development consent, Long Service Levy payment is applicable on building work having a value of \$25,000 or more, at the rate of 0.35% of the cost of the works.

Security Deposits

7. The following security deposits requirement must be complied with prior to a construction certificate being issued for the development, as security for making good any damage caused to Council's assets and infrastructure; and as security for completing any public work; and for remedying any defect on such

public works, in accordance with section 80A(6) of the *Environmental Planning and Assessment Act 1979*:

- \$600.00 - Damage / Civil Works Security Deposit

Security deposits may be provided by way of a cash, cheque or credit card payment and is refundable upon a satisfactory inspection by Council upon the completion of the civil works which confirms that there has been no damage to Council's infrastructure.

The owner/builder is also requested to advise Council in writing and/or photographs of any signs of existing damage to the Council roadway, footway, or verge prior to the commencement of any building/demolition works.

To obtain a refund of relevant deposits, a *Security Deposit Refund Form* is to be forwarded to Council's Director of City Services upon issuing of an occupation certificate or completion of the civil works.

Landscaping

8. Landscaping shall be provided to the site to enhance its amenity and reduce the impact of the development upon neighbouring properties and streetscape. A landscape plan shall be submitted to, and be approved by, the Director of City Planning, in accordance with section 80A (2) of the *Environmental Planning & Assessment Act 1979*, prior to a construction certificate being issued. The landscape plan should only include plant species that are likely to grow to low heights (i.e. maximum height of 3m).

REQUIREMENTS TO BE INCLUDED IN THE CONSTRUCTION CERTIFICATE

The requirements contained in the following conditions of consent must be complied with and details of compliance must be included in the construction certificate for the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Councils development consent conditions and to achieve reasonable levels of environmental amenity.

Compliance with the Building Code of Australia

9. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, it is a *prescribed condition* that all building work must be carried out in accordance with the provisions of the Building Code of Australia (BCA). Details of compliance with the BCA are to be included in the construction certificate application.

Smoke Alarms

10. Smoke alarms are required to be installed in accordance with the relevant provisions of the Building Code of Australia (volume 2) smoke alarms must comply with AS3786. Smoke alarms must be connected to the consumer mains electric power supply and provided with a battery back-up. Details of compliance are to be included in the construction certificate.

Driveway Design

11. The gradient of the internal access driveway must be designed and constructed in accordance with AS 2890.1 (2004) – Off Street Car Parking and the levels of the driveway must match the alignment levels at the property boundary (as specified by Council). Details of compliance are to be included in the construction certificate.

BASIX Requirements

12. In accordance with section 80A(11) of the *Environmental Planning & Assessment Act 1979* and clause 97A of the *Environmental Planning & Assessment Regulation 2000*, the requirements and commitments contained in the relevant BASIX Certificate must be complied with.

The required commitments listed and identified in the BASIX Certificate must be included on the construction certificate plans, specifications and associated documentation, to the satisfaction of the Certifying Authority.

The design of the building must not be inconsistent with the development consent and any proposed variations to the building to achieve the BASIX commitments may necessitate a new development consent or amendment to the existing consent to be obtained, prior to a construction certificate being issued.

Energy & Water Efficiency

13. The following energy efficiency and water saving measures are to be implemented in all new and upgraded building work and details included in the construction certificate:

- a) The consumption of water shall be minimised by the use of triple A rated water efficient plumbing fixtures (taps and shower roses) and water efficient dual flush toilets.
- b) New external timber or metal framed and brick veneer walls and roofs are to be provided with insulation (i.e. bulk insulation and a reflective building membrane/reflective sarking/foil insulation), having a minimum total thermal resistance R-value of 3.0 in roofs and 1.5 in external walls. The insulation and reflective building membrane is to be installed in accordance with the relevant requirements of the Building Code of Australia and the manufacturers details.
- c) New hot water service pipes are to be provided with insulation and must also satisfy any relevant requirements of Building Code of Australia and AS 3500.

Stormwater Drainage

14. Stormwater runoff from the site shall be discharged either:

- a) To the kerb and gutter along the site frontage by gravity (preferably without the use of a charged system); OR
- b) Through a private drainage easement(s) to Council's kerb and gutter (or underground drainage system); OR
- c) To a suitably sized infiltration area. As a guide the infiltration area shall be sized based on a minimum requirement of 1 m² of infiltration area (together with 1 m³ of storage volume) for every 20 m² of roof/impervious area on the site.

Prior to the use of infiltration in rear draining lots (where there is no formal overland escape route to Council's kerb and gutter/street drainage system), a geotechnical investigation will be required to determine whether the ground is suitable for infiltration. Should rock and/or a water table be encountered within two metres of the proposed base of the infiltration pit, or the ground conditions comprise low permeability soils such as clay, infiltration may not be appropriate.

NOTE: Should the applicant be unable to obtain a private drainage easement over properties to the rear of the development site (to facilitate stormwater discharge in accordance with option b)); and ground conditions preclude the use of infiltration (Option c), consideration may be given to the use of a charged system or a pump out system to drain that portion of the site that cannot be drained by gravity to the kerb and gutter at the front of the property.

15. Should a charged system be required to drain any portion of the site, the charged system must be designed with suitable clear-outs/inspection points at pipe bends and junctions.
16. Should a pump system be required to drain any portion of the site the system must be designed with a minimum of two pumps being installed, connected in parallel (with each pump capable of discharging at the required discharge rate) and connected to a control board so that each pump will operate alternatively. The pump wet well shall be sized for the 1 in 100 year, 2 hour storm assuming both pumps are not working.

The pump system must also be designed and installed strictly in accordance with Randwick City Council's Stormwater Code.

17. All pump out water must pass through a stilling pit, located within the site, prior to being discharged by gravity to the kerb and gutter.

Tree Management

18. The trees located on Council's nature strip opposite the subject site are to be retained and protected during building works.

REQUIREMENTS PRIOR TO THE COMMENCEMENT OF ANY WORKS

The following conditions of consent must be complied with prior to the commencement of any works on the site. The necessary documentation and information must be provided to the Council or the '*Principal Certifying Authority*', as applicable.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity.

Construction Certificate, Principal Certifying Authority & Commencement of Works

19. Prior to the commencement of any building works, the following requirements must be complied with:
 - a) a Construction Certificate must be obtained from the Council or an accredited certifier, in accordance with the provisions of the *Environmental Planning & Assessment Act 1979*.

A copy of the construction certificate, the approved development consent plans and consent conditions must be kept on the site at all times and be made available to the Council officers and all building contractors for assessment.
 - b) a *Principal Certifying Authority* (PCA) must be appointed to carry out the necessary building inspections and to issue an *occupation certificate*; and
 - c) a *principal contractor* must be appointed for the building work, or in relation to residential building work, an *owner-builder* permit may be obtained in accordance with the requirements of the *Home Building Act*

1989, and the PCA and Council are to be notified accordingly; and

- d) the *principal contractor* must be advised of the required *critical stage inspections* and other inspections to be carried out, as specified by the *Principal Certifying Authority*; and
- e) at least two days notice must be given to the Council, in writing, prior to commencing any works.

In relation to residential building work, the principal contractor must be the holder of a contractor licence, in accordance with the provisions of the Home Building Act 1989.

Home Building Act 1989

20. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, the requirements of the *Home Building Act 1989* must be complied with.

Details of the Licensed Building Contractor and a copy of the relevant Certificate of Home Warranty Insurance or a copy of the Owner-Builder Permit (as applicable) must be provided to the Principal Certifying Authority and Council.

Dilapidation Reports

21. A dilapidation report prepared by a professional engineer, building surveyor or other suitably qualified independent person must be submitted to the satisfaction of the Principal Certifying Authority prior to commencement of any demolition, excavation or building works, in the following cases:
 - excavations for new dwellings, additions to dwellings, swimming pools or the like which are proposed to be located within the *zone of influence* of the footings of any dwelling, associated garage or other substantial structure located upon an adjoining premises,
 - new dwellings or additions to dwellings sited up to shared property boundaries (e.g. additions to a semi-detached dwelling or terraced dwellings),
 - excavations for new dwellings, additions to dwellings, swimming pools or the like which are within rock and may result in vibration and or potential damage to any dwelling, associated garage or other substantial structure located upon an adjoining premises,
 - as otherwise may be required by the Principal Certifying Authority.

The report (including photographs) are required to detail the current condition and status of any dwelling, associated garage or other substantial structure located upon the adjoining premises, which may be affected by the subject works. A copy of the dilapidation report is to be given to the owners of the premises encompassed in the report/s before commencing any works.

Construction Noise & Vibration Management Plan

22. Noise and vibration emissions during the construction of the building and associated site works must not result in damage to nearby premises or result in an unreasonable loss of amenity to nearby residents and the relevant requirements of the *Protection of the Environment Operations Act 1997* and NSW DECC Guidelines must be satisfied at all times.

Noise and vibration from any rock excavation machinery, pile drivers and all plant and equipment must be minimised, by using appropriate plant and equipment, silencers and the implementation of noise management strategies.

A *Construction Noise Management Plan*, prepared in accordance with the NSW DECC Construction Noise Guideline by a suitably qualified person, is to be implemented throughout the works. A copy of the strategy must be provided to the Principal Certifying Authority and Council prior to the commencement of works on site.

Temporary Site Fencing

23. Temporary site safety fencing must be provided to the perimeter of the site (unless the site is separated from the adjoining land by an existing structurally adequate fence, having a minimum height of 1.5 metres). Temporary site fences are to have a minimum height of 1.8 metres and be constructed of cyclone wire fencing, with geotextile fabric attached to the inside of the fence to provide dust control, or other material approved by Council.

Temporary site fences are to be structurally adequate, safe and be constructed in a professional manner and the use of poor quality materials or steel reinforcement mesh as fencing is not permissible.

Temporary fences must be in place prior to the commencement of any demolition, excavation or building works and be maintained throughout construction.

If it is proposed to locate any site fencing, hoardings or amenities upon any part of the footpath, nature strip or public place, a Local Approval application must be submitted to and approved by Council's Health, Building & Regulatory Services before placing any item or article on the road, footpath or nature strip.

Construction Site Management Plan

24. A *Construction Site Management Plan* must be developed and implemented prior to the commencement of any works. The construction site management plan must include the following measures, as applicable to the type of development:

- location and construction of protective fencing/hoardings to the perimeter of the site;
- location of site storage areas/sheds/equipment;
- location of building materials for construction;
- provisions for public safety;
- dust control measures;
- site access location and construction
- details of methods of disposal of demolition materials;
- protective measures for tree preservation;
- provisions for temporary sanitary facilities;
- location and size of waste containers/bulk bins;
- details of proposed sediment and erosion control measures;
- provisions for temporary stormwater drainage;
- construction noise and vibration management;
- construction traffic management details.

The site management measures must be implemented prior to the commencement of any site works and be maintained throughout the works, to the satisfaction of Council.

A copy of the Construction Site Management Plan must be provided to the Principal Certifying Authority and Council prior to commencing site works. A copy must also be maintained on site and be made available to Council officers upon request.

Demolition Work Plan

25. A Demolition Work Plan must be prepared for the development in accordance with Australian Standard AS2601-2001, Demolition of Structures and relevant environmental/occupational health and safety requirements.

The Demolition Work Plan must include the following information (as applicable):

- The name, address, contact details and licence number of the Demolisher /Asbestos Removal Contractor
- Details of hazardous materials (including asbestos)
- Method/s of demolition (including removal of any asbestos)
- Measures and processes to be implemented to ensure the health & safety of workers and community
- Measures to be implemented to minimise any airborne dust and asbestos
- Methods and location of disposal of any hazardous materials (including asbestos)
- Other relevant details, measures and requirements to be implemented
- Details of re-use, recycling and disposal of waste demolition/building materials
- Date the demolition works will commence

The Demolition Work Plan must be submitted to the Principal Certifying Authority (PCA), not less than two (2) working days before commencing any demolition work. A copy of the Demolition Work Plan must be maintained on site and be made available to Council officers upon request.

If the work involves asbestos products or materials, a copy of the Demolition Work Plan must also be provided to Council not less than 2 days before commencing those works.

Notes

- *It is the responsibility of the persons undertaking demolition work to obtain the relevant WorkCover licences and permits.*
- *Refer to the conditions within the "Requirements During Construction & Site Work", for further details and requirements relating to demolition work, removal of any asbestos and public safety.*

Sydney Water

26. All building, plumbing and drainage work must be carried out in accordance with the requirements of the Sydney Water Corporation.

Prior to the commencement of excavation or building works, the approved Construction Certificate plans must be submitted to a Sydney Water Quick Check agent or Customer Centre, to determine whether the development will affect Sydney Water's sewer and water mains, stormwater drains and/or easements, and if any further requirements need to be met.

If suitable, the plans will be appropriately stamped. For Quick Check agent details please refer to Sydney Water's web site at www.sydneywater.com.au and go to the Building, Developing and Plumbing, then Quick Check or Building and Renovating or telephone 13 20 92.

The principal certifying authority must ensure that a Quick Check Agent/Sydney Water has appropriately stamped the plans before commencing works.

Public Utilities

27. A *Public Utility Impact Assessment* must be carried out to identify all public utility services located on the site, roadway, nature strip, footpath, public reserve or any public areas associated with and/or adjacent to the building

works.

Documentary evidence from the relevant public utility authorities confirming that their requirements have been or are able to be satisfied, must be submitted to the Principal Certifying Authority prior to the commencement of any works.

The owner/builder must make the necessary arrangements and meet the full cost for telecommunication companies, gas providers, Energy Australia, Sydney Water and other authorities to adjust, repair or relocate their services as required.

Tree Management

28. Approval is granted for the removal of the 2 trees located within the site and adjacent to the door entrance at the front of the dwelling.

REQUIREMENTS DURING CONSTRUCTION & SITE WORK

The following conditions of consent must be complied with during the demolition, excavation and construction of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity during construction.

Inspections During Construction

29. The building works must be inspected by the *Principal Certifying Authority*, in accordance with sections 109 E (3) of the *Environmental Planning & Assessment Act 1979* and clause 162A of the *Environmental Planning & Assessment Regulation 2000*, to monitor compliance with the relevant standards of construction, Council's development consent and the construction certificate.

The *Principal Certifying Authority* must specify the relevant stages of construction to be inspected and a satisfactory inspection must be carried out, to the satisfaction of the *Principal Certifying Authority*, prior to proceeding to the subsequent stages of construction or finalisation of the works (as applicable).

Site Signage

30. A sign must be erected and maintained in a prominent position on the site for the duration of the works, which contains the following details:

- name, address, contractor licence number and telephone number of the *principal contractor*, including a telephone number at which the person may be contacted outside working hours, or *owner-builder* permit details (as applicable)
- name, address and telephone number of the *Principal Certifying Authority*,
- a statement stating that "unauthorised entry to the work site is prohibited".

Restriction on Working Hours

31. Building, demolition and associated site works must be carried out in accordance with the following requirements:

Activity	Permitted working hours
All building, demolition and	• Monday to Friday - 7.00am to 5.00pm

site work, including site deliveries (except as detailed below)	<ul style="list-style-type: none"> • Saturday - 8.00am to 5.00pm • Sunday & public holidays - No work permitted
Excavating of rock, use of jack-hammers, pile-drivers, vibratory rollers/compactors or the like	<ul style="list-style-type: none"> • Monday to Friday - 8.00am to 5.00pm • Saturday - No work permitted • Sunday & public holidays - No work permitted

An application to vary the abovementioned hours may be submitted to Council's Manager Health, Building & Regulatory Services for consideration and approval to vary the specified hours may be granted in exceptional circumstances and for limited occasions (e.g. for public safety, traffic management or road safety reasons). Any applications are to be made on the standard application form and include payment of the relevant fees and supporting information. Applications must be made at least 10 days prior to the date of the proposed work and the prior written approval of Council must be obtained to vary the standard permitted working hours.

Demolition Work Requirements

32. The demolition of buildings and the removal, storage, handling and disposal of building materials must be carried out in accordance with the relevant requirements of WorkCover NSW, the NSW Department of Environment, Climate Change & Water and Randwick City Council policies, including:
- Occupational Health & Safety Act 2000 & Regulations
 - WorkCover NSW Code of Practice for the Safe Removal of Asbestos
 - WorkCover NSW Guidelines and Codes of Practice
 - Australian Standard 2601 (2001) – Demolition of Structures
 - The Protection of the Environment Operations Act 1997 and Protection of the Environment Operations (Waste) Regulation 2005
 - Relevant DECCW/EPA Guidelines
 - Randwick City Council Asbestos Policy

A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development section or a copy can be obtained from Council's Customer Service Centre.

Removal of Asbestos Materials

33. Work involving the demolition, storage or disposal of asbestos products and materials must be carried out in accordance with the following requirements:
- Relevant Occupational Health & Safety legislation and WorkCover NSW requirements
 - Randwick City Council's Asbestos Policy
 - A WorkCover licensed demolition or asbestos removal contractor must undertake removal of more than 10m² of bonded asbestos (or as otherwise specified by WorkCover or relevant legislation). Removal of friable asbestos material must only be undertaken by contractor that holds a current friable asbestos removal licence. A copy of the relevant licence must be provided to the Principal Certifying Authority.
 - On sites involving the removal of asbestos, a sign must be clearly displayed in a prominent visible position at the front of the site, containing the words 'DANGER ASBESTOS REMOVAL IN PROGRESS' and include details of the licensed contractor.
 - Asbestos waste must be stored, transported and disposed of in compliance

with the *Protection of the Environment Operations Act 1997* and the *Protection of the Environment Operations (Waste) Regulation 2005*. Details of the landfill site (which must be lawfully able to receive asbestos materials) must be provided to the Principal Certifying Authority.

- A Clearance Certificate or Statement, prepared by a suitably qualified person (ie an occupational hygienist, licensed asbestos removal contractor, building consultant, architect or experienced licensed building contractor), must be provided to Council and the Principal certifying authority upon completion of the asbestos related works which confirms that the asbestos material have been removed appropriately and the relevant conditions of consent have been satisfied.

A copy of Council's Asbestos Policy is available on Council's web site at www.randwick.nsw.gov.au in the Building & Development Section or a copy can be obtained from Council's Customer Service Centre.

Sediment & Erosion Control

34. Sediment and erosion control measures, must be implemented throughout the site works in accordance with the manual for Managing Urban Stormwater – Soils and Construction, published by Landcom, to Council's satisfaction. Details are to be included in the *Construction Site Management Plan*.

Public Safety & Site Management

35. Public safety and convenience must be maintained at all times during demolition, excavation and construction works and the following requirements must be complied with:

- Building materials, sand, soil, waste materials, construction equipment or other articles must not be placed upon the footpath, roadway or nature strip at any time.
- The road, footpath, vehicular crossing and nature strip must be maintained in a good, safe, clean condition and free from any excavations, obstructions, trip hazards, goods, materials, soils or debris at all times. Any damage caused to the road, footway, vehicular crossing, nature strip or any public place must be repaired immediately, to the satisfaction of Council.
- Building operations such as brick cutting, washing tools or equipment and mixing mortar are not permitted on public footpaths, roadways, nature strips, in any public place or any location which may lead to the discharge of materials into the stormwater drainage system.
- Bulk bins/waste containers must not be located upon the footpath, roadway or nature strip at any time without the prior written approval of the Council. Applications to place a waste container in a public place can be made to Council's Health, Building and Regulatory Services department.
- Temporary safety fencing is to be provided to any swimming pools under construction, pending the completion of all building work and the pool must not be filled until a fencing inspection has been carried out and approved by the principal certifying authority.

Support of Adjoining Land, Excavations & Retaining Walls

36. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 E of the *Environmental Planning & Assessment Regulation 2000*, it is a prescribed condition that the adjoining

land and buildings located upon the adjoining land must be adequately supported at all times.

37. All excavations and backfilling associated with the erection or demolition of a building must be executed safely in accordance with appropriate professional standards and excavations must be properly guarded and supported to prevent them from being dangerous to life, property or buildings.

Retaining walls, shoring or piling must be provided to support land which is excavated in association with the erection or demolition of a building, to prevent the movement of soil and to support the adjacent land and buildings, if the soil conditions require it. Adequate provisions are also to be made for drainage.

Details of proposed retaining walls, shoring or piling are to be submitted to and approved by the Principal Certifying Authority for the development prior to commencing such excavations or works.

38. Prior to undertaking any demolition, excavation or building work in the following circumstances, a report must be obtained from a *professional engineer* which details the methods of support for the dwelling or associated structure on the adjoining land, to the satisfaction of the *Principal Certifying Authority*:

- when undertaking excavation or building work within the zone of influence of the footings of a dwelling or associated structure that is located on the adjoining land;
- when undertaking demolition work to a wall of a dwelling that is built to a common or shared boundary (eg. semi-detached or terrace dwelling);
- when constructing a wall to a dwelling or associated structure that is located within 900mm of a dwelling located on the adjoining land.

The demolition, excavation and building work and the provision of support to the dwelling or associated structure on the adjoining land, must also be carried out in accordance with the abovementioned report, to the satisfaction of the *Principal Certifying Authority*.

Building Encroachments

39. There must be no encroachment of any structures or building work onto Council's road reserve, footway, nature strip or public place.

Road/Asset Opening Permit

40. A *Road / Asset Opening Permit* must be obtained from Council prior to commencing any excavations or works within or upon a road, footpath, nature strip or in any public place, in accordance with section 138 of the *Roads Act 1993* and all of the conditions and requirements contained in the *Road/Asset Opening Permit* must be complied with.

For further information, please contact Council's Road/Asset Opening Officer on 9399 0691 or 9399 0999.

REQUIREMENTS PRIOR TO THE ISSUE OF AN OCCUPATION CERTIFICATE

The following conditions of consent must be complied with prior to the *Principal Certifying Authority* issuing an *Occupation Certificate*.

Note: For the purpose of this consent, any reference to 'occupation certificate' shall also be taken to mean 'interim occupation certificate' unless otherwise stated.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health, safety and amenity.

Occupation Certificate Requirements

41. An Occupation Certificate must be obtained from the Principal Certifying Authority prior to any occupation of the building work encompassed in this development consent (including alterations and additions to existing buildings), in accordance with the relevant provisions of the *Environmental Planning & Assessment Act 1979*.

An Occupation Certificate must not be issued for the development if the development is inconsistent with the development consent. The relevant requirements of the *Environmental Planning & Assessment Act 1979* and conditions of development consent must be satisfied prior to the issuing of an occupation certificate.

BASIX Requirements

42. In accordance with Clause 154B of the *Environmental Planning & Assessment Regulation 2000*, a Certifying Authority must not issue an Occupation Certificate for this development, unless it is satisfied that each of the required BASIX commitments have been fulfilled.

Relevant documentary evidence of compliance with the BASIX commitments is to be forwarded to the Council upon issuing an Occupation Certificate.

Occupant Safety

43. Openable windows to a room, corridor, stairway or the like with a floor level more than 4m above the external ground/surface level, must be designed and constructed to reduce the likelihood of a child accessing and falling through the window opening.

Options may include one or more of the following measures:

- The window having a minimum sill height of 1.5m above the internal floor level,
- Providing a window locking device at least 1.5m above the internal floor level,
- Fixing or securing the window (e.g. by screws or a window locking device) to restrict or to be able to secure the extent of the opening to a maximum width of 125mm,
- Installing a fixed heavy-duty gauge metal screen over the opening (e.g. A metal security screen or metal security mesh and frame system, but not standard fly-screen material),
- Other appropriate effective safety measures or barrier.

The relevant measures must be implemented prior to the issue of an occupation certificate.

Swimming Pool Safety

44. Swimming pools are to be provided with childproof fences and self-locking gates, in accordance with the *Swimming Pools Act 1992* and regulations.

The swimming pool is to be surrounded by a fence having a minimum height of 1.2m, that separates the pool from any residential building situated on the premises and from any place (whether public or private) adjoining the premises; and that is designed, constructed and installed in accordance with AS 1926.1 - 2007.

Gates to pool area shall be a maximum width of 1 metre, and be self-closing and latching; the gate is required to open outwards from the pool area and prevent a small child opening the gate or door when the gate or door is closed.

A 'warning notice' must be erected in a prominent position in the immediate vicinity of the swimming pool, in accordance with the provisions of the *Swimming Pools Regulation 2008*, detailing pool safety requirements, resuscitation techniques and the importance of the supervision of children at all times.

Swimming Pool & Spa Pool Requirements

45. Swimming pools (and spa pools) are to be designed, installed and operated in accordance with the following general requirements:

- a) Backwash of the pool filter and other discharge of water is to be drained to the sewer in accordance with the requirements of the Sydney Water Corporation; and
- a) All pool overflow water is to be drained away from the building and adjoining premises, so as not to result in a nuisance or damage to premises; and
- b) Water recirculation and filtrations systems are required to comply with AS 1926.3 – 2003: Swimming Pool Safety – Water Recirculation and Filtration Systems; and
- c) Pool plant and equipment is to be enclosed in a sound absorbing enclosure or installed within a building, to minimise noise emissions and possible nuisance to nearby residents.

Notification of Swimming Pools & Spa Pools

46. Written notification must be provided to Council advising of the installation and completion of the Swimming Pool (or Spa Pool), to satisfy the requirements of the *Swimming Pools Act 1992*.

Council's "Notification & Registration of a Swimming Pool" form must be completed and forwarded to Council prior to any Occupation Certificate being issued for the pool.

Council's Infrastructure, Vehicular Crossings, street verge

47. The applicant must meet the full cost for Council or a Council approved contractor to repair/replace any damaged sections of Council's footpath, kerb & gutter, nature strip etc which are due to building works being carried out at the above site. This includes the removal of cement slurry from Council's footpath and roadway.

48. All external civil work to be carried out on Council property (including the installation and repair of roads, footpaths, vehicular crossings, kerb and guttering and drainage works), must be carried out in accordance with Council's Policy for "Vehicular Access and Road and Drainage Works" and the following requirements:

- a) All work on Council land must be carried out by Council, unless specific written approval has been obtained from Council to use non-Council contractors.
- b) Details of the proposed civil works to be carried out on Council land must be submitted to Council in a *Pre-paid Works Application Form*, prior to issuing an occupation certificate, together with payment of the

relevant fees.

- c) If it is proposed to use non-Council contractors to carry out the civil works on Council land, the work must not commence until the written approval has been obtained from Council and the work must be carried out in accordance with the conditions of consent, Council's design details and payment of a Council design and supervision fee.
- d) The civil works must be completed in accordance with Council's conditions of consent and approved design and construction documentation, prior to occupation of the development, or as otherwise approved by Council in writing.

49. That part of the naturestrip upon Council's footway which is damaged during the construction of the proposed works shall be excavated to a depth of 150mm, backfilled with topsoil equivalent with 'Organic Garden Mix' as supplied by Australian Native Landscapes, and re-turfed with Kikuyu turf or similar. Such works shall be completed at the applicants expense prior to the issue of a final Occupation Certificate.

OPERATIONAL CONDITIONS

The following operational conditions must be complied with at all times, throughout the use and operation of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health and environmental amenity.

Use of premises

50. The premises must only be used as a single residential dwelling and must not be used for dual or multi-occupancy purposes.

External Lighting

51. External lighting to the premises must be designed and located so as to minimise light-spill beyond the property boundary or cause a public nuisance.

Protection of the Environment Operations Act 1997 – Swimming Pools & Spa Pools

52. The operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997 and Regulations*.

In this regard, the operation of the plant and equipment shall not give rise to an $L_{Aeq, 15 \text{ min}}$ sound pressure level at any affected premises that exceeds the background $L_{A90, 15 \text{ min}}$ noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A) in accordance with relevant NSW Department of Environment & Conservation Noise Control Guidelines.

Pool Plant & Equipment

53. The pool plant and equipment shall not be operated during the following hours if the noise emitted can be heard within a habitable room in any other residential premises, or, as otherwise specified in relevant Noise Control Regulations:

- before 8.00am or after 8.00pm on any Sunday or public holiday; or
- before 7.00am or after 8.00pm on any other day.

Protection of the Environment Operations Act 1997 – Air Conditioners

54. The operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997 and Regulations*.

In this regard, the operation of the plant and equipment shall not give rise to an $L_{Aeq, 15 \text{ min}}$ sound pressure level at any affected premises that exceeds the background $L_{A90, 15 \text{ min}}$ noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A) in accordance with relevant NSW Department of Environment & Conservation Noise Control Guidelines.

Air Conditioning & Equipment

55. Air conditioning plant and equipment shall not be operated during the following hours if the noise emitted can be heard within a habitable room in any other residential premises, or, as otherwise specified in relevant Noise Control Regulations:

- before 8.00am or after 10.00pm on any Saturday, Sunday or public holiday; or
- before 7.00am or after 10.00pm on any other day.

Protection of the Environment Operations Act 1997 – Rainwater Tanks

56. The operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997 and Regulations*.

In this regard, the operation of the plant and equipment shall not give rise to an $L_{Aeq, 15 \text{ min}}$ sound pressure level at any affected premises that exceeds the background $L_{A90, 15 \text{ min}}$ noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A) in accordance with relevant NSW Department of Environment & Conservation Noise Control Guidelines.

Rainwater Tank Requirements

57. The installation of rainwater tanks shall comply with the following noise control requirements:

- a) The operation of all plant and equipment shall not give rise to an 'offensive noise' as defined in the *Protection of the Environment Operations Act 1997 and Regulations*.

In this regard, the operation of the plant and equipment shall not give rise to an $L_{Aeq, 15 \text{ min}}$ sound pressure level at any affected premises that exceeds the background $L_{A90, 15 \text{ min}}$ noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A) in accordance with relevant NSW Department of Environment & Conservation Noise Control Guidelines.

- b) Plant and equipment associated with rainwater tanks are to be enclosed in a sound absorbing enclosure or installed within a building, to minimise noise emissions and possible nuisance to nearby residents.
- c) The operation of plant and equipment associated with rainwater tanks are to be restricted to the following hours if the noise emitted can be heard within a habitable room in any other residential premises:
- before 8.00am or after 8.00pm on weekends or public holiday; or
 - before 7.00am or after 8.00pm on weekdays.

ADVISORY NOTES

The following information is provided for your assistance to ensure compliance with

the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, or other relevant legislation and Council's policies. This information does not form part of the conditions of development consent pursuant to Section 80A of the Act.

- A1 The requirements and provisions of the *Environmental Planning & Assessment Act 1979* and *Environmental Planning & Assessment Regulation 2000*, must be fully complied with at all times.

Failure to comply with these requirements is an offence, which renders the responsible person liable to a maximum penalty of \$1.1 million. Alternatively, Council may issue a penalty infringement notice (for up to \$1,500) for each offence. Council may also issue notices and orders to demolish unauthorised or non-complying building work, or to comply with the requirements of Council's development consent.

- A2 Demolition, building or excavation work must not be commenced until;

- A Construction Certificate has been obtained from Council or an Accredited Certifier
- Council or an Accredited Certifier has been appointed as the Principal Certifying Authority for the development
- Council and the Principal Certifying Authority have been given at least 2 days notice (in writing) prior to commencing any works.

- A3 This determination does not include an assessment of the proposed works under the Building Code of Australia (BCA) and other relevant Standards. All new building work (including alterations and additions) must comply with the BCA and relevant Standards and you are advised to liaise with your architect, engineer and building consultant prior to lodgement of your construction certificate.

- A4 Council's *Building Approvals & Certification team* can issue Construction Certificates and be your Principal Certifying Authority for the development, to undertake inspections and ensure compliance with the development consent, relevant building regulations and standards of construction. For further details contact Council's *Building Approvals & Certification team* on 9399 0944.

- A5 A Local Approval application must be submitted to and be approved by Council's Building Approvals & Certification team prior to commencing any of the following activities on a footpath, road, nature strip or in any public place: -

- Install or erect any site fencing, hoardings or site structures
- Operate a crane or hoist goods or materials over a footpath or road
- Placement of a waste skip or any other container or article.

For further information please contact Council's Building Approvals & Certification team on 9399 0944.

- A6 Specific details of the location of the building/s should be provided in the Construction Certificate to demonstrate that the proposed building work will not encroach onto the adjoining properties, Council's road reserve or any public place, to the satisfaction of the Certifying Authority.

- A7 Prior to commencing any works, the owner/builder should contact *Dial Before You Dig* on 1100 or www.dialbeforeyoudig.com.au and relevant Service Authorities, for information on potential underground pipes and cables within the vicinity of the development site.

A8 This consent does not authorise any trespass or encroachment upon any adjoining or supported land or building whether private or public. Where any underpinning, shoring, soil anchoring (temporary or permanent) or the like is proposed to be carried out upon any adjoining or supported land, the land owner or principal contractor must obtain:

- the consent of the owners of such adjoining or supported land to trespass or encroach, or
- an access order under the Access to *Neighbouring Land Act 2000*, or
- an easement under section 88K of the *Conveyancing Act 1919*, or
- an easement under section 40 of the *Land & Environment Court Act 1979*, as appropriate.

Section 177 of the *Conveyancing Act 1919* creates a statutory duty of care in relation to support of land. Accordingly, a person has a duty of care not to do anything on or in relation to land being developed (the supporting land) that removes the support provided by the supporting land to any other adjoining land (the supported land).

AMENDMENT: (Tracey/Woodsmith) CARRIED AND BECAME THE MOTION.

A **DIVISION** was taken and the names of the Councillors voting FOR and AGAINST were as follows:

FOR	AGAINST
Councillor Belleli	Councillor Andrews
Councillor Bowen	Councillor Stevenson
Councillor Hughes	
Councillor Matson	
Councillor Matthews	
Councillor Nash	
Councillor Procopiadis	
Councillor Seng	
Councillor Smith	
Councillor Tracey	
Councillor White	
Councillor Woodsmith	
Total (12)	Total (2)

MOTION: (Tracey/Woodsmith) CARRIED UNANIMOUSLY – SEE RESOLUTION.

D46/12 Development Application Report - JRPP Report - 330 Anzac Parade, Kensington (DA/494/2011/A)

Having declared an interest in this matter earlier in the meeting Crs Hughes, Matson and the Mayor, Cr Nash, left the meeting during the debate and the vote on the matter.

PL52/12 **RESOLUTION: (Andrews/White)** that the assessment report from the Joint Regional Planning Panel in relation to DA/494/2011/A (330 Anzac Parade, Kensington - UNSW) be received and noted.

MOTION: (Andrews/White) CARRIED UNANIMOUSLY – SEE RESOLUTION.

Crs Hughes, Matson and the Mayor, Cr Nash, returned to the meeting.

D47/12 Development Application Report - Tyree Building - UNSW Kensington Campus (F2009/00556)

PL53/12

RESOLUTION: (Andrews/Procopiadis) that Council grant consent under Section 138 of the Roads Act and charge a nominal amount of \$10 per annum + GST for the use of the airspace covering the overhanging section of the Tyree building and that the Council's Seal be affixed to the signing of the agreement.

MOTION: (Andrews/Procopiadis) CARRIED UNANIMOUSLY - SEE RESOLUTION.

Miscellaneous Reports

M3/12 Miscellaneous Report - S94A Development Contributions Plan Review - 2012 (F2012/00110)

PL54/12

RESOLUTION: (Andrews/Procopiadis) that Council:

- a) resolve to place the attached draft s94A Development Contributions Plan (2012) on public exhibition in accordance with the Environmental Planning and Assessment Act 1979 and the Environmental Planning and Assessment Regulation 2000; and
- b) agree that the Director, City Planning may rectify any minor numerical, typographical, interpretation and formatting errors if required, in preparation for public exhibition of the draft s94A plan consistent with Council's resolution outlined above.

MOTION: (Andrews/Procopiadis) CARRIED UNANIMOUSLY - SEE RESOLUTION.

Notice of Rescission Motions

Nil.

The meeting closed at 8.44pm.

The minutes of this meeting were confirmed at the Planning Committee Meeting of the Council of the City of Randwick held on Tuesday, 12 June 2012.
