

Development Application Compliance Report

Folder /DA No:	DA/679/2017
PROPERTY:	417-439R Bunnerong Road, MAROUBRA NSW 2035
Proposal:	Installation of flood lights to ten tennis courts at Heffron Park.
Recommendation:	Approval

Relevant Environment Planning Instruments:

1. Randwick LEP 2012

The subject site is zoned RE1 Public Recreation under Randwick LEP 2012. The proposed development is classified as a recreation facility (outdoor) and is permissible in the zone. The zoning objectives are addressed as follows:

- *To enable land to be used for public open space or recreational purposes.*
- *To provide a range of recreational settings and activities and compatible land uses.*
- *To protect and enhance the natural environment for recreational purposes.*
- *To protect, manage and restore areas with high biodiversity, ecological and aesthetic values, including buffer areas and habitat corridors*

The proposed installation of flood lights associated with the tennis courts is consistent with the first and second objectives by facilitating the use of public open space for recreational purposes.

No other provisions under the RLEP 2012 are applicable to the proposal.

2. Randwick Comprehensive DCP

3.1 Part F – Miscellaneous Controls, Randwick Development Control Plan

The DCP provisions are structured into two components, Objectives and Controls. The Objectives provide the framework for assessment under each requirement and outline key outcomes that a development is expected to achieve. The controls contain both numerical standards and qualitative provisions. Any proposed variations from the controls may be considered only where the applicant successfully demonstrates that an alternative solution could result in a more desirable planning and urban design outcome.

The proposal complies with the provisions of Section F1 Development in Recreation Zones given the proposed installation of flood lights for a new tennis court is consistent with the Heffron Park Plan of Management 2009 and the identified need for replacement tennis facilities within Heffron Park.

3. 79C Matters for consideration

Section 79C 'Matters for Consideration'	Comments
Environmental Planning Instruments	
Section 79C(1)(a)(i) – Provisions of any environmental planning	The site is zoned RE 1 Public Recreation under Randwick Local Environmental Plan 2012 and the proposal is permissible with Council's consent.

Section 79C 'Matters for Consideration'	Comments
Environmental Planning Instruments	
instrument	The proposal is consistent with the specific objectives of the zone in that the proposal will be compatible with the existing and desired future character of the locality. It will facilitate the identified need for replacement tennis court facilities within Heffron Park in accordance with the Heffron Park Plan of Management 2009.
Section 79C(1)(a)(ii) – Provisions of any draft environmental planning instrument	Nil.
Section 79C(1)(a)(iii) – Provisions of any development control plan	The proposal satisfies the objectives and controls of Randwick Comprehensive DCP 2013.
Section 79C(1)(a)(iiia) – Provisions of any Planning Agreement or draft Planning Agreement	Not applicable.
Section 79C(1)(a)(iv) – Provisions of the regulations	The relevant clauses of the Regulations have been satisfied.
Section 79C(1)(b) – The likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in the locality	<p>The environmental impacts of the proposed development on the natural and built environment, which are otherwise not addressed in this report, are discussed in the paragraphs below.</p> <p>The proposed development is consistent with the recreational values of an existing recreation area, being Heffron Park. The proposal would not result in detrimental social or economic impacts on the locality and is considered likely to result in positive social impacts in the locality.</p>
Section 79C(1)(c) – The suitability of the site for the development	The site is located in close proximity to local services and public transport. The site has sufficient area to accommodate the proposed land use and associated structures. Therefore, the site is considered suitable for the proposed development.
Section 79C(1)(d) – Any submissions made in accordance with the EP&A Act or EP&A Regulation	No submissions were received by Council.
Section 79C(1)(e) – The public interest	The proposal promotes the objectives of the zone and will not result in any significant adverse environmental, social or economic impacts on the locality. Accordingly, the proposal is considered to be in the public interest.

4. Referral Comments

No referral comments were required as a part of this proposal.

5. DEVELOPMENT CONSENT CONDITIONS

GENERAL CONDITIONS

The development must be carried out in accordance with the following conditions of consent.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of environmental amenity.

Approved Plans & Supporting Documentation

1. The development must be implemented substantially in accordance with the plans and supporting documentation listed below and endorsed with Council's approved stamp, except where amended by Council in red and/or by other conditions of this consent:

Plan	Drawn by	Dated	Received by Council
Dwg. No. L02, Heffron Park Tennis Courts Masterplan, Rev. B*	JMD Design	24.10.17	1.11.17
Dwg. No. L03, Heffron Park Tennis Courts Sections, Rev. B*	JMD Design	24.10.17	1.11.17

*This approval relates to the installation of flood lights on 12m high light poles only. No other works form part of this approval.

REQUIREMENTS BEFORE A CONSTRUCTION CERTIFICATE CAN BE ISSUED

The following conditions of consent must be complied with before a 'Construction Certificate' is issued by either Randwick City Council or an Accredited Certifier. All necessary information to demonstrate compliance with the following conditions of consent must be included in the documentation for the construction certificate.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent conditions and to achieve reasonable levels of environmental amenity.

Consent Requirements

2. The requirements and amendments detailed in the 'General Conditions' must be complied with and be included in the construction certificate plans and associated documentation.

Sydney Water Requirements

3. All building, plumbing and drainage work must be carried out in accordance with the requirements of the Sydney Water Corporation.

The approved plans must be submitted to the Sydney Water [Tap in™](#) online service, to determine whether the development will affect Sydney Water's waste water and water mains, stormwater drains and/or easements, and if any further requirements need to be met.

The Sydney Water [Tap in™](#) online service replaces the Quick Check Agents as of 30 November 2015.

The [Tap in™](#) service provides 24/7 access to a range of services, including:

- Building plan approvals
- Connection and disconnection approvals
- Diagrams
- Trade waste approvals
- Pressure information
- Water meter installations
- Pressure boosting and pump approvals
- Change to an existing service or asset, e.g. relocating or moving an asset.

Sydney Water's Tap in™ in online service is available at:
<https://www.sydneywater.com.au/SW/plumbing-buildingdeveloping/building/sydney-water-tap-in/index.htm>

The Principal Certifying Authority must ensure that the developer/owner has submitted the approved plans to Sydney Water Tap in online service.

Long Service Levy Payments

4. The required Long Service Levy payment, under the *Building and Construction Industry Long Service Payments Act 1986*, must be forwarded to the Long Service Levy Corporation or the Council, in accordance with Section 109F of the *Environmental Planning & Assessment Act 1979*.

At the time of this development consent, Long Service Levy payment is applicable on building work having a value of \$25,000 or more, at the rate of 0.35% of the cost of the works.

Light Spill

5. Prior to the issue of any construction certificate, details demonstrating that the flood lights have been designed in accordance with AS 4282-1997 *Control of the obtrusive effects of Outdoor Lighting*. The lighting design also been prepared in accordance with AS 2560.1:2007 *Sports Lighting – General Principles*, AS 2560.2.1: 2003 *Sports Lighting for Outdoor Netball and Basketball* and AS 3000: 2007 *Australian Wiring Rules* shall be submitted to and approved by the Manager Development Assessment.

Compliance Fee

6. A development compliance and enforcement fee of \$407.35 shall be paid to Council in accordance with Council's adopted Fees & Charges Pricing Policy, prior to the issue of a Construction Certificate for development.

REQUIREMENTS TO BE INCLUDED IN THE CONSTRUCTION CERTIFICATE

The requirements contained in the following conditions of consent must be complied with and details of compliance must be included in the construction certificate for the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Councils development consent conditions and to achieve reasonable levels of environmental amenity.

Building Code of Australia & Fire Safety

6. In accordance with section 80 A (11) of the *Environmental Planning & Assessment Act 1979* and clause 98 of the *Environmental Planning & Assessment Regulation 2000*, it is a prescribed condition that all building work must be carried out in accordance with the provisions of the Building Code of Australia (BCA). Details of compliance are to be provided in the construction certificate.

REQUIREMENTS PRIOR TO THE COMMENCEMENT OF ANY WORKS

The following conditions of consent must be complied with prior to the commencement of any works on the site. The necessary documentation and information must be provided to the Council or the 'Principal Certifying Authority' (PCA), as applicable.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity.

Certification, PCA & other Regulatory Requirements

7. Prior to the commencement of any building works, the following requirements must be

complied with:

- a) a Construction Certificate must be obtained from the Council or an accredited certifier, in accordance with the provisions of the *Environmental Planning & Assessment Act 1979*.

A copy of the construction certificate, the approved development consent plans and consent conditions must be kept on the site at all times and be made available to the Council officers and all building contractors for assessment.

- b) a Principal Certifying Authority (PCA) must be appointed to carry out the necessary building inspections and to issue an occupation certificate; and
- c) the *principal contractor* must be advised of the required *critical stage inspections* and other inspections to be carried out, as specified by the *Principal Certifying Authority*; and
- d) at least two days notice must be given to the Council, in writing, prior to commencing any works; and
- e) the relevant requirements of the *Home Building Act 1989* (as applicable) must be complied with and details provided to the Principal Certifying Authority and Council.

Construction Noise & Vibration Management Plan

8. Noise and vibration emissions during the construction of the building and associated site works must not result in damage to nearby premises or result in an unreasonable loss of amenity to nearby residents and the relevant requirements and NSW EPA Guidelines of the Protection of the Environment Operations Act 1997 must be satisfied at all times.

Noise and vibration from any rock excavation machinery, pile drivers and all plant and equipment must be minimised, by using appropriate plant and equipment, silencers and the implementation of noise management strategies.

A *Construction Noise and Vibration Management Plan*, prepared in accordance with the DECC Construction Noise Guideline, by a suitably qualified person is to be developed and implemented throughout the works, to the satisfaction of the Council. A copy of the plan must be provided to the Council and Principal Certifying Authority prior to the commencement of site works.

Construction Site Management Plan

10. A Construction Site Management Plan must be developed and implemented prior to the commencement of any works. The construction site management plan must include the following measures, as applicable to the type of development:

- location and construction of protective fencing / hoardings to the perimeter of the site;
- location of site storage areas/sheds/equipment;
- location of building materials for construction;
- provisions for public safety;
- dust control measures;
- site access location and construction
- details of methods of disposal of demolition materials;
- protective measures for tree preservation;
- provisions for temporary sanitary facilities;
- location and size of waste containers/bulk bins;
- details of proposed sediment and erosion control measures;
- provisions for temporary stormwater drainage;
- construction noise and vibration management;
- construction traffic management details.

The site management measures must be implemented prior to the

commencement of any site works and be maintained throughout the works, to the satisfaction of Council.

A copy of the Construction Site Management Plan must be provided to the Principal Certifying Authority and Council prior to commencing site works. A copy must also be maintained on site and be made available to Council officers upon request.

Demolition & Construction Waste

- 11. A Demolition and Construction Waste Management Plan (WMP) must be developed and implemented for the development.

The Waste Management Plan must provide details of the type and quantities of demolition and construction waste materials, proposed re-use and recycling of materials, methods of disposal and details of recycling outlets and land fill sites. Where practicable waste materials must be re-used or recycled, rather than disposed and further details of Council's requirements including relevant guidelines and pro-forma WMP forms can be obtained from Council's Customer Service Centre or by telephoning Council on 1300 722 542. Details and receipts verifying the recycling and disposal of materials must be kept on site at all times and presented to Council officers upon request.

Public Utilities

- 12. A Public Utility Impact Assessment must be carried out to identify all public utility services located on the site, roadway, nature strip, footpath, public reserve or any public areas associated with and/or adjacent to the building works.

REQUIREMENTS DURING CONSTRUCTION & SITE WORK

The following conditions of consent must be complied with during the demolition, excavation and construction of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000* and to provide reasonable levels of public health, safety and environmental amenity during construction.

Inspections During Construction

- 13. The building works must be inspected by the Principal Certifying Authority, in accordance with sections 109 E (3) of the Environmental Planning & Assessment Act 1979 and clause 162A of the Environmental Planning & Assessment Regulation 2000, to monitor compliance with the relevant standards of construction, Council's development consent and the construction certificate.

Site Signage

- 14. A sign must be erected and maintained in a prominent position on the site for the duration of the works, which contains the following details:

- name, address, contractor licence number and telephone number of the *principal contractor*, including a telephone number at which the person may be contacted outside working hours, or *owner-builder* permit details (as applicable)
- Name, address and telephone number of the Principal Certifying Authority,
- A statement stating that "unauthorised entry to work site is prohibited".

Permitted Working Hours

- 15. Building, demolition and associated site works must be carried out in accordance with the following requirements:

Activity	Permitted working hours
All building, demolition and site work,	• Monday to Friday - 7.00am to

including site deliveries (except as detailed below)	<p>5.00pm</p> <ul style="list-style-type: none"> • Saturday - 8.00am to 5.00pm • Sunday & public holidays - No work permitted
Excavating or sawing of rock, use of jack-hammers, pile-drivers or the like	<ul style="list-style-type: none"> • Monday to Friday - 8.00am to 5.00pm • Saturday - No work permitted • Sunday & public holidays - No work permitted
Internal work only within a commercial or industrial development, located in a commercial or industrial zone, which is not audible within any residential dwelling or commercial or industrial premises	<ul style="list-style-type: none"> • Monday to Saturday - No time limits (subject to column 1) • Sunday & public holidays - No work permitted
Additional requirements for all development (except for single residential dwellings)	<ul style="list-style-type: none"> • Saturdays and Sundays where the preceding Friday and/or the following Monday is a public holiday - No work permitted

An application to vary the abovementioned hours may be submitted to Council's Manager Health, Building & Regulatory Services for consideration and approval to vary the specified hours may be granted in exceptional circumstances and for limited occasions (e.g. for public safety, traffic management or road safety reasons). Any applications are to be made on the standard application form and include payment of the relevant fees and supporting information. Applications must be made at least 10 days prior to the date of the proposed work and the prior written approval of Council must be obtained to vary the standard permitted working hours.

Sediment & Erosion Control

16. Sediment and erosion control measures, must be implemented throughout the site works in accordance with the manual for Managing Urban Stormwater – Soils and Construction, published by Landcom, to Council's satisfaction.

Details of the sediment and erosion control measures to be implemented on the site must be provided to the Principal Certifying Authority and a copy must be maintained on site and be made available to Council officers upon request

Construction Site Management

17. Public health, safety and convenience must be maintained at all times during demolition and building works and the following requirements must be complied with at all times:
- a) A sign must be provided and maintained in a prominent position throughout the works, which contains the following details:
 - name, address, contractor licence number and telephone number of the *principal contractor*, including a telephone number at which the person may be contacted outside working hours, or *owner-builder* permit details (as applicable)
 - name, address and telephone number of the *Principal Certifying Authority*,
 - a statement stating that "unauthorised entry to the work site is prohibited".
 - a) The roadway, footpath and nature strip must be maintained in a good, safe condition and free from any obstructions, trip hazards, materials, soils or debris at all times. Any damage caused to the road, footway or nature strip must be repaired immediately, to the satisfaction of Council.
 - b) Building materials, sand, soil, waste materials, construction equipment or other materials or articles must not be placed upon the footpath, roadway or nature strip at any time and the footpath, nature strip and road must be maintained in a clean condition and free from any obstructions, soil and debris at all times.

- c) Bulk bins, waste containers or other articles must not be located upon the footpath, roadway or nature strip at any time without the prior written approval of the Council. Applications to place a waste container or other articles in a public place can be made to Council's Building Services section.
- d) During demolition and construction, sediment laden stormwater run-off shall be controlled using the sediment control measures outlined in the manual for Managing Urban Stormwater – Soils and Construction, published by Landcom.

Details of the proposed sediment control measures are to be detailed in the *site management plan* which must be submitted to the Principal Certifying Authority and Council prior to the commencement of any site works. The sediment and erosion control measures must be implemented prior to the commencement of any site works and be maintained throughout construction. A copy of the plan is to be maintained on-site and be made available to Council officers upon request.

- e) Public safety must be maintained at all times and public access to any demolition and building works, materials and equipment on the site is to be restricted. If necessary, a temporary safety fence or hoarding (having a minimum height of 1.5m) is to be provided to protect the public. Temporary site fences are to be structurally adequate, safe and be constructed in a professional manner and the use of poor quality materials or steel reinforcement mesh as fencing is not permissible. If necessary, an overhead (B Class type) hoarding may be required to protect the public or occupants of the adjoining premises from falling articles or materials.

If it is proposed to locate any site fencing, hoardings or items upon any part of the footpath, nature strip or any public place, a Local Approval application must be submitted to and approved by Council's Health, Building & Regulatory Services department beforehand. Details and plans are to be submitted with the application, together with payment of the weekly charge in accordance with Council's adopted Pricing Policy.

- f) Adequate provisions must be made to ensure pedestrian safety and traffic flow during the site works and traffic control measures are to be implemented in accordance with the relevant provisions of the Roads and Traffic Manual "Traffic Control at Work Sites" (Version 4), to the satisfaction of Council.
- g) A Road / Asset Opening application must be submitted to and be approved by Council prior to carrying out any works within or upon a road, footpath, nature strip or in any public place, in accordance with section 138 of the *Roads Act 1993* and all of the conditions and requirements contained in the Road / Asset Opening Permit must be complied with.

All works within or upon the road reserve, footpath, nature strip or other public place are to be completed to the satisfaction of Council, prior to the issuing of an occupation certificate for the development. For further information, please contact Council's Road / Asset Opening Officer on 9399 0691 or 9399 0999.

REQUIREMENTS PRIOR TO THE ISSUE OF AN OCCUPATION CERTIFICATE

The following conditions of consent must be complied with prior to the 'Principal Certifying Authority' issuing an 'Occupation Certificate'.

Notes: An Occupation Certificate must be obtained from the PCA prior to occupation and use of the premises.

For the purpose of this consent, any reference to 'occupation certificate' shall also be taken to mean 'interim occupation certificate' unless otherwise stated.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health, safety and amenity.

Occupation Certificate Requirements

19. An Occupation Certificate must be obtained from the Principal Certifying Authority prior to any occupation or use of the development encompassed in this development consent (including alterations, additions and 'fit-out' work to existing buildings), in accordance with the relevant provisions of the *Environmental Planning & Assessment Act 1979*.

An Occupation Certificate must not be issued for the development if the development is inconsistent with the development consent. The requirements of the *Environmental Planning & Assessment Act 1979* and conditions of development consent must be satisfied prior to the issuing of an occupation certificate.

OPERATIONAL CONDITIONS

The following operational conditions must be complied with at all times, throughout the use and operation of the development.

These conditions have been applied to satisfy the relevant requirements of the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, Council's development consent and to maintain reasonable levels of public health and environmental amenity.

Environmental Amenity

20. The use and operation of the premises shall not give rise to an environmental health or public nuisance, cause a vibration nuisance or, result in an offence under the Protection of the Environment Operations Act 1997 and Regulations.
21. The proposed use and operation of the premises (including all plant and equipment) must not give rise to an 'offensive noise' as defined in the Protection of the Environment Operations Act 1997 and Regulations.

In this regard, the operation of the premises and plant and equipment shall not give rise to a sound pressure level at any affected premises that exceeds the background (LA90), 15 min noise level, measured in the absence of the noise source/s under consideration by more than 5dB(A). The source noise level shall be assessed as an LAeq, 15 min and adjusted in accordance with the NSW Office of Environment & Heritage/Environment Protection Authority Industrial Noise Policy 2000 and Environmental Noise Control Manual (sleep disturbance).

Hours of Operation

23. The flood lights are to be switched off at 10pm and switched on no earlier than 7am, seven days per week.

GENERAL ADVISORY NOTES

The following information is provided for your assistance to ensure compliance with the *Environmental Planning & Assessment Act 1979*, *Environmental Planning & Assessment Regulation 2000*, or other relevant legislation and requirements. This information does not form part of the conditions of development consent pursuant to Section 80A of the Act.

- A1 The requirements and provisions of the *Environmental Planning & Assessment Act 1979* and *Environmental Planning & Assessment Regulation 2000*, must be fully complied with at all times. Failure to comply with these legislative requirements is an offence and may result in the commencement of legal proceedings, issuing of 'on-the-spot' penalty infringements or service of a notice and order by Council.

- A2 All new building work (including alterations, additions and building renovations) must comply with the Building Code of Australia (BCA) and relevant Australian Standards and details of compliance must be provided in the Construction Certificate application.
- A3 This determination does not include an assessment of the proposed works under the Building Code of Australia (BCA) and other relevant Standards. All new building work (including alterations and additions) must comply with the BCA and relevant Standards and you are advised to liaise with your architect, engineer and building consultant prior to lodgement of your construction certificate.
- A4 A Local Approval application must be submitted to and be approved by Council's Building Approvals & Certification team prior to commencing any of the following activities on a footpath, road, nature strip or in any public place:-
- Install or erect any site fencing, hoardings or site structures
 - Operate a crane or hoist goods or materials over a footpath or road
 - Placement of a waste skip or any other container or article.
- For further information please contact Council's Building Approvals & Certification team on 9093 6944.
- A5 Prior to commencing any works, the owner/builder should contact Dial Before You Dig on 1100 or www.dialbeforeyoudig.com.au and relevant Service Authorities, for information on potential underground pipes and cables within the vicinity of the development site.
